held on August 18 20 2023 in Changsha China At present the global economic situation is complex the recovery prospects are not clear and the economic growth rate is slowing down which is at the key stage of transforming the economic development mode and industrial transformation and upgrading With the transformation of the mode of economic development various problems and contradictions coexist and the problems of imbalance uncoordinated and unsustainable development are prominent The contradiction between the downward pressure on economic growth and the relative overcapacity has intensified The problems of rising production and operation costs and insufficient innovation capacity coexist The contradiction between the slow growth of fiscal revenue and the increase of government rigid expenditure is prominent The irrational industrial structure the weak agricultural foundation the increasingly acute contradiction between economic development and resources and environment the large gap between urban and rural areas regional development and income distribution of residents and the obvious increase of social contradictions which are related to the vital interests of the public The economy and society are facing a series of opportunities and challenges Therefore it is expected to clarify the obstacles and obstacles to sustainable development and launch measures to deepen reform Macroeconomic growth and its development are highly correlated with the development of enterprises at the microeconomic level Since the outbreak of the international financial crisis the economy especially the real economy has faced the current situation of declining growth rate weak demand rising costs and shrinking profits The essence behind this phenomenon is the difficult problem of structural adjustment and transformation of development mode Now we need to transform to the path of refined and scientific management and achieve higher labor efficiency output with less resource input and lower capital consumption Through numerous micro economies we have achieved a wide ranging transformation of growth thus promoting the transformation of the national economy Among them financial management is of great significance We sincerely invite you to participate in FMET 2023 to discuss the relationship and development direction between economic transformation and financial upgrading

Strategy and Performance A. Ghobadian,N. O'Regan,D. Galleary,H. Viney,2003-12-11 Terms such as the new competitive landscape hypercompetition and inherent instability and change have been used over the past decade to describe the changing global competitive environment A plethora of strategic and operational measures have been used to enable firms to gain sustainable competitive advantage with varying degrees of success Yet we remain in largely uncharted territory with strategic preparation for the future becoming a critical activity Strategy and Performance provides academics practitioners and students with a highly focused approach to competing in the global marketplace

Quality Management Practices R. P. Mohanty,2008 This book is the outcome of the efforts of many professionals working both in academia and industry who have contributed to the proceedings of the International Conference on Quality Management Practices for Organizational Excellence Organizational Excellence is a final product composed of two basic elements alloyed prudently by the members stakeholders of an organization These two basic elements are Strategy and Culture When we talk of quality

management practices we have to pursue quality as a strategy and also quality as a culture Quality as strategy is a conscious and deliberate search for a plan of action that will develop an organization's distinctive competence and compound it Quality as culture is the amalgamation of behavior patterns of all the stakeholders in terms of beliefs values attitudes etc In other words quality management is the epicenter of the competitive organizations of the future in which strategy is the scientific pursuits and culture is the artistic artifacts Numerous authors have put forth their logical thoughts have articulated their concepts and have validated their hypothesis relating to quality management The papers which have found place in this book aim at creating values of quality management practices Handbook of Asian Management Kwok Leung, Steven White, 2007-05-08 Our understanding of management in Asia has not kept pace with the demands of managers and students The Handbook of Asian Management provides in depth critical reviews of central topics in strategy and organizational behavior research in Asian contexts Leading scholars take stock of what has been learned and give clear directions towards greater rigor and relevance for research in this region
