Ways of Being Male John Stephens,2013-10-18 Given the substantial impact of feminism on children's literature and culture during the last quarter century it comes as no surprise that gender studies have focused predominantly on issues of female representation The question of how the same patriarchal ideology structured representations of male bodies and behaviors was until very recently a marginal discussion Now that masculinity has emerged as an overt theme in children's literature and film critical consideration of the subject is timely if not long overdue *Ways of Being Male* addresses this new concern in an unprecedented collection of essays examining how contemporary debates about masculinity are reflected in fiction and film for young adults An outstanding team of scholars elucidates the ways in which different versions of male identity are

Political Representation in the Later Middle Ages Hwa-Yong Lee,2008 This book explores the theory of political representation as articulated by the fourteenth century Italian thinker Marsilius It combines historical research on Marsilius with an analysis of the contemporary theory of representative democracy Modern

theorization of political representation identifies the relation between the represented and the representative as a central theme In order to assess how a representative system can reasonably be expected to operate for the benefit of the whole people political representation must be understood through a comprehensive conception of the political process as a whole To this end Marsilius provides us with a perspective from which to examine the philosophical foundations of political representation and to reconsider the nature and significance of political representation that is an understanding of political representation in terms of the transfer of power This book suggests that in modern democratic societies where the people effectively cease to be a political agent and their formal authority becomes increasingly notional Marsilius conception of political representation which rejects the depoliticisation and deauthorisation of ordinary citizens has much to offer It can in principle offer a coherent alternative approach to building political representation as an effective scheme of public action for all
