Paving the Highway to Success from Home Soraya Rebello,2020-09-15 Paving the Highway to Success from Home was a thought that triggered my mind when COVID 19 hit the world giving rise to the Work From Home culture Very soon it became the New Normal for the industry but had its own set of challenges The book narrates the story of a Successful Woman in Corporate India who opted to work remotely over a decade ago when remote working was unheard of She acknowledges that this was possible because of the clear foresight of her employers and her undying commitment towards her profession Although Meghan was no CEO she believed that she was on the path of self actualisation as she attributed Success directly to Happiness The book emphasises on how credibility flexibility dedication and enduring relationships are the foundations of remote working It highlights the key factors that are required to make remote working truly successful It also showcases that remote working may not be suitable for all roles The book is an excellent guide for both organisations and individuals to understand the essential factors to be incorporated while working remotely If successfully applied it can be a major WIN WIN and a game changer for the world
