Geographers Charles W. J. Withers, Hayden Lorimer, 2015-12-14 This twenty-sixth volume of *Geographers* Biobibliographical Studies brings together essays on leading figures in time geography and regional theory, on GIS, on regional cultural and political geography, on scriptural geography, historical geography and methodology, and on African exploration. Each essay engages with the individual's contribution to geography, their works and their lives, and the intellectual and social contexts in which they worked and which helped shape them. In addition, and to mark the new co-editorial pairing leading the series, the volume has an essay on the history of GBS, on the importance of biographical work in the history of geography, and on issues to be addressed by the scholarly communities engaged in promoting this vital area of geographical research. **Indicators for Urban and Regional Planning** Cecilia Wong, 2006-09-27 This book focuses on the measurement and utilisation of quantitative indicators in the urban and regional planning fields.
