Ecstatic Almanac:

Almanacs Alan S. Weber, 2017-03-02 Almanacs were highly influential on popular opinion during the early modern period. They were the least expensive kinds of books and had a practical use as a calendar, literary miscellany, weather guide, and advertising medium. The almanacs in this volume contribute to our understanding of women's participation in popular culture, astrology, medicine, and prophecy. Sarah Jinner's almanacs for the years 1658, 1659, and 1664, and Mary Holden's almanacs for 1688 and 1689 show a conscious effort to distance themselves from other female religious prophets of the period by relying on the status of astrology as a rational science. The other works in the volume are all attributed to writers who were probably pseudonymous. Dorothy Partridge's *The Woman's Almanack for the Year 1694* includes several short articles on chiromancy. *The Prophecie of Mother Shipton* concerns the prediction of the deaths of Cardinal Wolsey and Thomas Cromwell. The final works in the volume comprise two texts by Shinkin ap Shone which satirize the Welsh people and language, and *The Woman's Alamanack* by Sarah Ginnor which uses sexual humour to parody the medical advice offered in Jinner's almanacs.

Bodies in a Broken World Ann Folwell Stanford, 2004-07-21 In this multidisciplinary study, Ann Folwell Stanford reads literature written by U.S. women of color to propose a rethinking of modern medical practice, arguing that personal health and social justice are inextricably linked. Drawing on feminist ethics to explore the work of eleven novelists, Stanford challenges medicine to position itself more deeply within the communities it serves, especially the poor and marginalized. However, she also argues that medicine must recognize its limits and join forces with the nonmedical community in the struggle for social justice. In literary representations of physical and emotional states of illness and health, Stanford identifies issues related to public health, medical ethics, institutionalized racism, women's health, domestic abuse, and social justice that are important to discussions about how to improve health and health care. She argues that in either direct or indirect ways, the eleven novelists considered here push us to see health not only as an individual condition but also as a complex network of individual, institutional, and social changes in which wellness can be a possibility for the majority rather than a privileged few. The novelists whose works are discussed are Toni Cade Bambara, Paule Marshall, Gloria Naylor, Leslie Marmon Silko, Toni Morrison, Louise Erdrich, Sandra Cisneros, Bebe Moore Campbell, Sapphire, Ana Castillo, and Octavia Butler.

Disorderly Conduct Carroll Smith-Rosenberg, 1986 This first collection of essays by Carroll Smith-Rosenberg, one of the leading historians of women, is a landmark in women's studies. Focusing on the disorderly conduct of women and some men used to break away from the Victorian Era's rigid class and sex roles, it examines the dramatic changes in male-female relations, family structure, sex, social custom, and ritual that occurred as colonial America was transformed by rapid industrialization. Included are two now classic essays on gender relations in 19th-century America: *The Female World of Love and Ritual Relations Between Women in Nineteenth-Century America* and *The New Woman as Androgyne: Social Order and*

Gender Crisis 1870 1936 as well as Smith Rosenberg's more recent work on abortion homosexuality religious fanatics and revisionist history Throughout Disorderly Conduct Smith Rosenberg startles and convinces making us re evaluate a society we thought we understood a society whose outward behavior and inner emotional life now take on a new meaning **The History of Mathematical Tables** Martin Campbell-Kelly, 2003-10-02 This book contains a series of articles summarizing the technical institutional and intellectual history of mathematical tables from earliest times until the late 20th century when the electronic spreadsheet changed the way information is processed *Loosening the Seams* A. Esposito, 2019-07-30 A provocative look at the mystery surrounding the Jersey Devil a beast born of colonial times that haunts the corners of the Pine Barrens and the American imagination to this day Legend has it that in 1735 a witch named Mother Leeds gave birth to a horrifying monster a deformed flying horse with glowing red eyes that flew up the chimney of her New Jersey home and disappeared into the Pine Barrens Ever since this nightmarish beast has haunted those woods presaging catastrophe and frightening innocent passersby or so the story goes In *The Secret History of the Jersey Devil* Brian Regal and Frank J. Esposito examine the genesis of this popular myth which is one of the oldest monster legends in the United States According to Regal and Esposito everything you think you know about the Jersey Devil is wrong The real story of the Jersey Devil's birth is far more interesting complex and important than most people believers and skeptics alike realize Leaving the Pine Barrens Regal and Esposito turn instead to the varied political and cultural roots of the Devil's creation Fascinating and lively this book finds the origins of New Jersey's favorite monster not in witchcraft or an unnatural

liaison between woman and devil but in the bare knuckled political fights and religious upheavals of colonial America A product of innuendo and rumor as well as scandal and media hype the Jersey Devil enjoys a rich history involving land grabs astrological predictions mermaids and dinosaur bones sideshows Napoleon Bonaparte's brother a cross dressing royal governor and Founding Father Benjamin Franklin *Trance Journeys of the Hunter-Gatherers* Nicholas E. Circles and the Cross Loren Wilkinson,2023-08-21
Circles and the Cross is an invitation to explore two mysteries One is the miracle of the cosmos why is there something and not nothing The other is the miracle of consciousness why should this collection of stardust be an I and not just an it Our basic response to those mysteries is wonder and from wonder have grown the three great trees of human culture religion art and science This exploration is undertaken in the light of a third mystery the cross of Christ is the clearest picture we have of the triune Creator of both cosmos and consciousness That self emptying of the Creator out of love for the creation helps us understand the pleasures paradoxes and pains of science it helps us understand how evolution can be another name for creation it casts light on the Enlightenment and Romanticism In particular it illuminates the environmental movement an ethic in search of a religion Loren Wilkinson drawing on fifty years of teaching and writing about our relationship to creation invites you to join this journey into understanding how the cross of Christ sheds light on the mysteries that surround us and gives us hope in a difficult age
