Catholic in the predominantly Protestant Vienna of his day the public expression of Eder's Catholicism and the strong Jesuit influence on the same and Eder's rescue and subsequent survival as a lay advocate of Catholic reform largely through the alternative protection of the Habsburgs rivals the Wittelsbach Dukes of Bavaria Based on a wide variety of printed and manuscript material this study contributes to existing historiography by reconstructing the career of one of late sixteenth century Vienna's most prominent figures In a broader sense it also adds significantly to the wider canon of Reformation history by re-examining the nature and extent of Catholicism at the Viennese court in the latter half of the sixteenth century It concludes by emphasising the importance of influential laity such as Eder in advancing the cause of Catholic reform and challenges the prevalent portrayal of the sixteenth century Catholic laity as an anonymous and largely passive group who merely responded to the ministries of others
