#### **Tourism in Post-Communist States** Piotr

Niewiadomski,2023-05-29 This book addresses tourism and its development in the post communist context of Central and Eastern Europe CEE Although it has been over 30 years since many countries of Central and Eastern Europe embarked on the path of transition from state socialism to capitalism and liberal democracy the ongoing atrocious events in Ukraine bluntly remind us that the perception of CEE as a transition region may have been done away with too early and that the legacies of communism continue to influence the reality of the region Tourism is no exception here While on the one hand tourism has significantly contributed to the post communist restructuring of CEE on the other the communist heritage has played and still plays an important role in shaping the tourism geographies of the CEE region The book consists of 14 chapters divided into two sections a new introduction and a reflective concluding section All 14 main chapters in this book

were originally published in the *Tourism Geographies* journal. The aim of the book is two fold. First it summarises, distils and highlights the important and often ground breaking contributions *Tourism Geographies* has made over the years to the debate on tourism in CEE. Second it lays foundations for further research on tourism in the post communist states of CEE. This book will be of great interest to upper level students, researchers and academics in various disciplines: human geography, politics, sociology and tourism studies in general.
