Asia Central. Análisis geopolítico de una región clave Mohamed El Yattoui, Claudia

Barona, 2022-04-18. Casi treinta años después de la caída de la URSS, Asia Central sigue siendo una de las regiones más olvidadas del planeta. Sin embargo, su relevancia está creciendo debido a su importancia energética y estratégica desde el 11 de septiembre de 2001 y el ataque estadounidense contra los talibanes en Afganistán un mes después. Desde entonces, estadounidenses, rusos y chinos han querido influir en la región que alberga una gran importancia geopolítica a partir de su tamaño o posición geográfica, recursos naturales y el papel que juegan diversos países dentro de ella. Con ello, Asia Central se ha convertido en un espacio con una importancia indiscutible en el plano tanto regional como internacional, por lo cual su estudio resulta esencial en la actualidad. Así, esta obra analiza cómo las potencias intentan definir sus relaciones con los cinco países de Asia Central y de esta manera ofrece una visión geopolítica contemporánea sobre una región importante por su geografía y sus recursos.

Multinacionales españolas en un mundo global y multipolar Ramón Casilda Béjar, 2011

Bancos y empresas españolas durante la última década del siglo XX, tras su expansión vertiginosa en América Latina, se convirtieron en multinacionales para posteriormente transformarse en globales, ganando tamaño o poder, influencia y presencia internacional. Nuevamente se podía decir, en verdad, *sol mihi semper lucet*: el sol brilla siempre sobre mí. Con la llegada de la crisis de extrema dureza y consecuencias insospechadas para las economías desarrolladas, se ha hecho más evidente la irrupción de los países emergentes que, con sus empresas multinacionales como punta de lanza, han transfigurado la economía mundial en latitud y longitud. España y sus multinacionales, ante esta gravísima sacudida que depara unas realidades inéditas en el

sistema económico y financiero mundial deben estratégicamente hacerle frente desde la colaboración cooperación pública privada si no quieren perder tama o poder influencia y presencia internacional En tanto la globalización avanza y se hace multipolar los países incrementan sus interrelaciones en todas las direcciones y las multinacionales adquieren nuevas dimensiones en el renovado tablero del ajedrez económico mundial Esto provoca que economías desarrolladas como la española cambien de modelo productivo y reconfiguren su economía en sintonía con la nueva era de la información y el conocimiento haciendo que sus empresas intensifiquen su eficiencia imagen y competitividad en un mundo amplificado por los países emergentes que continúan ganando protagonismo a lo largo del siglo XXI El autor analiza las consecuencias y alcance de este Zeitgeist o nuevo espíritu de los tiempos a la vez que propone un amplio y riguroso debate abierto a las ideas que surjan de la interacción con los lectores y con todos aquellos interesados en recuperar y potenciar el papel y lugar que verdaderamente le corresponde a España y sus multinacionales en este nuevo mundo global y multipolar del presente siglo El CD incluye lecturas complementarias documentos de interés y estadísticas de economía internacional y empresas multinacionales españolas Ramón Casilda Bjar es economista y master en Administración y Dirección de Empresas por ICADE Universidad de Comillas Actualmente ejerce su actividad profesional en calidad de asesor de la presidencia de BT Global Services para América Latina Índice Parte I La globalización y las empresas multinacionales La globalización La globalización y las tres principales escuelas de pensamiento La globalización y la economía internacional La globalización y las empresas multinacionales Parte II España en un mundo global en crisis Un mundo global en crisis España en la crisis global Parte III España y sus multinacionales Competiendo en la nueva geografía económica global y multipolar del siglo XXI España y sus multinacionales en la nueva geografía económica global y multipolar del siglo XXI España y la marca país en la globalización Parte IV Inversión extranjera directa en el mundo y las multinacionales españolas Parte V Conclusiones Desarrollo y Civilización Theotonio Dos Santos, 2018-07-28 El concepto de civilización surge en el siglo XVIII e incluso aparece como entrada en la Enciclopedia de los ilustrados La idea de civilización se asociaba entonces con la constitución de una sociedad civil de los ciudadanos que se diferenciaba de las formas políticas anteriores y daba origen a una organización social específica que se correspondería con una moral más adecuada a la naturaleza humana En ese momento se consagra la idea del individuo como fundador de la sociedad y como creador de productos que son el fruto del trabajo Se comprende así como la economía política clásica llegó a la noción de valor Ella reflejaba el gran paso dado en busca de la comprensión de los avances sociales producido por el aumento colosal de la productividad como consecuencia básicamente del desarrollo de las manufacturas y posteriormente de la Revolución industrial Era por lo tanto natural que se gestase en el norte de Europa y en particular en Inglaterra donde se concentraba esta revolución la idea de que el gran desarrollo de las fuerzas productivas que se consolidaba en esas regiones y de las formas sociales allí asociadas daría lugar a un estadio superior de la sociedad humana que se caracterizaría por crear una forma social asociada cada vez más con el concepto de civilización **De la**

Economía política feminista Astrid Agenjo Calderón, 2021-03-12 La economía política feminista constituye una aproximación crítica y alternativa a los análisis de la economía convencional y a las deficiencias estructurales de un sistema capitalista heteropatriarcal y racista que ha puesto en jaque la sostenibilidad de la vida causando y agravando el conflicto capital-vida. La financiarización descontrolada, la mercantilización de cada vez más procesos de la vida, la privatización creciente de medios de producción y sectores económicos, la invisibilización de la economía de cuidados o la sobreexplotación de una fuerza de trabajo feminizada y precaria son algunos de los aspectos abordados por la economía política feminista. Esta corriente económica pone la vida sostenible y digna en el centro. Articula sus principios en torno a un feminismo del 99% que recupera el interés por las cuestiones redistributivas y por las preocupaciones medioambientales negociando continuamente sobre las cuestiones del poder y la diferencia. Y se alinea con las posiciones interseccionales que entienden que la realidad socioeconómica está mediada por una multiplicidad de factores de género, sexualidad, raza o etnia, localización, acceso a recursos que no deben ignorarse si se quieren afrontar los problemas sistémicos en un contexto global de complejidad e incertidumbre. Trasladando los aportaciones teóricas de la economía política feminista a los análisis de las tendencias de la economía global, su autora aborda en profundidad y mediante un completo repaso a la literatura especializada las claves para entender las causas y efectos del colapso ecosocial. Ofrece en definitiva una rigurosa propuesta teórica que pueda ser de utilidad para concebir nuevos horizontes emancipatorios que prioricen la sostenibilidad de la vida en la organización del sistema económico.

Power and Impotence Fabio Luis Barbosa dos Santos, 2019-12-09 Fabio Luis Barbosa dos Santos delves into the history of South America to understand the rise and fall of the so-called progressive governments. In the wake of mobilizations against neoliberalism in the 1990s, most countries elected presidents identified with change. However, less than twenty years after Hugo Chávez's victory, this trend seems to be reversed. The times of Lula are now Bolsonaro's. What happened? Supported by an extensive bibliography and hundreds of interviews, the author addresses each South American country, including those who did not elect progressives, in addition to Cuba. The national focus is enriched by an analysis of regional integration attempts, providing a detailed and necessary recent history of the subcontinent.
