Emotion Character And Responsibility:

Responsibility, Character, and the Emotions Ferdinand David Schoeman, 1987 An examination of the responsibility individuals have for their actions and characters **Emotion, Character, and Responsibility** John Sabini, Maury Silver, 1998-09-10 In their new book *Emotion Character and Responsibility* John Sabini and Maury Silver examine a conflict in the way that psychologists philosophers and ordinary people think about character Most of us share an intuition that emotions are central to who we are and the characters we have even though emotions are unchosen Yet we also share the intuition that action choice and responsibility are what count about our characters This book deals with this conflict by exploring the relations between the chosen and unchosen moral and nonmoral in sincerity loyalty sympathy shame guilt and embarrassment as they affect our characters The conflict is resolved by finding an aesthetic as well as moral basis of character Along the way the authors consider questions such as can one truly avow one's feelings and still be insincere What if anything is lacking in the Star Trek character Mr Spock Why is loyalty toward particular people and not people in general a duty Is it a good idea for guilt to replace shame How can we describe genuine self deception without relying on unconscious knowledge The book ends with the radical proposal that some of the emotions do not exist at least not in the way that motives exist We will not find them on any present or future brain scan And yet the authors argue emotions matter

Emotion, Character, and Responsibility John Sabini, Maury Silver, 1998 We do not choose our emotions yet they are fundamental to our self conception and are deeply linked to our actions and choices This book provides an insightful look at the subtle connections between emotions and our ideas about character **Advances in Experimental Philosophy of Free Will and Responsibility** Thomas Nadelhoffer, Andrew Monroe, 2022-03-24 *Advances in Experimental Philosophy of Free Will and Responsibility* brings together leading researchers from psychology and philosophy to present new findings and ideas about human agency and moral responsibility Their contributions reflect the growth of research in these areas over the past decade and highlight both the ways that philosophy can be relevant to empirical research and how empirical work can be relevant to philosophical investigations Mixing new empirical work with the meta philosophical and philosophical upshot of the latest research being done chapters cover motivated cognition and free will beliefs folk intuitions about manipulation and agency mental control in assessments of responsibility the importance of skilled decision making to free will judgments and the relationship between free will and substance dualism Blending cutting edge research from philosophy with methods from psychology this collection is a compelling example of the value of interdisciplinary approaches contributing to our understanding of the complex networks of attitudes beliefs and judgments that inform how we think about agency and responsibility Emotion, Character, and Responsibility John Sabini, Maury Silver, 1998 **In Search of Criminal Responsibility** Nicola Lacey, 2016 What makes someone responsible for a crime and therefore liable to punishment under the criminal law Modern lawyers will quickly and easily point to the criminal law's requirement of

concurrent actus reus and mens rea doctrines of the criminal law which ensure that someone will only be found criminally responsible if they have committed criminal conduct while possessing capacities of understanding awareness and self control at the time of offense Any notion of criminal responsibility based on the character of the offender meaning an implication of criminality based on reputation or the assumed disposition of the person would seem to today's criminal lawyer a relic of the 18th Century In this volume Nicola Lacey demonstrates that the practice of character based patterns of attribution was not laid to rest in 18th Century criminal law but is alive and well in contemporary English criminal responsibility attribution Building upon the analysis of criminal responsibility in her previous book *Women Crime and Character* Lacey investigates the changing nature of criminal responsibility in English law from the mid 18th Century to the early 21st Century Through a combined philosophical historical and socio legal approach this volume evidences how the theory behind criminal responsibility has shifted over time The character and outcome responsibility which dominated criminal law in the 18th Century diminished in ideological importance in the following two centuries when the idea of responsibility as founded in capacity was gradually established as the core of criminal law Lacey traces the historical trajectory of responsibility into the 21st Century arguing that ideas of character responsibility and the discourse of responsibility as founded in risk are enjoying a renaissance in the modern criminal law These ideas of criminal responsibility are explored through an examination of the institutions through which they are produced interpreted and executed the interests which have shaped both doctrines and institutions and the substantive social functions which criminal law and punishment have been expected to perform at different points in history

Answering for Crime R A Duff, 2007-11-16 In this long awaited book Antony Duff offers a new perspective on the structures of criminal law and criminal liability His starting point is a distinction between responsibility understood as answerability and liability and a conception of responsibility as relational and practice based This focus on responsibility as a matter of being answerable to those who have the standing to call one to account throws new light on a range of questions in

criminal law theory on the question of criminalisation which can now be cast as the question of what we should have to answer for and to whom under the threat of criminal conviction and punishment on questions about the criminal trial as a process through which defendants are called to answer and about the conditions bars to trial given which a trial would be illegitimate on questions about the structure of offences the distinction between offences and defences and the phenomena of strict liability and strict responsibility and on questions about the structures of criminal defences The net result is not a theory of criminal law but it is an account of the structure of criminal law as an institution through which a liberal polity defines a realm of public wrongdoing and calls those who perpetrate or are accused of perpetrating such wrongs to account

accountability Attributability is about the having and expressing of various traits of character and it is the target of a range of aretaic sentiments and emotional practices organized around disdain and admiration Answerability is about one's capacity to govern one's actions and attitudes by one's evaluative judgments about the worth of various practical reasons and it is the target of a range of sentiments and emotional practices organized around regret and pride Accountability is about one's ability to regard others both evaluatively and emotionally and it is the target of a range of sentiments and emotional practices organized around anger and gratitude In Part One of the book this tripartite theory is developed and defended In Part Two of the book the tripartite theory's predictions about specific marginal cases are tested once certain empirical details about the nature of those agents have been filled in and discussed
