## **F O Matthiessen The Politics Of Critic:**

**F.O. Matthiessen and the Politics of Criticism** William E. Cain, 1988 F O Matthiessen remains one of America's leading twentieth century critics in part because the problems he and his contemporaries struggled with remain ours today. William E. Cain studies Matthiessen's career with careful attention to biographical, institutional, literary, and political contexts. He considers Matthiessen's many reviews and essays on literature and deals sympathetically but critically with Matthiessen's attitudes toward the Cold War as revealed in his memoir *From the Heart of Europe*. Cain draws connections between Matthiessen's criticism and the influence of significant political movements like the Popular Front of the 1930s, the Progressive Party, and Henry Wallace's campaign for the presidency in 1948. Analyzing specific texts by Thoreau, James Dreiser, and Melville, he confronts the difficult and highly contested relationships between literary criticism and politics, scholarship and the public sphere, pedagogy and social activism. He suggests that critics need to acknowledge the primacy of their political commitments and should proceed to teach and write accordingly. This argument, certain to prove a controversial one, will spark extensive debate and discussion about the theory and practice of intellectual work. All students and scholars of English and American literature, American studies, black studies, and American history will welcome this original and stimulating study, the first to treat Matthiessen in fully detailed social, historical, and political contexts. F. O. Matthiessen and the Politics of Criticism William E. Cain, 1988-01-01

Twentieth-Century Humanist Critics William Calin, 2007-01-01 The *Twentieth Century Humanist Critics* revisits the work and place of eight scholars roughly contemporary with Anglo-American New Criticism: Leo Spitzer, Ernst Robert Curtius, Erich Auerbach, Albert B. Guin, Jean Rousset, C. S. Lewis, F. O. Matthiessen, and Northrop Frye. William Calin first considers the achievements of each critic, examining his methodology and basic presuppositions as well as the critiques marshalled against him. Calin explores their relation to history, to canon formation, and to our current theoretical debates. He then goes on to show how all eight form a current in the history of criticism related to both humanism and modernism. Underscoring the international, cosmopolitan aspects of literary scholarship in the twentieth century, *The Twentieth Century Humanist Critics* brings together humanist critical traditions from Europe, the United Kingdom, and North America and reveals the surprising extent to which, in various languages and academic systems, critics were posing similar questions and offering a gamut of similar responses.

American Cultural Critics David Murray, 1995 This collection of essays assesses the work of a number of American intellectuals including Susan Sontag, F. O. Matthiessen, Daniel Bell, and Hannah Arendt, who have addressed issues of culture and its multifaceted relations to politics, history, sociology, and literary criticism. Concentrating on writing since 1940, the essays examine the central themes of American postwar intellectual history, including the continuing reaction to or against modernity and technology, the legacies of Marxism and psychoanalysis, and the re-examination of American founding principles and figures in conservative or liberal terms. Europe The fourth is the emergence and fate of the American Renaissance as the scholar and literary critic F O Matthiessen carried a canon of radical literature across the Iron Curtain Each chapter culminates in the postwar period when the ruin of postwar Europe led writers and intellectuals on both sides of the Atlantic to understand America in new ways Many of our modern myths of the United States and Europe were formed in this moment Some saw the United States assume the mantle of cultural redeemer Others saw a stereotypical America rich in civilization but poor in culture overtake a stereotypical Europe rich in culture and equally rich in disaster Drawing on American and European archives the book weaves cultural intellectual and diplomatic history with portraits of Matthiessen Margaret Mead Ruth Benedict David Riesman Alfred Kazin and Ralph Ellison It excavates the history of the Salzburg Seminar in American Civilization where displaced persons former Nazis budding Communists and glad handing Americans met on the common ground of American culture Others found keys to their own contexts in American books reading Moby Dick in the ruins Nightmare Envy and Other Stories chronicles American encounters with European disaster European encounters with American fiction and the chasms over which culture had to reach

**Turncoats, Traitors, and Fellow Travelers** Arthur Redding, 2009-10-08 The Cold War was unique in the way films books television shows colleges and universities and practices of everyday life were enlisted to create American political consensus This coercion fostered a seemingly hegemonic nationally unified perspective devoted to spreading a capitalist socially conservative notion of freedom throughout the world to fight Communism In Turncoats Traitors and Fellow Travelers Culture and Politics of the Early Cold War Arthur Redding traces the historical contours of this manufactured consent by considering the ways in which authors playwrights and directors participated in responded to and resisted the construction of Cold War discourses The book argues that a fugitive resistance to the status quo emerged as writers and activists variously fled into exile went underground or grudgingly accommodated themselves to the new spirit of the times To this end Redding examines work by a wide swath of creators including essayists W E B Du Bois and F O Matthiessen novelists Ralph Ellison Patricia Highsmith Jane Bowles and Paul Bowles playwrights Arthur Miller poets Sylvia Plath and filmmakers Elia Kazan and John Ford The book explores how writers and artists created works that went against mainstream notions of liberty and offered alternatives to the false dichotomy between capitalist freedom and totalitarian tyranny These complex responses and the era they reflect had and continue to have profound effects on American and international cultural and intellectual life as can be seen in the connections Redding makes between past and present

**The American Renaissance Reconsidered** Walter Benn Michaels, Donald E. Pease, 1989-09 The term American Renaissance designates a period in our nation's history when the literary classics appeared works original enough to mark a beginning for America's literary history But the American Renaissance Donald Pease argues in his introduction does not belong to the nation's secular history so

much as it denotes a rebirth from it Independent of the time kept by secular history the American Renaissance keeps what we could call global Renaissance time the sacred time a nation claims to renew when it claims its cultural place as a great nation existing within a world of great nations Providing each nation with the terms for cultural greatness denied to secular history the renaissance is not an occasion occurring within any specific historical time or place so much as it is a moment of cultural achievement that repeatedly demands to be reborn The American Renaissance Reconsidered examines this demand for rebirth in terms other than those ordained by the American Renaissance itself In the seven pieces collected here it is reborn not outside of but within America s secular history as the authors examine anew the period of the American Renaissance and the period in which its history was written Contributing authors are Eric J Sundquist Jane P Tompkins Louis A Renza Jonathan Arac Donald E Pease Walter Benn Michaels and Allen Grossman Irving Howe -- Socialist, Critic, Jew Edward Alexander,1998-04-22 scrupulous fair minded and richly detailed study the book charts one of the most remarkable intellectual careers of the 20th century s latter half What is most heartening about Mr Alexander s biography is its exemplary civility and nuance in discussing ideas across the lines of political difference Nathan Glick Washington Times Anyone interested in Howe s varied career and the historical context that has given it its particular shape American radicalism the Cold War and anticommunism the New Left literary modernism Jewish life will profit handsomely from reading Alexander s respectful book Wilson Quarterly Edward Alexander s captivating study of Irving Howe is illuminating andscrupulous it is also temperate generous and deeply fair minded IfHowe were alive he would thank the author and even now in Paradise heis surely doing so while hotly continuing the discussion Cynthia Ozick a singular achievement Jerusalem Post a masterpiece National Jewish Post and Opinion meticulous scholarship felicitous writing style and a literate feistiness Chicago Jewish Star An excellent work of insight and criticism recommended for academic libraries Library Journal An insightful balanced contribution Booklist Edward Alexander s estimable intellectual biography studiously avoids both undue sentimentality and overly harsh censure Sanford Pinsker Philadelphia Inquirer Edward Alexander s well informed and engaging portrait of Irving Howe does full justice to the complexities of mind and the political passions of one of this country s leading intellectuals This bracing perceptive study honors Howe s admirable career by treating it with the same high degree of moral seriousness that characterized Howe s own work at its best Alvin H Rosenfeld Irving Howe author of World of Our Fathers the prize winning history of American Jewish immigrant culture and founding editor of the influential magazine Dissent was for over 50 years a dominant and controversial figure in American intellectual life Through a clear and eloquent study of Howe s politics writings and thought Edward Alexander constructs a sympathetic yet critical intellectual biography of this complex individual *Imagining Language in America* Michael P. Kramer,2014-07-14 In this study of the rhetoric of American writings on language Michael Kramer argues that the prevalent critical distinction between imaginative and nonimaginative writing is of limited theoretical use Breaking down the artificial disciplinary barriers between two areas of

scholarly inquiry the literature of the American Renaissance and the study of language in the United States between the Revolution and the Civil War Kramer finds in various walks of intellectual life a broad range of writers who imagined language for the new experiment in self government Each of these men combined ideas about language with ideas about America so as to form cultural fictions or creative renderings of the nation its meaning its character and how it worked In order to reassess American linguistic and literary nationalism Kramer allows Noah Webster whose influential grammatical and lexicographic works have been considered only marginal to literary history to share the stage with more conventionally literary figures the neglected Longfellow and the canonical Whitman Then an essay on The Federalist and the pragmatic language related problems faced by the founding fathers introduces revisionary analyses of two New England writers who confronted American culture and society through their Romantic critiques of language the minister and theologian Horace Bushnell and Nathaniel Hawthorne Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Revisionary Interventions Into the Americanist Canon Donald E. Pease, 1994-06-17 Throughout the era of the Cold War a consensus reigned as to what constituted the great works of American literature Yet as scholars have increasingly shown and as this volume unmistakably demonstrates that consensus was built upon the repression of the voices and historical contexts of subordinated social groups as well as literary works themselves works both outside and within the traditional canon This book is an effort to recover those lost voices Engaging New Historicist neo Marxist poststructuralist and other literary practices this volume marks important shifts in the organizing principles and self understanding of the field of American Studies Originally published as a special issue of boundary 2 the essays gathered here discuss writers as diverse as Kate Chopin Frederick Douglass Emerson Melville W D Howells Henry James W E B DuBois and Mark Twain plus the historical figure John Brown Two major sections devoted to the theory of romance and to cultural historical analyses emphasize the political perspective of New Americanist literary and cultural study Contributors William E Cain Wai chee Dimock Howard Horwitz Gregory S Jay Steven Mailloux John McWilliams Susan Mizruchi Donald E Pease Ivy Schweitzer Priscilla Wald Michael Warner Robert Weimann **Predecessors** Rob Kroes, 1999
