America in which he explores issues of identity and cultural assimilation particular to Chinese Americans Chapter two looks at four plays characterised as Beyond Chinese America which examines Hwang s less known plays Chapter three focuses on M Butterfly which received the Tony Award for Best Play in 1988 In chapter four Lee explores Hwang s development as a playwright during the decade of the 1990s with a focus on identity politics and multiculturalism Chapter five examines Hwang's playwriting style in depth with a discussion of Hwang's more recent plays such as Yellow Face and Chinglish The sixth chapter features three essays written by leading scholars in Asian American theatre Josephine Lee on Flower Drum Song Dan Bacalzo on Golden Child and Daphne Lei on Chinglish The final section provides a comprehensive compilation of sources a chronology a bibliography of Hwang s works reviews and critical sources Making Strange Herbert Grabes, 2008 This compact indispensable overview answers a vexed question Why do so many works of modern and postmodern literature and art seem designed to appear strange and how can they still cause pleasure in the beholder To help overcome the initial barrier caused by this strangeness the general reader is given an initial non technical description of the aesthetic of the strange as it is experienced in the reading or viewing process There follows a broad survey of modern and postmodern trends illustrating their staggering variety and making plain the manifold methods and strategies adopted by writers and artists to make it strange The book closes with a systematic summary of the theoretical underpinnings of the aesthetic of the strange focussing on the ways in which it differs from both the earlier aesthetic of the beautiful and the aesthetic of the sublime It is made amply clear that the strangeness characteristic of modern and postmodern art has ushered in an entirely new third kind of aesthetic one that has undergone further transformation over the past two decades Beyond its usefulness as a practical introduction to the aesthetic of the strange the present study also takes up the most recent cutting edge aspects of scholarly debate while initiates are offered an original approach to the theoretical implications of this seminal phenomenon
