## **Economía Y Sociedad En Los Altos De Jalisco:**

Economía y sociedad en los Altos de Jalisco Patricia de Leonardo, Jaime Leonardo Espín Díaz, 1978 **Jalisco** Jaime Tamayo, 2000 **La sociedad rural mexicana frente al nuevo milenio, Vol. I** Hubert Carton Grammont, Héctor Tejera Gaona, 1996-01-01 Esta serie de cuatro tomos es el resultado final del Seminario Internacional sobre Nuevos Procesos Rurales que se llevó a cabo del 30 de mayo al 3 de junio de 1994 en Taxco Guerrero La temática del congreso fue amplia tratando de abarcar el conjunto de problemas y tendencias que despuntan en el campo en este fin de milenio Esto nos llevó a rebasar la tradicional problemática sobre la cuestión agraria o campesina para referirnos al medio rural y su nueva relación con la industria y el mundo urbano En este primer tomo presentamos el estudio de la inserción de la agricultura mexicana en la economía mundial En contra de la posición que sostiene que el futuro de las agriculturas nacionales está sobredeterminado por las políticas promovidas desde los organismos internacionales se plantea que este debe abordarse tomando en cuenta las condiciones particulares de cada producto región y tipo de productor Se destaca que el concepto de globalización no debe entenderse como universal determinista homogeneizante y ser aplicado uniformemente en cualquier parte del mundo sino que existen múltiples intermediaciones que resultan de la acción de los actores y que dan por resultado una variedad de situaciones particulares Indios, españoles y africanos en Los Altos de Jalisco Celina G. Becerra Jiménez, 2022-05-05 Quiénes fueron los antepasados de los altos De qué manera se pobló una de las regiones más emblemáticas y representativas de México La autora se vale de los padrones eclesiásticos del curato de San Salvador Jalostotitlán para seguir la evolución de los pueblos que sobrevivieron o se refundaron así como de las primeras labores y estancias que se convirtieron en ranchos y haciendas a lo largo de los siglos XVII y XVIII hasta llegar al periodo independiente La obra que el lector tiene en sus manos es el estudio de la composición y distribución de la población del curato de San Salvador de Jalostotitlán de 1650 a 1770 dividido posteriormente los resultados enriquecen el conocimiento del pasado de la población La observación se prolonga hasta los años 1783 1784 justo antes de una de las crisis de subsistencia más graves de todo el periodo virreinal La zona central de la meseta alta no permaneció al margen de las tendencias que se presentaron en el resto de las poblaciones de los obispos de Guadalajara Michoacán y México Los grupos que las fuentes muestran como integrantes de la población jalostotitlense según su origen étnico calidad son analizados en capítulos separados para distinguir el papel de cada uno dentro de la dinámica demográfica del curato así como las vías y la frecuencia de las relaciones que existieron entre los distintos grupos **Receive Our Memories** José Orozco, 2017 Receive our Memories is a rare study of an epistolary relationship for individuals whose migration from Mexico has been looked at en masse but not from such a personal and human angle The heart of the book consists of eighty translated and edited versions of letters from Luz Moreno a poor uneducated Mexican sharecropper to his daughter a recent migrant to California in the 1950s These are contextualized and framed in light of immigration and labor history the histories of Mexico and the United States in this period and family

history Although Moreno's letters include many of the affective concerns and quotidian subject matter that are the heart and soul of most immigrant correspondence they also reveal his deep attachment to a wider world that he has never seen They include extensive discussions on the political events of his day the Cold War the Korean War the atomic bomb the conflict between Truman and MacArthur ruminations on culture and religion the role of Catholicism in the modern world the dangers of Protestantism to Mexican immigrants to the United States and extensive deliberations on the philosophical questions that would naturally preoccupy the mind of an elderly and sick man Is life worth living What is death Will I be rewarded or punished in death What does it mean to live a moral life The thoughtfulness of Moreno's meditations and quantity of letters he penned provide historians with the rare privilege of reading a part of the Mexican national narrative that as Mexican author Elena Poniatowska notes is usually written daily and daily erased

**Neo-Gothic Architecture in Mexico** Martin M. Checa-Artasu, 2025-06-02 Neo Gothic architecture is a global phenomenon observed in Mexico from the 1850s to the mid 20th century even with current examples In Mexico there are more than 500 buildings with some neo Gothic element new parishes and churches large temples examples of exterior decorations beautiful sacred furniture and art inside the temples funerary elements at cemeteries graves mausoleums tombs and civil buildings mansions houses schools hospitals porticoes so on This architecture in Mexico spread in two ways through architecture teaching academies but also thanks to the diffusion of bishops and priests who showed images and engravings for master builders stonemasons and other local artisans to copy Finally they built these buildings many times with the support of the parishioners Also the economic and political elites built mansions and houses in that style to show their wealth and financial and political power Something they also did in their tombs and pantheons since there are many built in that style A book on the characteristics agents and causes of the development of the neo Gothic style in Mexico is pioneering and the first of its kind It is a type of architecture extraordinarily little studied in Mexico A study of these characteristics would be of interest to a sector of the academy interested in the topics of history of architecture art studies on religion and culture in general This book covers a huge gap in knowledge about an architectural style widely spread worldwide and that is widely unknown in Mexico and Latin America and that today is already a cultural heritage to be protected disseminated and valued

**Ecological Crisis and Cultural Representation in Latin America** Mark Anderson, Zélia M. Bora, 2016-10-04 Worldwide environmental crisis has become increasingly visible over the last few decades as the full scope of anthropogenic climate change manifests itself and large scale natural resource extraction has expanded into formerly remote areas that seemed beyond the reach of industrialization Scientists and popular culture alike have turned to the term Anthropocene to capture the global scale of environmental and even geological transformations that humans have carried out over the last two centuries The chapters in Ecological Crisis and Cultural Representation in Latin America examine the dynamics and

interplay between local cultures and the expansion of global capitalism in Latin America emphasizing the role of art in bearing witness to and generating awareness of environmental and social crises but also its possibilities for formulating solutions They take particular care to draw out the ways in which local environmental crises in Latin American nations are witnessed and imagined as part of a global system focusing on the problems of time scale and complexity as key terms in conceiving the dimensions of crisis At the same time they question the notion of the Anthropocene as a species wide human historical project making visible the coloniality of natural resource extraction in Latin America and its dire effects for local people cultures and environments Taking an ecocritical approach to Latin American cultural production including literature film performance and digital artwork the chapters in this volume develop a notion of ecological crisis that captures not only its documentary sense in the representation of environmental destruction the degradation of the oikos but also the crisis in the modern worldview logos that the acknowledgment of crisis provokes In this sense crisis is also the promise of a turning point of the possibilities for change Latin American representations of ecological crisis thus create the conditions for projects that decolonize environments developing new sustainable ways of conceiving of and relating to our world or returning to old ones

**Forsaken Harvest** Luis G. Cueva, 2020-11-05 This historical monograph examines the decline of the hacienda estates within Jalisco Mexico during the early decades of the twentieth century The book also explores the impact of the land reform program of President L zaro C rdenas in transforming the agrarian economic structure of the region This study contributes to an ongoing lively debate about the hacienda system and the meaning of C rdenas s reforms This is an important work because it explores the evolution of a regional socioeconomic system that promoted urban industrial growth at the expense of the rural poor The model of regional development described is applicable to other areas of Mexico and underdeveloped Third World nations with extensive peasant populations The research for this investigation has wider implications regarding issues of global hunger and malnutrition
