Emotions Across Languages And Cultures:

Emotions Across Languages and Cultures Anna Wierzbicka, 1999-11-18 This fascinating book explores the bodily expression of emotion in worldwide and culture specific contexts

Emotions across Languages and Cultures Anna Wierzbicka, 1999-11-18 In this ground breaking book Anna Wierzbicka brings psychological anthropological and linguistic insights to bear on our understanding of the way emotions are expressed and experienced in different cultures languages and social relations The expression of emotion in the face body and modes of speech are all explored and Wierzbicka shows how the bodily expression of emotion varies across cultures and challenges traditional approaches to the study of facial expressions This book will be invaluable to academics and students of emotion across the social sciences

"Happiness" and "Pain" across Languages and Cultures Cliff Goddard, Zhengdao Ye, 2016-07-26 In the fast growing fields of happiness studies and pain research which have attracted scholars from diverse disciplines including psychology philosophy medicine and economics this volume provides a much needed cross linguistic perspective It centres on the question of how much ways of talking and thinking about happiness and pain vary across cultures and seeks to answer this question by empirically examining the core vocabulary pertaining to happiness and pain in many languages and in different religious and cultural traditions The authors not only probe the precise meanings of the expressions in question but also provide extensive cultural contextualization showing how these meanings are truly cultural Methodologically while in full agreement with the view of many social scientists and economists that self reports are the bedrock of happiness research the volume presents a body of evidence highlighting the problem of translation and showing how local concepts of happiness and pain can be understood without an Anglo bias The languages examined include Mandarin Chinese Danish English French German Japanese Koromua a Papua New Guinean language and Latin American Spanish Originally published in *International Journal of Language and Culture* Vol 1 2 2014

Exploring Identity Across Language and Culture Alex Panicacci, 2021-11-23 This book explores the ways in which migrants experience in today's multilingual and multicultural society informs language use and processing behavioural patterns and perceptions of self identity Drawing on survey data from hundreds of Italian migrants living in English speaking countries in conjunction with more focused interviews this volume unpacks reciprocal influences between linguistic cultural and psychological variables to shed light on how migrants emotionally engage with the local and heritage dimensions across public and private spaces Visualising the impact of a constant shifting of linguistic and cultural practices can enhance our understanding of migration experiences foreign language acquisition language processing and socialisation inclusion integration social dynamics acculturation tendencies and cross cultural communication patterns Overall this book appeals to students and scholars interested in gaining nuanced insights into the linguistic cultural and psychological underpinnings of migration experiences in such disciplines as sociolinguistics cultural studies and social

psychology *The History of Emotions* Jan Plamper, 2015-01-22 The history of emotions is one of the fastest growing fields in current historical debate and this is the first book length introduction to the field synthesizing the current research and offering direction for future study The History of Emotions is organized around the debate between social constructivist and universalist theories of emotion that has shaped most emotions research in a variety of disciplines for more than a hundred years social constructivists believe that emotions are largely learned and subject to historical change while universalists insist on the timelessness and pan culturalism of emotions In historicizing and problematizing this binary Jan Plamper opens emotions research beyond constructivism and universalism he also maps a vast terrain of thought about feelings in anthropology philosophy sociology linguistics art history political science the life sciences from nineteenth century experimental psychology to the latest affective neuroscience and history from ancient times to the present day

Pragmatics across Languages and Cultures Anna Trosborg, 2010-08-31 This handbook provides a comprehensive overview as well as breaking new ground in a versatile and fast growing field It contains four sections Contrastive Cross cultural and Intercultural Pragmatics Interlanguage Pragmatics Teaching and Testing of Second Foreign Language Pragmatics and Pragmatics in Corporate Culture Communication covering a wide range of topics from speech acts and politeness issues to Lingua Franca and Corporate Crises Communication The approach is theoretical methodological as well as applied with a focus on authentic interactional data All articles are written by renowned leading specialists who provide in depth up to date overviews and view new directions and visions for future research The history of emotions Rob Boddice, 2024-02-13 This book introduces students and professional historians to the main areas of concern in the history of emotions and its intersection with emotion research in other disciplines It discusses how the emotions intersect with other lines of historical research relating to power practice society and morality The revised and fully updated second edition of the book demonstrates the field s centrality to historiographical practice as well as the importance of this kind of historical work for general interdisciplinary understandings of the value and the meaning of human experience *The Routledge Handbook of Language and Culture* Farzad Sharifian, 2014-12-17 The Routledge Handbook of Language and Culture presents the first comprehensive survey of research on the relationship between language and culture It provides readers with a clear and accessible introduction to both interdisciplinary and multidisciplinary studies of language and culture and addresses key issues of language and culturally based linguistic research from a variety of perspectives and theoretical frameworks This Handbook features thirty three newly commissioned chapters which cover key areas such as cognitive psychology cognitive linguistics cognitive anthropology linguistic anthropology cultural anthropology and sociolinguistics offer insights into the historical development contemporary theory research and practice of each topic and explore the potential future directions of the field show readers how language and culture research can be of practical benefit to applied areas of research and practice such as intercultural communication and second language teaching and learning Written by a group of prominent

scholars from around the globe The Routledge Handbook of Language and Culture provides a vital resource for scholars and students working in this area *Emotions across Cultures* David Konstan, 2022-06-21 It is now recognized that emotions have a history In this book eleven scholars examine a variety of emotions in ancient China and classical Greece in their historical and social context A general introduction presents the major issues in the analysis of emotions across cultures and over time in a given tradition Subsequent chapters consider how specific emotions evolve and change For example whereas for early Chinese thinkers worry was a moral defect it was later celebrated as a sign that one took responsibility for things In ancient Greece hope did not always focus on a positive outcome and in this respect differed from what we call hope Daring not to do or undaring was itself an emotional value in early China While Aristotle regarded the inability to feel anger as servile the Roman Stoic Seneca rejected anger entirely Hatred and revenge were encouraged at one moment in China and repressed at another Ancient Greek responses to tragedy do not map directly onto modern emotional registers and yet are similar to classical Chinese and Indian descriptions There are differences in the very way emotions are conceived This book will speak to anyone interested in the many ways that human beings feel Metaphors of ANGER across Languages: Universality and Variation Zoltan Kövecses, Réka Benczes, Veronika Széld, 2024-11-04 Anger is one of the basic emotions of human emotional experience informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context The Routledge Handbook of Language and Emotion Sonya Pritzker, Janina Fenigsen, James Wilce, 2019-12-06 The Routledge Handbook of Language and Emotion offers a variety of critical theoretical and methodological perspectives that interrogate the ways in which ideas about and experiences of emotion are shaped by linguistic encounters and vice versa Taking an interdisciplinary approach which incorporates disciplines such as linguistic anthropology sociolinguistics applied linguistics psychology communication studies education sociology folklore religious studies and literature this book explores and illustrates the relationship between language and emotion in the five key areas of language socialisation culture translation and transformation poetry pragmatics and power the affective body self and emotion communities situates our present day

thinking about language and emotion by providing a historical and cultural overview of distinctions and moral values that have traditionally dominated Western thought relating to emotions and their management provides a unique insight into the multiple ways in which language incites emotion and vice versa especially in the context of culture With contributions from an international range of leading and emerging scholars in their fields The Routledge Handbook of Language and Emotion is an indispensable resource for students and researchers who are interested in incorporating interdisciplinary perspectives on language and emotion into their work

Reconceptualising Conversion Zeba A. Crook, 2012-08-09 Die Studie nimmt die bisherige Diskussion der Konversion in der Antike neu auf durch eine Verknüpfung von klassischen epigraphischen und biblischen Quellen mit einer sozialwissenschaftlichen Methodologie Der Autor hinterfragt dabei die bisher vorausgesetzte psychologische Kontinuität zwischen antiken und modernen Menschen und bietet statt dessen ein Modell welches an den Denkvoraussetzungen der Antike selbst gebildet wurde Die griechisch-römischen und mediterranen Religionen und Philosophien also auch das hellenistische Judentum und das Christentum orientierten sich an den Modellen von Patronat und Loyalität Das Verständnis der antiken Konversion muss also hier ansetzen In diesem Zusammenhang wird auch die Bekehrung des Paulus neu gedeutet

A Prototype Approach to Hate and Anger in the Hebrew Bible Deena Grant, 2023-06-09 This innovative book applies findings from the field of cognitive linguistics to the study of emotions in the Hebrew Bible The book draws on the prototype approach to conceptual categories to help interpret emotion language in biblical passages Contemporary scholarship has come to recognize that biblical emotion terms do not necessarily possess exact equivalents within our modern lexicons even if some of these terms express or appear to express concepts similar to those conveyed by modern emotion language In particular the book focuses on *sn* and *rh* which are almost always equated in modern English with hate and anger However the ancient Hebrew roots evoke varied and robust emotion scripts that are quite different than their English counterparts We see how the prototype script model may help to expose the unique nuances of *sn* and *rh* and put into profile elements of these emotions that may otherwise go unnoticed Overall the study demonstrates that even though modern emotion terms cannot fully capture the ancient emotional experience our shared use of language to evoke meaning offers us entrance into the emotional world represented in the Hebrew Bible

Language and Emotion. Volume 1 Gesine Lenore Schiewer, Jeanette Altarriba, Bee Chin Ng, 2022-11-07 The Handbook consists of four major sections Each section is introduced by a main article Theories of Emotion General Aspects Perspectives in Communication Theory Semiotics and Linguistics Perspectives on Language and Emotion in Cultural Studies Interdisciplinary and Applied Perspectives The first section presents interdisciplinary emotion theories relevant for the field of language and communication research including the history of emotion research The second section focuses on the full range of emotion related aspects in linguistics semiotics and communication theories The next section focuses on cultural studies and language and emotion emotions in arts and literature as well as research on emotion in literary studies and media and emotion The final section covers different

domains social practices and applications such as society policy diplomacy economics and business communication religion and emotional language the domain of affective computing in human machine interaction and language and emotion research for language education Overall this Handbook represents a comprehensive overview in a rich diverse compendium never before published in this particular domain **Contacts and Contrasts in Cultures and Languages** Barbara

Lewandowska-Tomaszczyk,2019-02-18 This volume provides descriptions and interpretations of social and cognitive phenomena as well as processes that emerge at the interface of languages and cultures in the context of contrastive and contact linguistics and media discourse Different contexts are explored with rich empirical findings and authentic exemplifying materials The book includes fifteen papers divided into three parts Part 1 addresses conceptual reflection on languages and cultures in contact and contrast while Part 2 focuses on contact linguistics and borrowing Part 3 discusses cultural and linguistic aspects of media discourses Language and Emotion. Volume 2 Gesine Lenore Schiewer, Jeanette

Altarriba, Bee Chin Ng,2022-11-07 The handbook Language and Emotion is intended to give a historical and systematic profile of the area It will aim to connect contemporary and historical theories approaches and applications and to cover eastern and western perspectives of language communication and emotion It will present all relevant aspects of language and emotion and thus contribute significantly to research in the field of linguistics and semiotics of emotion **Mental**

States: Language and cognitive structure Andrea C. Schalley, Drew Khlentzos,2007 The contributions to this volume focus on what language and language use reveals about cognitive structure and underlying cognitive categories Wide ranging and thought provoking essays from linguists and psychologists within this volume investigate the insights conceptual categorization can give into the organization and structure of the mind and specific mental states Topics and linguistic phenomena discussed include narratives and story telling language development figurative language linguistic categorization linguistic relativity and the linguistic coding of mental states such as perceptions and beliefs With contributions at the forefront of current debate this book will appeal to anyone with an interest in language and the cognitive structures that support it **Emotions in Crosslinguistic Perspective** Jean Harkins, Anna Wierzbicka,2001 This volume aims to enrich

the current interdisciplinary theoretical discussion of human emotions by presenting studies based on extensive linguistic data from a wide range of languages of the world Each language specific study gives detailed semantic descriptions of the meanings of culturally salient emotion words and expressions offering fascinating insights into people's emotional lives in diverse cultures including Amharic Chinese German Japanese Lao Malay Mbula Polish and Russian The book is unique in its emphasis on empirical language data analyzed in a framework free of ethnocentrism and not dependent upon English emotion terms but relying instead on independently established conceptual universals Students of languages and cultures psychology and cognition will find this volume a rich resource of description and analysis of emotional meanings in cultural context **Bilingual Couples in Conversation** Silja Ang-Tschachtli,2022-01-31 This book provides a detailed linguistic

analysis of the communication between highly proficient bilingual couples each consisting of a native speaker of English and of Swiss German. Combining the accounts of ten couples on their language use with an analysis of their actual linguistic behaviour, several areas of the partners' speech and interaction were closely examined. These include their language choice and language mixing, attitudes, expression of emotions, swearing as well as their humour and laughter. In addition, the influence of the bilinguals' mother tongue and gender on their language use was explored. Thus, the study provides valuable insights into the language practices of established bilingual couples while also contributing to the fields of fluent late bilingualism and gender research.
