Écritures en Méditerranée Alif (Firm), 1988 *Literary Translation, Reception, and Transfer* Norbert Bachleitner, 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena they are based on similarities that are related to a form of travelling and imitation or adaptation of entire texts genres forms or contents Transfer comprises all sorts of travelling with translation as a major instrument of transferring literature across linguistic and cultural barriers Transfer aims at the process of communication starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture Reception lays its focus on the receiving culture especially on criticism reading and interpretation Translation therefore forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers Moreover translations are the prime instrument in the distribution of literature across linguistic and cultural borders thus they pave the way for gaining prestige in the world of literature The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna They are ample proof that the field remains at the center of interest in Comparative Literature

mettre en valeur ce qui bouge et se transforme et tenter d'apporter quelques explications Existe-t-il un VII^e siècle méditerranéen ou ne peut-on appréhender qu'une multiplicité d'histoires régionales et locales Peut-on constituer pour chaque unité territoriale dont les contours resteraient à finir une chronologie commune Où se situent les ruptures historiques Vue de l'est Mésopotamie Phénicie du centre Grèce ou de l'ouest Turquie Libanie ce n'est peut-être pas la même histoire que l'on est amené à lire Notre approche est résolument archéologique c'est-à-dire qu'il s'agit d'une réflexion sur les données matérielles plutôt que sur les textes c'est le matériel archéologique qui a fourni dans les dernières décennies le plus de données nouvelles qu'il faut soumettre à la critique
