Moral Science and Moral Order James M. Buchanan, 2001 This volume presents a representative sampling of James M Buchanan's philosophical views as he deals with fundamental problems of moral science and moral order As one might expect Buchanan always goes back to fundamental principles first From there his observations and conclusions range far and wide from his own discipline The thirty essays collected in *Moral Science and Moral Order* are divided into these categories Methods and Models Belief and Consequence Moral Community and Moral Order Moral Science Equality and Justice Contractarian Encounters In his foreword Hartmut Kliemt says The British and Scottish Moralists of the Enlightenment period would have felt very comfortable with James Buchanan Like them Buchanan may be seen as a man of letters who concerns himself with fundamental problems of moral science and moral order But also like them Buchanan is not a secondhand dealer in old ideas On the contrary taking as inspiration classical philosopher economists in particular Adam Smith Buchanan not only proposes new applications of the neoclassical economic paradigm he also addresses in innovative ways fundamental issues of his discipline and beyond Kliemt's lengthy foreword highlights some of the major philosophical currents with which Buchanan is engaged in the papers collected in this volume His introduction to these philosophies provides an excellent grounding for economists and all readers who may not be familiar with the philosophical and fundamental issues Buchanan undertakes James M Buchanan 1919 2013 was an eminent economist who won the Alfred Nobel Memorial Prize in Economic Sciences in 1986 and was considered one of the greatest scholars of liberty in the twentieth century

Method and Morals in Constitutional Economics Geoffrey Brennan, Hartmut Kliemt, Robert D. Tollison, 2013-03-09 This Festschrift was presented in electronic form to Buchanan on the occasion of his eightieth birthday on October 3 1999 after dinner in Fairfax Virginia As one might have expected the response to our call for papers was voluminous In looking over the many contributions we felt that a published Festschrift was also possible and fitting for the eightieth birthday of so prodigious and influential a scholar as Professor Buchanan To that end we have assembled the following volume In selecting the papers to be included here we have basically tried to choose those papers which in some way bear on Buchanan's contributions Perfectly good papers about issues not related to Buchanan's research agenda or not referring directly to Buchanan's work were not included Space constraints did not allow universal coverage so choices had to be made It should be stated clearly that these were our choices based on the criterion that the contribution be relevant to Buchanan's work Buchanan had nothing whatsoever to do with the selection of papers for this volume Once choices had been made we arranged the papers by subject matter ranging from various aspects of Buchanan's work in economics political science philosophy and related areas to some more personal recollections of Jim as a professor friend and colleague Including the latter material was also our decision and this probably represents a choice with which Jim would not have agreed We think however that the reader will find these pieces interesting and informative

Capitalism, Culture, and Economic Regulation Leigh Hancher, Michael Moran, 1989 Regulation is a universal feature of modern economic life However regulating the

Political Economy of Reform and Change (Routledge Revivals) Jan Winiecki, 2013-04-03 First published in 1997 this collection of articles and essays analyses the political economy of reform and change in Eastern Europe during the years of Gorbachev's perestroika and the years immediately following the fall of the Berlin wall and the collapse of the Soviet Union Written by Polish economist Jan Winiecki between 1984 and 1996 this work explores the issue of the feasibility of reform and change during the period of decline and collapse of communist economic order and later the emergence of the capitalist economic order in the post communist Eastern Europe Split into three parts the work considers firstly the failures of Gorbachev's political economy of reform secondly the determining factors in the collapse of the Soviet system and finally the feasibility of the systematic change which began in the wake of its collapse

Fides and Secularity Emilio Di Somma, 2018-11-15 This book wishes to talk about two main topics the Canadian political philosopher Charles Taylor and faith Taylor in his philosophical arguments on religion and secularity has adopted what I call the great prejudice on religion and secularity the two belong to utterly different spheres of human mind and sociality In this prejudice faith is used as a synonym of religion or belief and is understood as something that does not belong to the sphere of secularity My argument contradicts precisely this common belief Is faith more of an anthropological attitude towards reality than a religious one Can we criticize Taylor's philosophy on these grounds To develop my argument I will attempt to develop a dialogue between continental and Anglo American philosophers and theologians in the hope of convincing the readers that we should change radically the way we discuss faith religion and secularism
