*The Faber Book of Nursery Stories* Barbara Ireson, Shirley Hughes, 1966      **The Faber Book of Nursery Stories**  
Annabel Spenceley, 1989      **The Faber Book of Nursery Stories; Edited by Barbara Ireson; Illustrated by Shirley Hughes** Barbara Ireson, 1966      **Approaches to Cognition through Text and Discourse** Tuija Virtanen, 2011-05-03 The purpose of this book is to explore the overlapping area of study that discourse linguists and cognitive linguists are interested in. In doing so the volume contributes to bridging the gap between these two large groups of linguists who share an interest in discourse processing but approach the area from very different perspectives and frames of reference. The starting point of this volume is text and discourse. The book includes an overview section and a number of carefully selected contributions which highlight central issues in the study of text and discourse attempting to give them cognitive explanations. In responding to the current interest in the area of discourse and cognition the volume has adopted a wide scope which allows its individual chapters to focus on textual and situational contexts as well as the context of culture and society at large. The volume also provides its readership with a useful selection of methods used in the studies which form the basis of its chapters. The contributions all by established linguists with highest qualifications present new findings which have important theoretical implications. They offer unique and fresh analyses of central discourse phenomena in cognitive light and revealing discussions of the avenues opened to us at this stage of the development of the study of discourse and cognition. This accessible research volume will be essential reading for scholars and advanced students of linguistics and languages.

The purpose of this curriculum guide is to help student teachers and newly qualified teachers to make a start on learning how to become competent teachers of English. Despite the emphasis given in training courses to the teaching of English, newly qualified teachers often feel underprepared for it and frequently mention their concerns about this. These concerns can be partly explained by a general lack of confidence in this key area and partly by widespread media and political criticism of the teaching of literacy. It is also because it is often difficult for a student to make the connection between observation of key teaching strategies and his or her own personal practice.      *Issues in Cognitive Linguistics* Leon de Stadler, Christoph Eyrich, 2011-04-20 No detailed description available for *Issues in Cognitive Linguistics*.      **The Psychology Of Teaching And Learning (17)** Prem Lata Sharma, 2006      **The British National Bibliography** Arthur James Wells, 1970      **The Little Book of Storytelling** Mary Medlicott, 2015-06-04 Let Mary Medlicott help you with a key skill: telling stories without a book.
