Extensions Of The Burkeian System Studies Rhetoric Communicati:

<u>Rhetorics and Hermeneutics</u> James D. Hester,David Hester,2004-01-01 This collection of essays provides original studies of various New Testament texts read through the eyes of rhetorical criticism as well as a tribute to the continuing influence of Wilhelm Wuellner and his work   *Rhetoric and Human Consciousness* Craig R. Smith,2017-04-12 For two decades students and instructors have relied on award winning author Craig Smith s detailed description and analysis of rhetorical theories and the historical contexts for major thinkers who advanced them He employs key themes from important philosophical schools in this well researched chronicle of rhetoric and human consciousness One is that rhetoric is a response to uncertainty The modern philosophers like the naturalists of ancient Greece and the Scholastics who preceded them tried to end uncertainty by combining the discoveries of science and psychology with rationalism Their aim was progress and a consensus among experts as to what truth is However where modernism proved ineffective rhetoric was revived to fill the breach Another significant theme is that different conceptions of human consciousness lead to different theories of rhetoric and for every major school of thought another school of thought forms in reaction Classic and contemporary examples demonstrate the usefulness of rhetorical theory especially its ability to inform and guide By providing probes for rhetorical criticism discussions also demonstrate that rhetorical criticism illustrates verifies and refines rhetorical theory Thus the synergistic relationship between theory and criticism in rhetoric is no different than in other arts Theory informs practice analysis of successful practice refines theory Smith s absorbing study has been expanded to include thorough treatments of rhetoric in the Romantic Era feminist and queer theory and historical context for the creation of rhetorical theory and its use in public address   **Kenneth Burke and His Circles** Jack Selzer,Robert Wess,2008-07-24 Kenneth Burke and His Circles consists of original papers focusing on the intellectual circles in which Burke participated during his long career Instead of concentrating on Burke himself as most recent scholarship has done this book considers Burke as one participant in a host of important overlapping intellectual movements that took place over the course of the twentieth century   *Kenneth Burke + The Posthuman* Chris Mays,Nathaniel A. Rivers,Kellie Sharp-Hoskins,2017-10-15 While rhetoric as a discipline is firmly planted in humanism and anthropology posthumanism seeks to leave the human behind This highly original examination of Kenneth Burke s thought grapples with these ostensibly contradictory concepts as opportunities for invention revision and importantly transdisciplinary knowledge making Rather than simply mapping posthumanist rhetorics onto Burke s scholarship Kenneth Burke The Posthuman focuses on the multiplicity of ideas found both in his work and in the idea of posthumanism Taking varied approaches organized within a framework of boundaries and futures the contributors show that studying the humanist theories of Burke in this way creates a satisfyingly chaotic web of interconnections The essays look at how Burke s writing on the human mind and technology from his earliest works to his very latest revisions interrelates with current concepts such as new materiality and coevolution Throughout the contributors

pay close attention to the fluidity concerns and contradictions inherent in language symbolism and subjectivity A unique illuminating exploration of the contested relationship between bodies and language this inherently transdisciplinary book will propel important future inquiry by scholars of rhetoric Burke and posthumanism In addition to the editors the contributors are Casey Boyle Kristie Fleckenstein Nathan Gale Julie Jung Steven B Katz Steven LeMieux Jodie Nicotra Jeff Pruchnic Timothy Richardson Thomas Rickert and Robert Wess   *Rhetorical Theory* Timothy Borchers,Heather Hundley,2018-03-30 From the moment we begin to understand the meanings of words and symbols we have used rhetoric It is how we determine perceptions of who we are those around us and the social structure in which we operate Rhetorical Theory Second Edition introduces a broad selection of classical and contemporary theoretical approaches to understanding and using rhetoric Historical context reveals why rhetorical theories were created while present day examples demonstrate how they relate to the world in which we live Borchers and Hundley present conceptual topics in a succinct and approachable manner The text is organized topically rather than chronologically so similarities and differences are easily detected in central ideas Each chapter is enhanced by the inclusion of theorist biographies applications of theory to practice and Internet exercises The Second Edition expands coverage on mediated rhetoric feminist rhetoric alternative rhetorical theories including Afrocentricity and intersectionality cultural and critical rhetoric and postmodern implications of rhetoric   <u>Kenneth Burke</u> Laurence Coupe,2013-05-16 KENNETH BURKE FROM MYTH TO ECOLOGY is the first full length study of a remarkable thinker s approach to those founding narratives those essential structures of thought which cannot be credited to any one individual but rather belong to the whole community   **Kenneth Burke on Myth** Lawrence Coupe,2013-10-18 Kenneth Burke rhetorician philosopher linguist sociologist literary and music critic crank was one of the foremost theorists of literary form He did not fit tidily into any philosophical school nor was he reducible to any simple set of principles or ideas He published widely and is probably best known for two of his classic works A Rhetoric of Motive and Philosophy of Literary Form His observations on myth however were never systematic and much of his writing on literary theory and other topics cannot be fully understood without fleshing out his thoughts on myth and mythmaking   *Rhetorical Criticism* Jim A. Kuypers,2021-07-19 Covering a broad range of rhetorical perspectives Rhetorical Criticism Perspectives in Action third edition presents a well grounded introduction to the basics of rhetorical criticism and theory in an accessible manner for advanced undergraduate courses and introductory graduate courses Throughout the text sample essays written by noted experts in the field provide students with models for writing their own criticisms In addition to covering traditional modes of rhetorical criticism the book introduces less commonly discussed rhetorical perspectives as well as orientations toward performing criticisms including close textual analysis critical approaches and analysis of visual and digital rhetoric The third edition includes the following features New chapters on visual rhetoric and digital rhetoricPotentials and Pitfalls sections analyzing individual perspectivesActivities and discussion questions in each chapterGlossary of important terms

Extensions of the Burkeian System James W. Chesebro,2006-02 Focuses criticism upon the writings of Kenneth Burke Extensions of the Burkeian System constitutes one of the first projects to meet the requirements Burke has established for his operation benchmark This volume its origins in the scholarly contributions of Kenneth Burke All of the authors of the chapters in this volume adopt stances that defer to Burke s initial contributions ultimately casting their work as extensions of ideas and claims posited by Burke Yet all of the authors also make significant departures from positions Burke has articulated The range of these reactions varies tremendously Several of the authors cast their positions as augmentations They offer supplements to Burke s claims that constitute logical additions to Burke s initial observations but even these authors provide adjustments to the Burkeian system that make a difference in how the system is per ceived and understood Other essays are cast in a more challenging mode arguing explicitly for alternative viewpoints Displeased with Burke s analysis at a given point for one reason or another they posit positions different than those advanced by Burke **The Two Cultures of English** Jason Maxwell,2019-01-08 The Two Cultures of English examines the academic discipline of English in the final decades of the twentieth century and the first years of the new millennium During this period longstanding organizational patterns within the discipline were disrupted With the introduction of French theory into the American academy in the 1960s and 1970s both literary studies and composition studies experienced a significant reorientation The introduction of theory into English studies not only intensified existing tensions between those in literature and those in composition but also produced commonalities among colleagues that had not previously existed As a result the various fields within English began to share an increasing number of investments at the same time that institutional conflicts between them became more intense than ever before Through careful reconsiderations of some of the key figures who shaped and were shaped by this new landscape including Michel Foucault Kenneth Burke Paul de Man Fredric Jameson James Berlin Susan Miller John Guillory and Bruno Latour the book offers a more comprehensive map of the discipline than is usually understood from the perspective of either literature or composition alone Possessing a clear view of the entire discipline is essential today as the contemporary corporate university pushes English studies to abandon its liberal arts tradition and embrace a more vocational curriculum This book provides important conceptual tools for responding to and resisting in this environment **Conducting Socially Responsible Research** Omar Swartz,1997 This book redefines our understanding of theory criticism and pedagogy with the vocabulary of neo pragmatism When human knowledge becomes historicized and socialized the distinctions between our public academic and instructional personae fade In place of such traditional personae a new identity is encouraged for scholars in the field of communication The book successfully argues that rhetorical scholars can assume a cultural importance in life **Sourcebook on Rhetoric** James Jasinski,2001-07-19 This book is designed to introduce readers to the language of contemporary rhetorical studies The book format is an alphabetized glossary with appropriate cross listings of key terms and concepts in contemporary rhetorical studies An introductory chapter outlines the

definitional ambiguities of the central concept of rhetoric itself The primary emphasis is on the contemporary tradition of rhetorical studies as it has emerged in the discipline of speech communication Each entry in the glossary ranges in length from a few paragraphs to a short essay of a few pages Where appropriate examples are provided to further illustrate the term or concept Each entry will be accompanied by a list of references and additional readings to direct the reader to other materials of possible interest **Burke in the Archives** Dana Anderson,Jessica Enoch,2013-06-15 Burke in the Archives brings together thirteen original essays by leading and emerging Kenneth Burke scholars to explore provocatively the twenty first century usefulness of a figure widely regarded as the twentieth century s most influential rhetorician Edited by Dana Anderson and Jessica Enoch the volume breaks new ground as it complicates extends and ultimately transforms how the field of rhetorical studies understands Burke calling much needed attention to the roles that archival materials can and do play in this process Although other scholars have indeed looked to Burke s archives to advance their work no individual essays books or collections purposefully reflect on the archive s role in transforming rhetorical scholars understandings of Burke By drawing on an impressively varied range of archival materials including unpublished letters newly recovered reviews notes on articles drafts of essays and even comments on student papers from Burke s years of teaching the essays in this volume mount distinct powerful arguments about how archival materials have the potential to reshape and invigorate rhetorical scholarship Including contributors such as Jack Selzer Debra Hawhee and Ann George this collection pursues Burke behind the arguments of his major works to the divergent preoccupations habits of mind breakthroughs and breakdowns of his insight Through the archival arguments and analyses that unify its essays Burke in the Archives showcases how historiographic and methodological work can propel Burke scholarship in new directions **The Sage Handbook of Qualitative Research in Organizational Communication** Boris H. Brock,1999-01-01 Kenneth Burke was an influential thinker literary critic and rhetorician in the transition between the 20th and 21st centuries This volume edited by an influential Burkean scholar addresses the question Who was Burke and how can his work be helpful to those who must face new problems and challenges Handbook of Cultural Politics and Education ,2010-01-01 In academia the effects of the cultural turn have been felt deeply In everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general Many authors writing in this field are known for their scholarship and social activism both of which are arguably guided by principles of cultural politics about the nature of representation and the deployment of power in political discourses The Handbook of Cultural Politics and Education is less an attempt to standardize contemporary educational scholarship and more a collection that engages the problems and promises of recent themes in social and cultural thought which require our attention and demand a response In other words it opens doors to questions rather than convenient answers to difficult educational dilemmas The Handbook is part of the appraisal of an opening created by interdisciplinary writings on such themes as representation civil society cultural struggle subjectivity and media within the context of education Indeed cultural politics troubles traditional frameworks in search of critical explanations concerning education s place within society The contributions in the collection support this endeavor **Rhetoric in Popular Culture** Barry Brummett,2006 Joins together two vital scholarly traditions rhetorical criticism and critical studies This title includes material on Marxist psychoanalytic feminist media centered and culture centered criticism It also enables students to apply several methodologies of critical studies to the study of rhetoric **Encyclopedia of Rhetoric and Composition** Theresa Enos,2013-10-08 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company **Networked Media, Networked Rhetorics** Damien Smith Pfister,2016-01-01 In Networked Media Networked Rhetorics Damien Pfister explores communicative practices in networked media environments analyzing in particular how the blogosphere has changed the conduct and coverage of public debate Pfister shows how the late modern imaginary was susceptible to deliberation traps related to invention emotion and expertise and how bloggers have played a role in helping contemporary public deliberation evade these traps Three case studies at the heart of Networked Media Networked Rhetorics show how new intermediaries including bloggers generate publicity solidarity and translation in the networked public sphere Bloggers flooding the zone in the wake of Trent Lott s controversial toast to Strom Thurmond in 2002 demonstrated their ability to invent and circulate novel arguments the pre 2003 invasion reports from the Baghdad blogger illustrated how solidarity is built through affective connections and the science blog RealClimate continues to serve as a rapid response site for the
