Ecology And Religion In History:

Ecology and Religion in History David Spring, Eileen Spring, 1974 **Ecology and religion in history** David Spring, Eileen Spring, 1978 **Ecology and Religion** John Grim, Mary Evelyn Tucker, 2014-01-02 From the Psalms in the Bible to the sacred rivers in Hinduism the natural world has been integral to the world's religions John Grim and Mary Evelyn Tucker contend that today's growing environmental challenges make the relationship ever more vital This primer explores the history of religious traditions and the environment illustrating how religious teachings and practices both promoted and at times subverted sustainability Subsequent chapters examine the emergence of religious ecology as views of nature changed in religious traditions and the ecological sciences Yet the authors argue that religion and ecology are not the province of institutions or disciplines alone They describe four fundamental aspects of religious life orienting grounding nurturing and transforming Readers then see how these phenomena are experienced in a Native American religion Orthodox Christianity Confucianism and Hinduism Ultimately Grim and Tucker argue that the engagement of religious communities is necessary if humanity is to sustain itself and the planet Students of environmental ethics theology and ecology world religions and environmental studies will receive a solid grounding in the burgeoning field of religious ecology *A Companion to Global Environmental History* J. R. McNeill, Erin Stewart Mauldin, 2025-02-06 A COMPANION TO GLOBAL ENVIRONMENTAL HISTORY Equips both specialists and newcomers with the historical intellectual and political context for engagement with the environment Providing multiple points of entry into a dynamic fast growing field A Companion to Global Environmental History explores the many contours of the relationship between human societies and the natural world on which they depend Bringing together essays by an international roster of both established experts and emerging scholars this volume covers a uniquely broad range of temporal geographic thematic and contextual approaches to the practice of global environmental history Thirty three detailed chapters describe how the relationship between society and nature has changed over time examine the various drivers of change and environmental transformations survey different types of environmental thought and action around the world and more Now in its second edition the Companion is fully revised to reflect major research developments and new trajectories within the field Updated chapters that present new evidence for longstanding debates and innovative applications of environmental history are accompanied by six entirely new chapters on India China Africa early modern cities global environmental governance and European environmentalism Offering fresh insights into environmental thought culture policy and politics A Companion to Global Environmental History Second Edition is an ideal textbook for undergraduate and graduate students and an invaluable reference for scholars researchers and environmental historians [Encyclopedia of Religion and Nature](#) Bron Taylor, 2008-06-10 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious

traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com earn this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses Biodiversity Conservation Ethics in Major Religions H. S. A. Yahya, 2010-10-22 Covering three broader issues biodiversity conservation religious doctrine and environment the book *Biodiversity Conservation Ethics in Major Religions* is the result of a unique approach It attempts to initiate scientific discourse through the fabric of religions Spread across 15 chapters the book covers the essence of 10 religions on biodiversity encompassing a wide range of issues related to conservation The book promises to be a useful resource for biodiversity students researchers and protected area managers and also for religious scholars who are invited to look at the broader themes of religions beyond theology Christianity and Earthkeeping Ernst Marais Conradie, 2011-04-01 Why should Christians engage in earthkeeping as Christians and from within Christian communities What is the underlying theological rationale for that In this book some 19 reasons why Christians may be encouraged to engage in earthkeeping are identified juxtaposed and assessed in order to call for clarity to invite discussion and to elicit creative tensions No single position is advocated it would be helpful if Christians could engage in earthkeeping on the basis of any of these motivations **Ecowomanism** Harris, Melanie L., 2017-09-14 Melanie Harris argues that African American women make unique contributions to the environmental justice movement in the ways that they theologize theorize practice spiritual activism and come into religious understandings about their relationship with the earth This unique text stands at the intersection of several academic disciplines womanist theology eco theology spirituality and theological aesthetics

Science of Religion. Studies in Methodology Lauri Honko, 2011-12-07 Since its founding by Jacques Waardenburg in 1971 *Religion and Reason* has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline

Religion and Ecological Crisis Todd LeVasseur, Anna Peterson, 2016-07-01 In 1967 Lynn White Jr's seminal article *The Historical Roots of Our Ecologic Crisis* was published essentially establishing the academic study of religion and nature White argues that religions particularly Western Christianity are a major cause of worldwide ecological crises He then asserts that if we are to halt let alone revert anthropogenic damages to the environment we need to radically transform religious cosmologies White's hugely influential thesis has been cited thousands of times in a variety of disciplines including but not limited to religious studies environmental ethics history ecological science philosophy psychology and anthropology In practical terms the ecological crisis to which White was responding has only worsened in the decades since the article was published This collection of original essays by leading scholars in a variety of interdisciplinary settings including religion and

nature environmental ethics animal studies ecofeminism restoration ecology and ecotheology considers the impact of White s arguments offering constructive criticism as well as reflections on the ongoing ever changing scholarly debate about the way religion and culture contribute to both environmental crises and to their possible solutions Religion and Ecological Crisis addresses a wide range of topics related to White s thesis including its significance for environmental ethics and philosophy the response from conservative Christians and evangelicals its importance for Asian religious traditions ecofeminist interpretations of the article and which perspectives might have ultimately been left out of his analysis This book is a timely reflection on the legacy and continuing challenge of White s influential article Worldly Wonder Mary Evelyn Tucker,2011-04-15 History illustrates the power of religion to bring about change Mary Evelyn Tucker describes how world religions have begun to move from a focus on God human and human human relations to encompass human earth relations She argues that in light of the environmental crisis religion should move from isolated orthodoxy to interrelated dialogue and use its authority for liberation rather than oppression **Religious Harmony** International Association for the History of Religions. Regional Conference,2006 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline The Global Food System William D. Schanbacher,2014-07-23 This detailed analysis of the global food system looks at the way food is produced distributed and consumed in an effort to create a more equitable and healthful system worldwide With large scale famine afflicting regions around the globe and overconsumption and unhealthy eating habits destroying others many are beginning to wonder if access to food is less of a class based social problem and more of an ethical issue affecting the lives and livelihoods of people all over the world This thoughtful text provides a thorough examination of the factors contributing to this global concern exploring the complexities of international food supply and demand as well as the efforts to bring about a more just global food system Through this groundbreaking volume author and educator Will Schanbacher sheds light on flaws in the current structure and suggests ways to achieve a more balanced approach He considers the economics politics and activism behind and involved in the production distribution and consumption of the global food system In an effort to illuminate many problems associated with hunger inequality and injustice in the food system the book also offers many potential strategies and solutions for making a more healthy sustainable and equitable world Chapters contain both theoretical models and concrete practices for food security and offer strategies for creating an equitable system **Christianity and Ecological Theology** E. M. Conradie,2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics

and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa

The Natural History of the Bible Daniel Hillel,2006 Combining his scientific work as an ecologist with a life long study of the Bible Daniel Hillel offers fresh perspectives on biblical views of the environment and the origin of ethical monotheism
