World ,1998 International business magazine for television **The Lost Art of Feeding Kids** Jeannie Marshall,2015-05-05

A lively story of raising a child to enjoy real food in a processed world and the importance of maintaining healthy food cultures Why is it so easy to find sugary cereals and dinosaur shaped chicken nuggets in a grocery store but so hard to shop for nutritious simple food for our children If you've ever wondered this you're not alone But it might surprise you to learn that this isn't just an American problem Packaged snacks and junk foods are displacing natural home cooked meals throughout the world even in Italy a place we tend to associate with a healthy Mediterranean diet Italian children traditionally sat at the table with the adults and ate everything from anchovies to artichokes Parents passed a love of seasonal regional foods down to their children and this generational appreciation of good food turned Italy into the world culinary capital we've come to know today When Jeannie Marshall moved from Canada to Rome she found the healthy food culture she expected However she was also amazed to find processed foods aggressively advertised and junk food on every corner While determined to raise her son on a traditional Italian diet Marshall sets out to discover how even a food tradition as entrenched as Italy's can be greatly eroded or even lost in a single generation She takes readers on a journey through the processed food and marketing industries that are re-manufacturing our children's diets while also celebrating the pleasures of real food as she walks us through Roman street markets gathering local ingredients from farmers and butchers At once an exploration of the US food industry's global reach and a story of finding the best way to feed her child *The Lost Art of Feeding Kids* examines not only the role that big food companies play in forming children's tastes and the impact that has on their health but also how parents and communities can push back to create a culture that puts our kids health and happiness ahead of the interests of the food industry

Kids' Stuff Gary Cross,1999-11-15 To sort out who's who and what's what in the enchanting vexing world of Barbies R and Ninja Turtles R Tinkertoys R and teddy bears is to begin to see what's become of childhood in America It is this changing world and what it unveils about our values that Gary Cross explores in *Kids Stuff* a revealing look into the meaning of American toys through this century Early in the 1900s toys reflected parents' ideas about children and their futures Erector sets introduced boys to a realm of business and technology while baby dolls anticipated motherhood and building blocks honed the fine motor skills of the youngest children *Kids Stuff* chronicles the transformation that occurred as the interests and intentions of parents' children and the toy industry gradually diverged starting in the 1930s when toymakers marketing playthings inspired by popular favorites like Shirley Temple and Buck Rogers began to appeal directly to the young TV advertising blockbuster films like *Star Wars* R and Saturday morning cartoons exploited their youthful audience in new and audacious ways Meanwhile powerful social and economic forces were transforming the nature of play in American society Cross offers a richly textured account of a culture in which erector sets and baby dolls are no longer alone in preparing children for the future and in which the toys that now crowd the racks are as perplexing for parents as they are beguiling for little boys and girls Whether we want our children to be high achievers in a competitive

world or playful and free from the worries of adult life the toy store confronts us with many choices What does the endless array of action figures and fashion dolls mean Are children or parents the dupes of the film television and toy industries with their latest fads and fantasies What does this say about our time and what does it bode for our future Tapping a vein of rich cultural history Kids Stuff exposes the serious business behind a century of playthings
