The Economics of Transition Marie Lavigne, 1999-02-15 Substantially revised and updated the second edition of this highly acclaimed text is both a vital guide and a valuable critical analysis The book provides a contemporary comparative approach to the process of transformation of the economies of Eastern Europe and Russia Supplying a large amount of factual and statistical information it also includes consideration of recent progress in the areas of macro economic stabilisation micro economic restructuring and integration into the world economy *East Germany's Economic Development since Unification* Anja Hochberg, Jens Hölscher, 2016-01-01 The first book in the Studies in Economic Transition series applies the theory of economic development to the economy of East Germany Eight years after the unification of Germany the book provides a comprehensive and much needed assessment of the transition process in the East its impact on the German economy as a whole and the important broader lessons for European integration and enlargement The unique economic experiment of the unification of the German economies provided an excellent opportunity for different schools of economic theory to be tested and examined The contributors to this book take full advantage of this challenge

The European Union's Trade Policies and their Economic Effects OECD, 2000-11-20 This book retraces the Communities external liberalisation efforts and discusses where relevant the repercussions of internal liberalisation on foreign competitors

Remaking Europe Jozef M. van Brabant, 1999 A watershed in efforts to integrate Europe the plans to widen the EU will inevitably conflict with forces for deepening integration Focusing on economic factors this volume explores the key questions of widening including why the negotiations are likely to be contentious for all concerned

Global Environment Outlook 2000 United Nations Environment Programme (Unep), 2013-11-05 The continued poverty of the majority of the planet's inhabitants and excessive consumption by the minority are the two major causes of

environmental degradation The present course is unsustainable and postponing action is no longer an option Inspired political leadership and intense cooperation across all regions and sectors will be needed to put both existing and new policy instruments to work From the Synthesis Global Environment Outlook 2000 GEO 2000 is a comprehensive and authoritative review and analysis of environmental conditions around the world It is the flagship publication of the world's leading environmental organization the United Nations Environment Programme UNEP and is based on information provided by more than 30 regional and international collaborating centres The book presents a region by region analysis of the state of the world's environment highlighting key global concerns and making recommendations for policy action The regions covered include Africa Asia and the Pacific Europe and Central Asia Latin America and the Caribbean North America West Asia and the Polar Areas Chapter 1 Global Perspectives describes the main drivers of environmental change such as the economy population growth political organization and regionalization as well as potential impacts of recent global developments including the growth of the consumer culture trade and international debt Chapter 2 The State of the Environment provides a global and region by region overview of the environment at the end of the second millennium The chapter covers global issues such as ozone climate change El Nifio and nitrogen loading and universal issues of land and food forests biodiversity freshwater marine and coastal areas atmosphere and urban areas Chapter 3 Policy Responses reviews the broad range of policy instruments and responses being used to address environmental issues including multilateral environmental agreements and analyses the difficulties of compliance implementation and assessment Chapter 4 Future Perspectives looks at environmental issues that will require priority attention in the 21st century and some alternative policy options that could be used in the regions Chapter 5 Outlook and Recommendations makes recommendations for future action based on the environmental legacy left by past and present policy and management systems GEO 2000 will be the benchmark reference and guide to the state of the global environment Written in clear non technical language and supported throughout by informative graphics and tables it is essential reading for all those involved in environmental policy making implementation and assessment and for researchers and students of regional and global environmental issues Originally published in 1999

Two Tiers Or Two Speeds? James Sperling, 1999 The sudden transformation of the Cold War security order in 1989 altered the structure of the European state system and necessitates the striking of a new balance between the economic political and military requirements of security This volume focuses on the most important institutions of European security the European Union and NATO Both institutions are expanding especially eastwards in terms of their respective roles and membership This double expansion raises many questions most crucially whether Europe will be a two speed security order which suggests openness inclusiveness and the emergence of an anarchical society or a two tiered security order which suggests a continued hierarchical security system with all of its associated historical liabilities The Making of EU Foreign Policy K. Smith, 2004-01-13 The Making of EU Foreign Policy argues that there has been a common European

Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyzes why the EU has agreed to the policy The objective of the EU s policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement

Integration and Transition in Europe Grzegorz Gorzelak, Gunther Maier, George Petrakos, 2013-01-11 With the harmonization of the EU economies and issues of EU enlargement and integration with Europe s transition economies topping the political agenda the economic geography of Europe is being recast This important volume analyses the spatial implications of the integration transition process and examines key issues such as north south and east west divides regional cooperation and cross border dynamics

The Political Economy of Competitiveness in an Enlarged Europe J. Pellegrin, 2016-10-18 Central and Eastern European countries are entering the development race at a crucial juncture in EU enlargement and the wider phenomenon of globalization In the face of hesitant and controversial EU policy these countries need to engage sound development strategies International production networks are expected to be decisive in helping them strengthen their competitiveness and establish knowledge based economies In this book Julie Pellegrin looks at whether and how production networks develop in Central and Eastern European countries and assesses their chances of catching up with the rest of Europe

Agricultural Libraries Information Notes, 1987 Shaping the New Europe M. Landesmann, D. Rosati, 2004-04-30 This volume brings together contributions on the major economic policy issues which have opened up as a result of the immanent process of European Union Enlargement The issues analyzed range from modelling and analyzing the costs and benefits of enlargement to challenges for macroeconomic policy both at the EU level and in the new member countries to the state of affairs in the new member countries with respect to sectoral policy reforms such as those undertaken in the financial sector and in competition policy and the impact of enlargement on Europe s trade policy agenda

The Enlargement of the European Union Victoria Curzon Price, Alice Landau, Richard Whitman, 2012-11-12 This volume looks at the process of enlargement which the European Union is currently undertaking focusing on both the economic and political dimensions of the subject The volume examines how enlargement has evolved and looks at the roles and relations of the different actors member states applicant states and EU institutions With contributors coming from different disciplinary backgrounds the volume offers an unusually rich array of perspectives on one of the most significant political developments of recent years

Political Economy of Transition Jozef M. van Brabant, 2012-11-12 This book addresses the policy questions surrounding the challenge of transforming eastern European economies from their planned administrative past to vibrant market based entities Jozef van Brabant considers in turn the wider set of challenges facing these economies stabilization privatization liberalization institution building and developing and maintaining the sociopolitical consensus before examining the evolving role of the state Using concrete examples from the eastern European countries throughout including the Czech Republic and Bulgaria this work systematically examines in a society wide context

the initial conditions of transformation the policy tasks ahead and the manner in which policies have been pursued **East European Accessions List** Library of Congress. Processing Department,1954 **Household Savings in Selected Southern European Countries Evidence from Cross-Country Micro-Level Data** Mr. Kamil Dybczak,Shiqing Hua,Mariusz Jarmuzek,Ruifeng Zhang,Yipei Zhang,2023-07-21 The paper looks into the puzzle of low household savings in three Southern European SE3 countries Cyprus Greece and Portugal Building on the household saving drivers literature we employ cross country micro level data and investigate the key saving patterns examining their heterogeneity across households in SE3 countries relative to the EA average The results confirm the prominent role of income along with interest rate inflation fiscal balance and debt in shaping household savings in SE3 countries Quantile regressions employed to analyze saving behavior across the distribution of households suggest that households with lower savings tend to see their savings dip or dissavings rise more than proportionately with shocks to income interest rate inflation and government balance Our policy simulations across the distribution of households suggest that targeted rather than universal policy intervention could improve household savings especially of the most vulnerable ones **The Political Economy and Media Coverage of the European Economic Crisis** Julien Mercille,2014-08-27 The European economic crisis has been ongoing since 2008 and while austerity has spread over the continent it has failed to revive economies The media have played an important ideological role in presenting the policies of economic and political elites in a favourable light even if the latter s aim has been to shift the burden of adjustment onto citizens This book explains how and why using a critical political economic perspective and focusing on the case of Ireland Throughout Ireland is compared with contemporary and historical examples to contextualise the arguments made The book covers the housing bubble that led to the crash the rescue of financial institutions by the state the role of the European institutions and the International Monetary Fund austerity and the possibility of leaving the eurozone for Europe s peripheral countries Through a systematic analysis of Ireland s main newspapers it is argued that the media reflect elite views and interests and downplay alternative policies that could lead to more progressive responses to the crisis **Evaluation of Belgium's COVID-19 Responses Fostering Trust for a More Resilient Society** OECD,2023-12-14 This report builds on the OECD work on government evaluations of COVID 19 responses It evaluates Belgium s responses to the pandemic in terms of risk preparedness crisis management as well as public health education economic and fiscal and social and labour market policies **Innovations in Sustainable Agricultural Systems, Volume 2** Irina Samoylenko,Toshpulot Rajabov,2024-09-27 Sustainable agricultural systems are crucial for ensuring food security conserving natural resources and mitigating climate change Innovations in this field play a crucial role in improving agricultural practices to make them more environmentally friendly economically viable and socially responsible By implementing the innovative approaches and technologies sustainable agricultural systems can help address the challenges facing agriculture in the 21st century and build a more resilient and sustainable food system for the future

This multidisciplinary book focuses on the best practices in a range of areas such as I Intelligent agricultural techniques tools and systems II Sustainability in veterinary practice III Economic ecological and social systems for human development IV Sustainable development of agricultural production This book is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies
