Robert R. Redfield

Economics Of Poverty Inequality And Wealth Accumulation In Mexico:

The Economics of Poverty, Inequality and Wealth Accumulation in Mexico M. Székely, 1998-09-21 The aim of this book is to understand why despite a considerable increase in average income in Mexico during the 1984-1992 period of economic liberalization the conditions of the poorest of the poor deteriorated and income inequality increased To explain why some individuals were able to take advantage of the opportunities which the economy was generating while others were prevented from doing so the author suggests some methodology to extract additional information from poverty and inequality measures and test the main theories of household saving behaviour *The Economics of Poverty, Inequality and Wealth Accumulation in Mexico* Miguel Székely, 1996

The Economics of Poverty, Inequality and Wealth Accumulation in Mexico Miguel Székely-Pardo, 1996 Economic Reforms, Growth and Inequality in Latin America Gustavo

Indart, 2019-06-04 Originally published in 2004 Growth income distribution and labour markets are issues of pivotal importance in the Latin American context Examining unique theoretical issues and the empirical evidence this book provides a critical analysis of the key elements of income distribution determinants labour market functions trade policies and their interrelations As the advance of globalization becomes seemingly unstoppable this book provides an important reappraisal of the impact of this new phenomenon and in particular the pernicious impact it may have on income growth and distribution The key objective of the volume is to integrate more fully the analysis of trade and labour market economists in order to better understand the labour market and income distribution implications of globalization and international integration Forty years after the early calls to appropriately investigate the micro foundations of macroeconomics the separation of the two at the policy level is more damaging than ever before particularly for developing regions this volume therefore makes an important contribution at the theoretical and policy levels by bringing together macroeconomic and microeconomic analyses

The Cambridge Economic History of Latin America: Volume 2, The Long Twentieth Century Victor Bulmer-Thomas, John Coatsworth, Roberto Cortes-Conde, 2006-01-23 Volume Two treats the long twentieth century from the onset of modern economic growth to the present It analyzes the principal dimensions of Latin America's first era of sustained economic growth from the last decades of the nineteenth century to 1930 It explores the era of inward looking development from the 1930s to the collapse of import substituting industrialization and the return to strategies of globalization in the 1980s Finally it looks at the long term trends in capital flows agriculture and the environment **Inequality and Economic**

Development in Brazil, 2004-01-01 What makes Brazil so unequal This title looks at this question and shows how inequalities weaken Brazil's economic development and what are the best policy options to reduce this inequity **The Urban Poor in Latin America** Marianne Fay, 2005 About half of the region's poor live in cities and policy makers across Latin America are increasingly interested in policy advice on how to design programmes and policies to tackle poverty This publication argues that the causes of poverty the nature of deprivation and the policy levers to fight poverty are to a large

extent site specific It therefore focuses on strategies to assist the urban poor in making the most of the opportunities offered by cities such as larger labour markets and better services while helping them cope with the negative aspects such as higher housing costs pollution risk of crime and less social capital OECD Territorial Reviews: Mexico 2003 OECD,2003-02-07

This review of Mexico evaluates emerging territorial development strategies as well as relevant changes in governance such as new horizontal and vertical co ordination mechanisms being introduced in conjunction with improved federal arrangements **The Political Logic of Poverty Relief** Alberto Diaz-Cayeros,Federico Estévez,Beatriz

Magaloni,2016-02-26 The Political Logic of Poverty Relief places electoral politics and institutional design at the core of poverty alleviation The authors develop a theory with applications to Mexico about how elections shape social programs aimed at aiding the poor They also assess whether voters reward politicians for targeted poverty alleviation programs

State and Nation Making in Latin America and Spain: Volume 3 Miguel A. Centeno,Agustin E. Ferraro,2023-08-17 Neoliberalism is often studied as a political ideology a government program and even as a pattern of cultural identities However less attention is paid to the specific institutional resources employed by neoliberal administrations which have resulted in the configuration of a neoliberal state model This accessible volume compiles original essays on the neoliberal era in Latin America and Spain exploring subjects such as neoliberal public policies power strategies institutional resources popular support and social protest The book focuses on neoliberalism as a state model a configuration of public power designed to implement radical policy proposals This is the third volume in the State and Nation Making in Latin America and Spain series which aims to complete and advance research and knowledge about national states in Latin America and Spain

State and Nation Making in Latin America and Spain Miguel A. Centeno,Agustin E. Ferraro,2019 This book analyzes how developmental states contributed to economic prosperity sometimes with spectacular success and sometimes with less brilliant results *Economic Growth with Equity* José Luis Machinea,2006-11-28 This book analyses the development

challenge faced by Latin America at a time at which the concerns for the large inequality in the region are at a peak This volume focuses on growth with equity and is written by an outstanding group of Latin American and international researchers and policy makers **Mexico and the Post-2015 Development Agenda** Rebecka Villanueva

Ulfsgard,2017-03-03 This book explores how and why Mexico s approach to the 2030 Agenda for Sustainable Development and Sustainable Development Goals SDG implementation with the Lopez Obrador administration is unsustainable and non transformative overshadowed by his vision of Mexico s Fourth Transformation Approached as a super mantra revolving around Republican Austerity and First the poor it provides original analysis of structural and conjunctural challenges facing Mexico as regards People Planet and Peace centered development The book reveals the promise First the poor is inconsistent with data on Mexico s poverty reduction SDG1 Despite record high spending on social programs and unmatched coverage the recent tendency of improvement in tackling poverty is rather ambiguous from the perspective of multidimensional

poverty The book covers access to clean energy SDG7 resilient infrastructure and sustainable industrialization SDG9 and safeguarding biodiversity SDG15 by examining three megaproject case studies the oil refinery Dos Bocas the Interoceanic Corridor of the Isthmus of Tehuantepec and the Maya Train generating concern with the economic environmental and social dimensions of sustainable development The prospects for an enabling environment for SDG implementation are hampered by persistently high levels of homicides and impunity SDG16 Turning Mexico's Armed Forces into first development partner of choice is problematized as regards their reach in infrastructure megaprojects and social welfare programs in the overall context of the de-risking state favoring private capital The result as determined by Villanueva Ulfsgard has led Mexico further astray from sustainable and transformative development *OECD Territorial Reviews: Mexico City 2004* OECD,2004-10-20

OECD's comprehensive review of economic policy for metropolitan Mexico City *World Poverty* Marie V. Lane,2002 World Poverty A Bibliography With Indexes *East Asia and Latin America* Peter H. Smith,□□□□,Shōji Nishijima,2003 Focuses on two broad themes economic and political connections between East Asia and Latin America and similarities and differences in developmental paths and public policies **International Bibliography of Economics 1998** Compiled by the British Library of Political and Economic Science,1999-12-16 Renowned for its international coverage and rigorous selection procedures this series provides the most comprehensive and scholarly bibliographic service available in the social sciences Arranged by topic and indexed by author subject and place name each bibliography lists and annotates the most important works published in its field during the year of 1997 including hard to locate journal articles Each volume also includes a complete list of the periodicals consulted **Impact of irrigation on poverty and environment in Ethiopia: draft proceedings of the symposium and exhibition, Addis Ababa, Ethiopia, 27-29 November 2007** Makonnen Loulseged,Aster Deneke,2011-07-21 *Immiserizing Growth* Paul Shaffer,Ravi Kanbur,Richard Sandbrook,2019-01-10

Immiserizing growth occurs when growth fails to benefit or harms those at the bottom It is not a new concept appearing in some of the towering figures of the classical tradition of political economy including Malthus Ricardo and Marx It is also not empirically insignificant occurring in between 10% and 35% of cases In spite of this it has not received its due attention in the academic literature dominated by the prevailing narrative that growth is good for the poor Immiserizing Growth When Growth Fails the Poor challenges this view to arrive at a better understanding of when why and how growth fails the poor Taking a diverse disciplinary perspective Immiserizing Growth combines discussion of mechanisms of this troubling economic phenomenon with empirical data on trends in growth poverty and related welfare indicators It draws on political economy applied social anthropology and development studies including contributions from experts in these fields A number of methodological approaches are represented including statistical analysis of household survey and cross country data detailed ethnographic work and case study analysis drawing on secondary data Geographical coverage is wide including Bolivia the Dominican Republic Ecuador India Indonesia Mexico Nigeria the People's Republic of China Singapore and South

Korea in addition to cross country analysis This volume is the first full length treatment of immiserizing growth and constitutes an important step in redirecting attention to this major challenge **Portrait of the Poor** Orazio P. Attanasio, Miguel Székely, 2001 The authors analyze the ownership and use of income generating assets as well as access to them Where there are market imperfections they propose policies to ease the constraints faced by the poor in accumulating the human physical and social capital they need to generate greater income BOOK JACKET
