Emotion And Spirit Questioning The Claims Of Psychoanalysis And Religion

Trevor M Dobbs

Emotion And Spirit Questioning The Claims Of Psychoanalysis And Religion:

Emotion and Spirit Neville Symington, 1994-01-01 Psychoanalysis with Freud as its founder has vehemently denied the value of religious belief In this radical book Neville Symington makes the case that both traditional religion and psychoanalysis are failing because they exist apart and do not incorporate each other's value Religion needs psychoanalysis so that it can become relevant to people's emotional lives and their most intimate relationships Psychoanalysis needs religion so that it can contain those core spiritual values which give life meaning But for a fertile relationship both will need to relinquish excess baggage in the form of creeds dogma and rituals which only serve to obscure the deeper values which both are attempting to express The controversial conclusion of this fascinating study is that psychoanalysis is a spirituality in the world or a mature religion and inseparable from acts of virtue

Psychoanalysis and Religion in the 21st Century

David M. Black, 2012-07-26 What can be gained from a dialogue between psychoanalysis and religion Freud described religion as the universal obsessional neurosis and uncompromisingly rejected it in favour of science Ever since there has been the assumption that psychoanalysts are hostile to religion Yet from the beginning individual analysts have questioned Freud's blanket rejection of religion In this book David Black brings together contributors from a wide range of schools and movements to discuss the issues They bring a fresh perspective to the subject of religion and psychoanalysis answering vital questions such as How do religious stories carry or distort psychological truth How do religions work psychologically What is the nature of religious experience Are there parallels between psychoanalysis and particular religious traditions Psychoanalysis and Religion in the 21st Century will be of great interest to psychoanalysts psychoanalytic therapists psychodynamic counsellors and anyone interested in the issues surrounding psychoanalysis religion theology and spirituality

"Faith, Theology and Psychoanalysis" Trevor M Dobbs, 2010-03-25 This book traces the various influences on the development of Harry S Guntrip's thought including his personal history of family relationships memberships in various religious organizations and the weight of his academic professional mentors both theological and psychoanalytic Ronald Fairbairn and Donald Winnicott Guntrip both a minister and lay therapist is shown as a fascinating example of the adversarial tension between psychology and theology commonly known as the battle between science and religion

Psychoanalysis as a Spiritual Discipline Paul Marcus, 2021-04-27 The great existential psychiatrist Ludwig Binswanger famously pointed out to Freud that therapeutic failure could only be understood as the result of something which could be called a deficiency of spirit Binswanger was surprised when Freud agreed asserting Yes spirit is everything However spirit and the spiritual realm have largely been dropped from mainstream psychoanalytic theory and practice This book seeks to help revitalize a culturally aging psychoanalysis that is in conceptual and clinical disarray in the marketplace of ideas and is viewed as a theory in crisis no longer regarded as the primary therapy for those who are suffering The author argues that psychoanalysis and psychoanalytic psychotherapy can be reinvigorated as a discipline if it is animated by the powerfully evocative spiritual moral

and ethical insights of two dialogical personalist religious philosophers Martin Buber a Jew and Gabriel Marcel a Catholic who both initiated a Copernican revolution in human thought In chapters that focus on love work faith suffering and clinical practice Paul Marcus shows how the spiritual optic of Buber and Marcel can help revive and refresh psychoanalysis and bring it back into the light by communicating its inherent vitality power and relevance to the mental health community and to those who seek psychoanalytic treatment The Poetry, Art and Science of Psychoanalysis in Bion's O Annie

Reiner,2025-10-20 The Poetry Art and Science of Psychoanalysis in Bion's O pays homage to Wilfred Bion's lifelong love of poetry and his desire to integrate it with his psychoanalytic work as a means of communicating profound levels of emotional experience Annie Reiner was a student of Bion in the 1970s in Los Angeles She illustrates here the fundamental similarities in the states of mind of creative people across diverse disciplines in the Arts and Sciences to exemplify Bion's concept of O Reiner herself a poet and artist shows how psychoanalysis and poetry rely on the same tools symbols metaphors images and narrative to communicate and express otherwise inexpressible metaphysical matters of mental life Focusing on key psychoanalytic ideas such as dream interpretation and trauma she weaves in the poetry of Rumi Pablo Neruda Fernando Pessoa and William Blake and ideas of artists like Matisse Rothko and Jackson Pollock as well as ideas of Christian and Hindu mystics to show analysts how creative arts can help them better understand primitive mental life She shows how examining ideas from other disciplines in the arts philosophy and religious thought can reveal an underlying unity of our ancient efforts to understand ourselves as human beings Written in an accessible style and drawing on Reiner's decades of experience within the creative and psychoanalytic fields this book is a valuable resource to all analysts in training and practice as well as those interested in understanding the deeper levels of the mind and emotional life **Spirituality and Psychiatry** Chris

Mirroring and Attunement Kenneth Wright, 2009-05-07 *Mirroring and Attunement* offers a new approach to psychoanalysis artistic creation and religion Viewing these activities from a broadly relational perspective Wright proposes that each provides a medium for creative dialogue the artist discovers himself within his self created forms the religious person through an internal dialogue with God and the analysand through the inter subjective medium of the analysis Building on the work of Winnicott Stern and Langer the author argues that each activity is rooted in the infant's preverbal relationship with the mother who holds the emerging self in an ambience of mirroring forms thereby providing a place for the self to be He suggests that the need for subjective reflection persists throughout the life cycle and that psychoanalysis artistic creation and religion can be seen as cultural attempts to provide the self with resonant containment They thus provide renewed opportunities for holding and emotional growth *Mirroring and Attunement* will provide essential reading for psychoanalysts psychotherapists and art therapists and be of interest to anyone working at the interface between psychoanalysis art and religion

Kenny, 2015-03-05 *Choice Essential Read* Did God create man or did man create God In this book Dianna Kenny examines religious belief through a variety of perspectives psychoanalytic cognitive neuropsychological sociological historical and psychiatric to provide a coherent account of why people might believe in God She argues that psychoanalytic theory provides a fertile and creative approach to the study of religion that attempts to integrate religious belief with our innate human nature and developmental histories that have unfolded in the context of our socialization and cultural experiences Freud argued that religion is so compelling because it solves the problems of our existence It explains the origin of the universe offers solace and protection from evil and provides a blueprint about how we should live our lives with just rewards for the righteous and due punishments for sinners and transgressors Science on the other hand offers no such explanations about the universe or the meaning of our lives and no comfort for the unanswered longings of the human race Is religion a form of wish fulfilment a collective delusion to which we cling as we try to fathom our place and purpose in the drama of cosmology Can there be morality without faith Are science and religion radically incompatible What are the roots of fundamentalism and terror theology These are some of the questions addressed in *God Freud and Religion* a book that will be of interest to psychoanalysts psychologists and psychotherapists students of psychology psychoanalysis philosophy and theology and all those with an interest in religion and

The Good Life Jeffrey B. Rubin, 2012-02-01 Psychoanalysts have traditionally been expert at uncovering what afflicts and damages people argues Jeffrey B Rubin but by focusing on narcissism and perversions depression and sadism psychoanalysis has all too often disregarded what nourishes and sustains us In *The Good Life* he demonstrates how psychoanalysis can make a profound contribution to the well lived life by drawing on a neglected but potent aspect of psychoanalysis its capacity to illuminate a psychology of health as well as illness Rubin shows that at its best psychoanalysis can highlight both the ingredients of love ethics creativity and spirituality as well as the obstacles to experiencing them Exploring the good life from this dual perspective provides an indispensable resource for helping us live with greater meaning and vitality

Changing the Scientific Study of Religion: Beyond Freud? Jacob A. v. van Belzen, 2009-06-18 The psychoanalytic approach to religion has changed radically during the course of the twentieth century In both clinical and theoretical work in psychoanalysis developments have taken place that frequently are not noted by persons who assume that all that can be said has been said by Freud The study of religious phenomena persons events and traditions has always been a substantial part of applied psychoanalysis and here also major developments have taken place It is no exaggeration to state that the scientific study of religion has been revolutionized by the integration of psychological perspectives including the field of psychoanalysis This volume differs from other recent publications on the topic of psychoanalysis and religion in drawing upon the entire field of psychoanalytic involvement with religion It is interdisciplinary in approach and unlike other books on the topic brings together an exceptional combination of theoretical empirical and clinical studies No other book provides integrated examples of all three types of work

Who Is the Dreamer, Who Dreams the Dream? James S. Grotstein, 2013-06-17 In *Who Is the Dreamer Who Dreams the Dream A Study of Psychic Presences* James Grotstein integrates some of his most important work of recent years in addressing fundamental questions of human psychology and spirituality He explores two quintessential and interrelated psychoanalytic problems the nature of the unconscious mind and the meaning and inner structure of human subjectivity To this end he teases apart the complex tangled threads that constitute self experience delineating psychic presences and mystifying dualities subjects with varying perspectives and functions and objects with different often phantasmagoric properties Whether he is expounding on the Unconscious as a range of dimensions understandable in terms of nonlinear concepts of chaos complexity and emergence theory modifying the psychoanalytic concept of psychic determinism by joining it to the concept of autochthony comparing Melanie Klein's notion of the archaic Oedipus complex with the ancient Greek myth of the labyrinth and the Minotaur or examining the relationship between the stories of Oedipus and Christ Grotstein emerges as an analyst whose clinical sensibility has been profoundly deepened by his scholarly use of mythology classical thought and contemporary philosophy The result is both an important synthesis of major currents of contemporary psychoanalytic thought and a moving exploration

of the nature of human suffering and spirituality
