 Roger LeRoy Miller, Alan D. Stafford, 2003-10-22 This book employs an issues approach to consumer economics Each chapter
 has one or two consumer issues that are highlighted through engaging real world examples These real world examples are
 highly applied aspects of everyday consumer situations **Books in Print** ,1994 *Consumer Credit and the American
 Economy* Thomas A. Durkin, Gregory Elliehausen, Michael E. Staten, Todd J. Zywicki, 2014-07-16 Consumer Credit and the
 American Economy examines the economics behavioral science sociology history institutions law and regulation of consumer
 credit in the United States After discussing the origins and various kinds of consumer credit available in today s marketplace
 this book reviews at some length the long run growth of consumer credit to explore the widely held belief that somehow
 consumer credit has risen too fast for too long It then turns to demand and supply with chapters discussing neoclassical
 theories of demand new behavioral economics and evidence on production costs and why consumer credit might seem
 expensive compared to some other kinds of credit like government finance This discussion includes review of the economics
 of risk management and funding sources as well discussion of the economic theory of why some people might be limited in
 their credit search the phenomenon of credit rationing This examination includes review of issues of risk management
 through mathematical methods of borrower screening known as credit scoring and financial market sources of funding for
 offerings of consumer credit The book then discusses technological change in credit granting It examines how modern
 automated information systems called credit reporting agencies or more popularly credit bureaus reduce the costs of
 information acquisition and permit greater credit availability at less cost This discussion is followed by examination of the
 logical offspring of technology the ubiquitous credit card that permits consumers access to both payments and credit services
 worldwide virtually instantly After a chapter on institutions that have arisen to supply credit to individuals for whom
 mainstream credit is often unavailable including payday loans and other small dollar sources of loans discussion turns to
 legal structure and the regulation of consumer credit There are separate chapters on the theories behind the two main
 thrusts of federal regulation to this point fairness for all and financial disclosure Following these chapters there is another on
 state regulation that has long focused on marketplace access and pricing Before a final concluding chapter another chapter
 focuses on two noncredit marketplace products that are closely related to credit The first of them debt protection including
 credit insurance and other forms of credit protection is economically a complement The second product consumer leasing is
 a substitute for credit use in many situations especially involving acquisition of automobiles This chapter is followed by a full

review of consumer bankruptcy what happens in the worst of cases when consumers find themselves unable to repay their loans Because of the importance of consumer credit in consumers financial affairs the intended audience includes anyone interested in these issues not only specialists who spend much of their time focused on them For this reason the authors have carefully avoided academic jargon and the mathematics that is the modern language of economics It also examines the psychological sociological historical and especially legal traditions that go into fully understanding what has led to the demand for consumer credit and to what the markets and institutions that provide these products have become today
