**The Economy of Renaissance Italy** Paolo Malanima,2022-05-11 Drawing on a wide range of literature and adopting a macroeconomic approach this book provides a comprehensive overview of the Italian economy during the Renaissance focusing on the period between 1348 the year of the Black Death and 1630 The Italian Renaissance played a crucial role in the formation of the modern world with developments in culture art politics philosophy and science sitting alongside and overlapping with significant changes in production forms of organization trades finance agriculture and population Yet it is usually argued that splendour in culture coexisted with economic depression and that the modernity of Renaissance culture coincided with an epoch of epidemics famines economic crisis poverty and destitution This book examines both faces of the

Italian economy during the Renaissance showing that capital per worker was plentiful and productive capacity and incomes were relatively high The endemic presence of the plague curbing population growth played an important role in this It is also shown that the organization of production in industry and finance consumerism human capital and mercantile rationality were the forerunners of modern day capitalism This book is an invaluable resource for scholars and students of the Renaissance and Italian economic history Courtier and the King James M. Boyden, 2024-06-04 Ruy G mez de Silva or the prince of Eboli was one of the central figures at the court of Spain in the sixteenth century Thanks to his oily affability social grace and an uncanny knack for anticipating and catering to the desires of his prince he rose from obscurity to become the favorite and chief minister of Philip II From the scattered surviving sources James Boyden weaves a vivid compelling narrative one that breathes life not only into Ruy G mez but into the court the era and the enigmatic character of Phillip II as well Elegantly written and highly readable this book discovers in the career of G mez the techniques aspirations and mentality of an accomplished courtier in the age of Castiglione This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 *The Continuity of Feudal Power* Tommaso Astarita, 2002-06-03 The Continuity of Feudal Power is the first modern study of an aristocratic family in the kingdom of Naples the largest Italian state during the period of Spanish rule 1503 1707 **Western Europe, Eastern Europe and World Development 13th-18th Centuries** , 2009-10-23 This collection of essays is most welcome The main articles of Marian Ma owist are collected together and in many cases translated into English for the first time Ma owist who is one of the major economic historians of the twentieth century is also a much neglected one Of the eighteen articles here only five were published in English language journals that are widely read by historians and social scientists and even these journals are primarily read by economic historians So most scholars have been missing out on one of the most fertile and cultivated minds who have written on the central issue of our times the wide and widening gulf between the core and the periphery the North and the South western and eastern Europe Immanuel Wallerstein **A Companion to the Renaissance in Southern Italy (1350-1600)** Bianca de Divitiis, 2023-01-09 A Companion to the Renaissance in Southern Italy offers readers unfamiliar with Southern Italy an introduction to different aspects of the fifteenth and sixteenth century history and culture of this vast and significant area of Europe situated at the center of the Mediterranean Commonly regarded as a backward rural region untouched by the Italian Renaissance the essays in this volume paint a rather different picture The expert written contributions present a general survey of the most recent research on the centers of southern Italy as well as insight into the ground breaking debates on wider themes such as the definition of the city continuity and discontinuity at the turn of the sixteenth century and the effects of dynastic changes from the Angevin and Aragonese

Kingdom to the Spanish Viceroyalty Taken together they form an essential resource on an important yet all too often overlooked or misunderstood part of Renaissance Italy Contributors Giancarlo Abbamonte David Abulafia Guido Cappelli Chiara De Caprio Bianca de Divitiis Fulvio Delle Donne Teresa D'Urso Dinko Fabris Guido Giglioni Antonietta Iacono Fulvio Lenzo Lorenzo Miletto Francesco Montuori Pasquale Palmieri Eleni Sakellariou Francesco Senatore Francesco Storti Pierluigi Terenzi Carlo Vecce Giuliana Vitale and Andrea Zezza      **The Silk Industry of Renaissance Venice** Luca Molà, 2003-04-01

How 16th century Venetian silk manufacturers met the challenge of demand for lighter and cheaper fabric The manufacture of luxury textiles such as silk was central to an Italian Renaissance economy based on status and conspicuous consumption From the rapidly changing fashions that drove demand to the jobs created for craftsmen weavers and merchants the wealth and prestige associated with silk throughout Europe made it Italy's leading export industry In this important book Luca Molà examines the silk industry in Renaissance Venice amid changing markets suppliers producers and government regulations Drawing on archival research and a vast amount of European scholarship Molà documents the innovations Venetians made in manufacturing and marketing to spur the silk industry He uncovers the alliance between manufacturers and government to promote the industry in a changing international economic environment Through flexible laws quality was regulated to meet the varying requirements of an increasing range of customers Molà also analyzes state policy that favored the development and organization of silk producers throughout the Terraferma His findings contribute in an important way to the ongoing scholarly assessment of Venice's place in the economy of the Renaissance and the Mediterranean world      **New**

**Approaches to Naples c.1500-c.1800** Helen Hills, 2016-04-22 Early modern Naples has been characterized as a marginal wild and exotic place on the fringes of the European world and as such an appropriate target of attempts by Catholic missionaries and others to civilize the city Historiographically bypassed in favour of Venice Florence and Rome Naples is frequently seen as emblematic of the cultural and political decline in the Italian peninsula and as epitomizing the problems of southern Italy Yet as this volume makes plain such views blind us to some of its most extraordinary qualities and limit our understanding not only of one of the world's great capital cities but also of the wider social cultural and political dynamics of early modern Europe As the centre of Spanish colonial power within Europe during the viceroyalty and with a population second only to Paris in early modern Europe Naples is a city that deserves serious study Further as a Habsburg dominion it offers vital points of comparison with non European sites which were subject to European colonialism While European colonization outside Europe has received intense scholarly attention its cultural impact and representation within Europe remain under explored Too much has been taken for granted Too few questions have been posed In the sphere of the visual arts investigation reveals that Neapolitan urbanism architecture painting and sculpture were of the highest quality during this period while differing significantly from those of other Italian cities For long ignored or treated as the subaltern sister of Rome this urban treasure house is only now receiving the attention from scholars that it has so long deserved This volume

addresses the central paradoxes operating in early modern Italian scholarship It seeks to illuminate both the historiographical pressures that have marginalized Naples and to showcase important new developments in Neapolitan cultural history and art history Those developments showcased here include both

**Italian Confraternities in the Sixteenth Century** Christopher F. Black, 2003-08-28 Confraternities were and are religious brotherhoods for lay people to promote their religious life in common Though designed to prepare for the afterlife they were fully involved in the social political and cultural life of the community and could affect all men and women as members or as the recipients of charity Confraternities organised a great range of devotional cultural and indeed artistic activities in addition to other functions such as the provision of dowries and the escort of condemned men to the scaffold Other works have studied the local activities of specific confraternities but this is the first to attempt a broad survey of such organisations across the breadth of early modern Italy Christopher Black demonstrates clearly the extent diversity and influence of confraternal behaviour and shows how such brotherhoods adapted to the religious and social crises of the sixteenth century thus illuminating current debates about Catholic Reform the Counter Reformation poverty philanthropy and social control

**European Aristocracies and Colonial Elites** Paul Janssens, Bartolomé Yun-Casalilla, 2017-09-08 Aristocracies Old Regime colonial elites from Adam Smith to Karl Marx and beyond scholars have discussed their role in the rise of the modern world in economic development and capitalism Generally speaking and with the exception of the English landlords the verdict has been always negative Furthermore historians have usually viewed the Ancien régime aristocracies and colonial elites as social groups with entirely irrational or completely apathetic attitudes towards the management of their estates This book constitutes the first attempt to analyse the question in a more critical and historical way It takes a directly comparative

approach covering countries from Peru to Russia and from Naples to England in the early modern period and up to the end of the 18th century The rationale of how these elites administered their patrimonies its political social and sometime moral dimensions and the real effects of all this on economic development are considered here as key aspects for a better understanding of economic life The result is a quite different picture in which economic history is also seen as the outcome of human actions in their own social and political context

*Una famiglia, una signoria, una città: politica e società nella contea orsiniana di Nola (XIV-XV secolo)* Luigi Tufano, 2023 Italiano La signoria feudale del Mezzogiorno e nel Mezzogiorno un tema storiografico di lunga durata che in anni recenti ha ripreso nuova linfa Il ripensamento delle categorie interpretative del fenomeno signorile basso medievale una serie di approfondite analisi delle società rurali tardo medievali e dei caratteri dei poteri feudali le circostanziate ricostruzioni delle loro forme di amministrazione e di gestione le indagini sulla semantica delle rappresentazioni e sul loro grado di pervasività hanno consentito il superamento di quel paradigma storiografico di una feudalità regnicola omogenea al proprio interno e monolitica nei suoi orientamenti Inserendosi in questo dibattito il volume propone un caso di studio la signoria degli Orsini di Nola tra la Terra di Lavoro e il Principato Ultra 1293 1528 Attraverso l'esame di una varietà di fonti documentarie narrative iconografiche e architettoniche con particolare attenzione al secondo Quattrocento l'Autore riflette sulle forme del radicamento del potere orsiniano sui suoi rapporti con le élites della contea sui processi di autorappresentazione In tal modo egli offre un rilevante contributo allo studio dei signori e delle corti signorili nel Regno di Sicilia English The feudal lordship of Southern Italy and in Southern Italy is a long lasting historiographic theme which has taken on new life in recent years The rethinking of the interpretative categories of the medieval lordship a series of in depth analyses of the late medieval rural societies and the characteristics of the feudal powers the detailed reconstructions of their forms of administration and management the investigations into the semantics of representations have allowed the overcoming of that historiographic paradigm of a Southern baronial class which was internally homogeneous and monolithic in its orientations Aiming to follow this path this book puts a case study forth the lordship of the Orsini counts of Nola between Terra di Lavoro and Principato Ultra 1293 1528 Using a wide variety of sources documentary literary iconographic and architectural the author reconstructs how the Orsini were able to entrench themselves within this territory exposing their network of relationships with Nola's most prominent families and analysing the processes of their self representation through artistic patronage
