

An aerial photograph of a dense forest with a winding path. The path is a light brown color, contrasting with the green and brown of the trees. The path starts from the bottom left and curves upwards and to the right, disappearing into the forest. The trees are mostly deciduous, with some evergreens scattered throughout. The overall tone is natural and somewhat somber.

[The Oxford Handbook of the Radical Right](#) Jens Rydgren, 2018-02-01 The resurgence of strong radical right wing parties and movements constitutes one of the most significant political changes in democratic states during the past several decades particularly in Europe The radical right's comeback has notably attracted interest from political scientists sociologists and historians although the majority of past research focuses on party and electoral politics In contrast The Oxford Handbook of the Radical Right not only covers existing literature but also shows how the radical right forms movements rather than parties Editor Jens Rydgren has gathered an international cast of contributors to cover concepts and definitions ideologies and discourses and a range of contemporary issues such as religion globalization gender and activism Further this volume is one of few to provide a number of cases focusing on areas outside of Europe including Russia the US Australia Israel and Japan By integrating various strands of scholarship on the radical right that covers different regions and different research perspectives this Handbook provides an authoritative and state of the art overview of the topic and will set the agenda for scholarship on the radical right for years to come

World Fascism Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Hussein the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale **World Fascism** A Historical Encyclopedia covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal

Populism Pippa Norris, Ronald Inglehart, 2019-02-14 A new theoretical analysis of the rise of Donald Trump Marine le Pen Nigel Farage Geert Wilders Silvio Berlusconi and Viktor Orbán

French Populism and Discourses on Secularism Per-Erik Nilsson, 2018-12-27 Per Erik Nilsson takes a religious studies approach to analyse the intersections of secularism nationhood and populism in contemporary France This book provides insight into the French and European radical nationalist ideology and activism and contributes to our understanding of the complex relationship between religion and the state in contemporary Europe and beyond When Marine Le Pen became the leader of the radical nationalist and populist party National Front in 2011 she made clear that secularism was a core value of party This signalled a significant shift in the party's rhetorical strategies and previous reluctance to embrace secularism Nilsson argues that this conspicuous appropriation first came about as a logical result of the obsession of the established mainstream political parties and news media with questions of secularism national identity and Islam He shows that a key player in understanding the National Front's change is the web based journal Riposte Laïque which has become a central actor in French radical nationalist and anti Muslim web and street based activism For the first time this source is examined in order to understand French radical nationalists recent appropriation of secularism as well as debates on secularism national identity and Islam in France more broadly

Women of Faith and Religious Identity in Fin-de-Siècle France Emily Machen, 2019-01-24 In this unique study Machen explores a moment of intense religious upheaval and transformation in France between 1880 and 1920 In these pre World War I years a powerful Catholic community was pitted against equally powerful anticlerical members of the French Third Republic During this time women became increasingly involved in faith based organizations engaging in social and political action both to expand women's rights and to ensure that religion remained part of the public debate about France's identity By representing their faith communities as modern progressive and in some cases democratic women positioned themselves to help guide a modernizing France Women of Catholic Protestant and Jewish faiths also reshaped the narrative of female power within the French nation and within their own religious groups Their activism provided them with social religious and political influence unattainable through any other French institutions enabling them in turn to push France toward becoming a more democratic equitable society Machen's timely examination of the critical role women played in shaping the nation's religious identity helps to illuminate contemporary issues in France as Muslim communities respond to civic pressure to secularize and as the country debates the role of women in Islam

No Free Speech for Fascists David Renton, 2021-06-24 No Free Speech for Fascists explores the choice of anti

fascist protesters to demand that the opportunities for fascists to speak in public places are rescinded as a question of history law and politics It explains how the demand to no platform fascists emerged in 1970s Britain as a limited exception to a left wing tradition of support for free speech The book shows how no platform was intended to be applied narrowly only to a right wing politics that threatened everyone else It contrasts the rival idea of opposition to hate speech that also emerged at the same time and is now embodied in European and British anti discrimination laws Both no platform and hate speech reject the American First Amendment tradition of free speech but the ways in which they reject it are different Behind no platform is not merely a limited range of political targets but a much greater scepticism about the role of the state The book argues for an idea of no platform which takes on the electronic channels on which so much speech now takes place It shows where a fascist element can be recognised within the much wider category of far right speech This book will be of interest to activists and to those studying and researching political history law free speech the far right and anti fascism It sets out a philosophy of anti fascism for a social media age *Exporting Democracy* Sophia Z Kovachevich,2022-05-05

The world is in ferment The situation of today s world is at its worst There is trouble in every part of the world We were supposed to have peace and prosperity at the end of the Great Wars And for a few decades we did The Cold War kept peace of sorts and no major wars were fought But it all changed with the collapse of the USSR We lost the balance of power and only USA dominated At the moment there are wars all over the world on every continent it is the super powers attacking small nations The excuses are taking democracy to those countries by force through war or war on terror We are terrorising small nations in the name of ending terror by bringing not only terror but also death destruction and annihilation in our wake This book sets out to comprehensively look at the reasons behind the present condition of the world today It looks to uncover if there is any real democracy in the world today and the types of democracy available to us Not everything is suited to everyone We certainly do not want totalitarian rule in the name of democracy But that is the way we are going It is time to stop Take stock and decide do we want a better world or do we want to destroy this world Perhaps we are the final throes of our civilisation and don t even realise it *Polemical Encounters* Olav Hammer,Kocku von Stuckrad,2007-09-30

In its historical development from late antiquity to the present western esotericism has repeatedly been the issue of polemical discourse This volume engages the polemical structures that underlie both the identities within and the controversy about esoteric currents in European history From Jewish and Christian kabbalah through heretical discourse and interconfessional polemics in early modernity to the legitimization of esoteric identity in modern culture the 12 chapters accompanied by an editors introduction provide a cornucopia of relevant cases that are interpreted in a framework of polemical discourse and Othering This volume sheds new light on the ultimately polemical structure of western esotericism and thus opens new vistas for further research into esoteric discourse *Capital, Race and Space, Volume II* Richard Saull,2023-06-12 In this second volume of *Capital Race and Space* Richard Saull offers an international historical sociology of the Western far right from the end of World War

II to its contemporary manifestations in Trumpism and Brexit Focusing on its international causal dimensions Saull draws on the theory of uneven and combined development to provide a distinct and original explanation of the evolution and mutations of the post fascist far right Despite the transformed geopolitical context of capitalist development after 1945 with decolonization and the end inter imperial rivalry the far right continued to be intimately connected to the consolidation of the anti communist liberal order Thereafter the far right also formed an important if contradictory element within the neoliberal historical bloc that emerged in the 1980s and has been the main ideological political beneficiary of the 2007-8 neoliberal crisis Volumes I and II of *Capital Race and Space* were shortlisted for the 2024 BISA IPEG book prize for best book published in the field of IPE in 2023 and subsequently recognised by the IPEG Book Prize Committee as Highly Commended The shortlisted books represent the very best of IPE scholarship cutting across disciplinary boundaries and addressing timely topics

The Life of the City Julian Brigstocke, 2016-03-03 Could the vitality of embodied experience create a foundation for a new form of revolutionary authority *The Life of the City* is a bold and innovative reassessment of the early urban avant garde movements that sought to re imagine and reinvent the experiential life of the city Constructing a ground breaking theoretical analysis of the relationships between biological life urban culture and modern forms of biopolitical experiential authority Julian Brigstocke traces the failed attempts of Parisian radicals to turn the crisis of authority in late nineteenth century Paris into an opportunity to invent new forms of urban commons The most comprehensive account to date of the spatial politics of the literary artistic and anarchist groups that settled in the Montmartre area of Paris after the suppression of the 1871 Paris Commune *The Life of the City* analyses the reasons why laughter emerged as the unlikely tool through which Parisian bohemians attempted to forge a new non representational biopolitics of sensation Ranging from the carnivalesque performances of artistic cabarets such as the Chat Noir to the laughing violence of anarchist terrorism *The Life of the City* is a timely analysis of the birth of a carnivalesque politics that remains highly influential in contemporary urban movements

Fascism and Neofascism E. Weitz, A. Fenner, 2016-09-27 The dramatic transformations of the the 1990s the end of the Cold War the establishment of political liberties and market economies in Eastern Europe German unification quickly led commentators to proclaim the end of all ideologies and the complete triumph of liberal capitalism Just as quickly however right wing extremism began a surge in Europe that has not significantly abated to this day *Fascism and Neofascism* is a collection of essays that is distinctive in two important ways First unlike most volumes which cover either historical fascism or the recent radical right *Fascism and Neofascism* spans both periods Secondly this volume also aims to bring newer modes of inquiry rooted in cultural studies into dialogue with more traditional ways of viewing fascism The editors approach is deliberately interdisciplinary even eclectic

Religion and the Populist Radical Right: Secular Christianity and Populism in Western Europe Nicholas Morieson, 2021-07-06 In Western Europe populist radical right parties are calling for a return to Christian or Judeo Christian values and identity The growing electoral success of many of these parties may suggest that

after decades of secularisation Western Europeans are returning to religion Yet these parties do not tell their supporters to go to church believe in God or practise traditional Christian values Instead they claim that their respective national identities and cultures are the product of a Christian or Judeo Christian tradition which either encompasses or has produced secular modernity This book poses the question if Western European politics is secular why has religious identity become a core element of populist radical right discourse To answer this question Morieson examines the discursive use of religion by two of the most powerful and influential populist radical right parties The French National Front and the Dutch Party for Freedom Based on this examination he argues that the populist radical right has capitalised on a cultural shift engendered by the increasing visibility of Islam in Europe Western Europeans encounter with Islam has revealed the non universal nature of Western European secularism to Europeans and demonstrated the secularisation of Christianity into Western European culture This in turn has allowed secular French and Dutch citizens to identify themselves as well as their nation and ultimately Western civilisation as Christian or Judeo Christian Seizing on this cultural shift the author contends that the National Front and Party for Freedom have built successful and similar brands of reactionary politics based on the notion that contemporary secularism is a product of Europe's Christian heritage and values and that therefore Muslim immigration is an existential threat to the core values of European politics including the differentiation of politics and religion and of church and state Religion and the Populist Radical Right Secular Christianity and Populism in Western Europe will be of interest to scholars and researchers working on the intersections of Political Science Sociology and Religion It will also appeal to the general audience interested in the relationship between populism in Western Europe and religious identity as it is written in an accessible style

Genocide and Fascism Aristotle Kallis,2008-09-25 This book investigates how fascism as an ideology and political praxis reconfigured the ideological political and moral landscape of interwar Europe generating an atmosphere of extreme license that facilitated the leap into eliminationist violence It demonstrates how fascist ideology linked the prospect of violent cleansing to utopias of national racial regeneration thus encouraging and legitimizing targeted hatred against particular others It also shows how the diffusion and internationalization of fascism in the 1930s produced a sense of a revolutionary new beginning and created a transnational fascist new order in which Nazi Germany came to occupy a potent position of authority The book analyzes how the eliminationist initiative and precedent of Nazi Germany became a second license that empowered fascist regimes across Europe to embark on their own eliminationist projects with diminished accountability Finally it examines how this license enhanced by the actions of fascists and the collapse of order caused by World War Two released individuals and communities from the burden of legal and moral accountability turning them into accomplices in the most wide brutal and devastating genocidal campaign that the continent had ever experienced
