**Social Policy in Post-Industrial Singapore** Kwen Fee Lian, Chee-Kiong Tong, 2008-03-31 Notwithstanding the lean years that followed 1986 and 1997 sustained economic growth since the late 1970s has propelled Singapore into the post industrial age and reproduced the demographic and social structure of advanced western societies The rapid shift to a knowledge intensive economy requiring highly skilled services has resulted in a two speed society consisting of a highly competitive but rewarding sector and a marginalized population that is increasingly at risk Being avowedly anti welfarist the state for ideological reasons has resisted pressures to introduce a comprehensive welfare regime for its risk population preferring to privilege its productive citizenry Is Singapore a counter factual to the convergence thesis by preferring to put in place a social policy driven by the belief of its leaders that the more successful a society is the more it is able to care for those who fall behind      **The Well-Being of the Elderly in Asia** Albert Isaac Hermalin, 2010-09-22 In the broadest sense The Well Being of the Elderly in Asia is a study of social change and of anticipating future social change It examines the effects on the current and future elderly of the rapid demographic transition that has occurred over much of Asia accompanied in many countries by equally dramatic social and economic transformations Policymakers in Asia have been aware of these trends and their potentially deleterious consequences for a decade or more and have sought to fashion appropriate policies and programs that anticipate and mitigate their effects Accordingly any study of the sociodemographic trends and their impact must be examined in the light of policies put in place and under development      Social Security at the Dawn of the 21st Century Eugene Bardach, 2017-07-12 Presenting a periodic overview of the most significant developments and trends in the field of social security has become for the International Social Security Association a tradition and a firm commitment Benefiting from the vast quantity of information uniquely available to the ISSA its triennial review takes stock of the current state of social security world wide and focuses through expert analyses on some of the most pressing social security issues Social Security at the Dawn of the 21st Century the outcome of the most recent review is intended to significantly extend the access of an international readership to accurate and up to date information and analyses on social security which has without question developed during the twentieth century into one of the most important publicly financed and administered institutions in modern society The chapters are grouped into two parts Part one treats subjects related to policy trends and regional developments with special emphasis on such important issues as redesigning social security programs new management practices and the informal care dilemma It features major aspects of developments in Asia Pacific and Latin America Part two focuses on specific program areas with special emphasis on problems and reforms in

employment policy pension systems and public disability schemes Information is also provided on new approaches to ensuring adequate access to health care and on policies in response to changes in family structures as well as an recent experience with social assistance programs

**Successful Aging** Sheung-Tak Cheng,Iris Chi,Helene H. Fung,Lydia W. Li,Jean Woo,2015-01-26 This book brings together state of the art research on successful aging in Asian populations and highlights how the factors that contribute to successful aging differ from those in the West It examines the differences between the Asian and Western contexts in which the aging process unfolds including cultural values lifestyles physical environments and family structures In addition it examines the question of how to add quality to longer years of life Specifically it looks at ways to promote health preserve cognition maximize functioning with social support and maintain emotional well being despite inevitable declines and losses Compared to other parts of the world Asia will age more quickly as a result of the rapid socioeconomic developments leading to rising longevity and historically low fertility rates in some countries These demographic forces in vast populations such as China are expected to make Asia the main driver of global aging in the coming decades As a result researchers professionals policymakers as well as the commercial sector in both East and West are increasingly interested in gaining a deeper understanding of aging in Asia 國際人口學,2002 **Hallym International Journal of Aging** ,2001 **Journal of Comparative Family Studies** ,2008 **The Demographic Dividend** Asian Development Research Forum (Bangkok, Thailand). General Meeting,2005\* **Democratization and Welfare State Development in Taiwan** Christian Aspalter,2019-07-23 This title was first published in 2002 Since the bloodless transition from authoritarian state to fully fledged democracy Taiwan has undergone a period of dramatic social and political change In a political culture increasingly dominated by platforms built on social policy issues this book provides an intriguing case study of the application of welfare state theories to the real life social development of Taiwan Combining a state of the art discussion of the major theoretical schools of thought with in depth analysis of the electoral promises and programmes in recent Taiwanese elections the book looks at the direct causal relationship between political competition in democratic elections and welfare state construction It will prove essential reading for all those interested in the area of comparative social policy welfare theory Asian studies and politics *China's Social Insurance in the Twentieth Century* Aiqun Hu,2015-10-27 In China s Social Insurance in the Twentieth Century Aiqun Hu develops a framework of interactive diffusion of global models in examining the history of China s social insurance since the 1910s The book covers both Nationalist and Communist controlled areas 1927 1949 and Taiwan 1949 present surpassing the party divide It argues that China s progression in social insurance resulted from diffusion of two global models German capitalist and Soviet socialist social insurance until the early 1990s Thereafter China s social insurance reforms were increasingly directed by the World Bank s neoliberal models which also influenced Taiwan s pension reforms During the entire process however global forces provided the basic intellectual framework while national forces determined the timing and specifics of adopting the models

**New Welfare States in East Asia** Gyu-Jin Hwang, 2011 The fast changing economic climate is creating substantial pressure for welfare state restructuring worldwide Yet the discussion regarding challenges faced and the responses required has been confined to the standard welfare states in the West This book examines whether these challenges also apply to the countries in the East whether these countries have generated different responses to their Western counterparts and whether they have undergone a process of regime transformation while responding to these pressures Comparative in approach this book offers lively discussion on the new social challenges faced in East Asia following the unprecedented scale of the recent global financial crisis It reaches beyond policy descriptions to offer more systematic analyses of welfare restructuring in the region in relation to the fast changing global economic order By examining the dynamics of welfare state restructuring both in terms of continuity and change it explores intensified impacts of global restructuring of welfare and the nature of welfare state adaptation in the region

**Population Aging and the Generational Economy** Ronald Demos Lee, Andrew Mason, 2011-01-01 While there already exists a crowded body of publications addressing the effect of an aging population on the economy this monograph is most outstanding in presenting a global in depth analysis of the implications thereby generated for 23 developed and developing countries Scholars researchers and practitioners everywhere will benefit immensely from this comprehensive work H I Liebling Choice Ron Lee and Andrew Mason s Population Aging and the Generational Economy is a demographic and economic tour de force Their collaborative intercontinental study of aging consumption labor supply saving and private and public transfers is the place to go to understand global aging and its myriad and significant economic challenges and opportunities Laurence Kotlikoff Boston University US The culmination of work by Lee Mason and their collaborators from around the world to extend Samuelson s framework to accommodate realistic demography empirical measurement of age specific earnings consumption tax payments and benefit receipts the studies demonstrate the power of this integrated economic demographic framework to advance our understanding of critical public policy challenges faced by countries at different stages of demographic transition and population aging Robert Willis University of Michigan US Lee and Mason have done scholars and practitioners a magnificent service by undertaking this comprehensive compelling and supremely innovative examination of the economic consequences of changes in population age structure The book is a bona fide crystal ball It will be a MUST READ for the next decade David Bloom Harvard School of Public Health US Population Aging and the Generational Economy provides an encompassing account of what we know about population aging and the impact that this process will have on our economies It does not confine itself to the advanced industrial countries where aging has already been largely studied but adopts a truly global perspective I am sure it will become a key reference for researchers students and those involved in policy making in areas that are affected by population aging Giuliano Bonoli Swiss Graduate School of Public Administration IDHEAP Switzerland Over coming decades changes in population age structure will have profound implications for the macroeconomy influencing economic growth generational

equity human capital saving and investment and the sustainability of public and private transfer systems How the future unfolds will depend on key actors in the generational economy governments families financial institutions and others This path breaking book provides a comprehensive analysis of the macroeconomic effects of changes in population age structure across the globe The result of a substantial seven year research project involving over 50 economists and demographers from Africa Asia Europe Latin America and the United States the book draws on a new and comprehensive conceptual framework National Transfer Accounts to quantify the economic lifecycle and economic flows across generations It presents comprehensive estimates of both public and private economic flows between generations and emphasizes the global nature of changes in population age structure that are affecting rich and poor countries alike This unique and informative book will prove an invaluable reference tool for a wide ranging audience encompassing students researchers and academics in fields such as demography aging public finance economic development macroeconomics gerontology and national income accounting for policy makers and advisers focusing on areas of the public sector such as education health pensions other social security programs tax policy and public debt and for policy analysts at international agencies such as the World Bank the IMF and the UN

**Handbook on East Asian Social Policy** Misa Izuhara,2013-01-01 Dramatic socio economic transformations over the last two decades have brought social policy and social welfare issues to prominence in many East Asian societies Since the 1990s and in response to national as well as global pressure there have been substantial developments and reforms in social policy in the region but the development paths have been uneven Until recently comparative analysis of East Asian social policy tends to have focused on the established welfare state of Japan and the emerging welfare regimes of four Tiger Economies Much of the recent debate indeed preceded Chinas re emergence onto the world economy In this context this Handbook brings China more fully into the contemporary social policy debates in East Asia Organised around five themes from welfare state developments to theories and methodologies to current social policy issues the Handbook presents original research from leading specialists in the fields and provides a fresh and updated perspective to the study of social policy Providing a comparative international approach this Handbook will appeal to academics researchers and students at both undergraduate and postgraduate levels working in the fields of social policy as well as policy makers and practitioners who are interested in social policy lessons from other societies
