Wren, Taylor Stults, 2009-01-08 Now in its fifth edition this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation From its beginning as a savage and exotic land Russia underwent a complex evolution of political social and religious forces the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology art education and high culture From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them Finally as the modern world watched this great entity collapsed in a devastatingly brief time millennia of precarious conflict proving too much for the tenuous coalescence of twentieth century politics Written in an engaging and accessible style this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia s turbulent history **Atlas of World History** Patrick Karl O'Brien, Patrick O'Brien, 2002 Synthesizing exceptional cartography and impeccable scholarship this edition traces 12 000

States and Social Revolutions Theda Skocpol, 2015-09-29 State structures international forces and class relations Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions
