The Origins of Religious Violence Nicholas F. Gier, 2014-08-20 Religiously motivated violence caused by the fusion of state and religion occurred in medieval Tibet and Bhutan and later in imperial Japan but interfaith conflict also followed colonial incursions in India Sri Lanka and Burma Before that time there was a general premodern harmony among the resident religions of the latter countries and only in the late nineteenth and twentieth centuries did religiously motivated violence break out While conflict caused by Hindu fundamentalists has been serious and widespread a combination of medieval Tibetan Buddhists and modern Sri Lankan Japanese and Burmese Buddhists has caused the most violence among the Asian religions However the Chinese

Taiping Christians have the world record for the number of religious killings by one single sect. A theoretical investigation reveals that specific aspects of the Abrahamic religions—an insistence on the purity of revelation, a deity who intervenes in history but one who still is primarily transcendent—may be primary causes of religious conflict. Only one factor, a mystical monism not favored in Judaism, Christianity, and Islam, was the basis of a distinctively Japanese Buddhist call for individuals to identify totally with the emperor and to wage war on behalf of a divine ruler. *The Origins of Religious Violence: An Asian Perspective* uses a methodological heuristic of premodern, modern, and constructive postmodern forms of thought to analyze causes and offer solutions to religious violence. *King and Court in Ancient Persia 559 to 331 BCE* Lloyd

Llewellyn-Jones, 2014-02-14 This book explores the representation of Persian monarchy and the court of the Achaemenid Great Kings from the point of view of the ancient Iranians themselves and through the sometimes distorted prism of Classical authors. [Global Trade and the Transformation of Consumer Cultures](#) Beverly Lemire, 2018-01-11 The oceanic explorations of the 1490s led to countless material innovations worldwide and caused profound ruptures. Beverly Lemire explores the rise of key commodities across the globe and charts how cosmopolitan consumption emerged as the most distinctive feature of material life after 1500 as people and things became ever more entangled. She shows how wider populations gained access to more new goods than ever before and through industrious labour and smuggling acquired goods that heightened comfort, redefined leisure, and widened access to fashion. Consumption systems shaped by race and occupation also emerged. Lemire reveals how material cosmopolitanism flourished not simply in great port cities like Lima, Istanbul, or Canton but increasingly in rural settlements and coastal enclaves. The book uncovers the social, economic, and cultural forces shaping consumer behaviour as well as the ways in which consumer goods shaped and defined empires and communities.
