The Good Old Cause Willie Thompson, 1992 Succinct and readable A valuable and fair assessment not only of the general history of the Communist Party of Great Britain but of the factors that led to its undoing American Historical Review

Growing Up Communist in the Netherlands and Britain Elke Weesjes, 2025-10-01 Growing Up Communist in the Netherlands and Britain Childhood Political Activism and Identity Formation documents communists attempts successful and otherwise to overcome their isolation and to connect with the major social and political movements of the twentieth century Communist parties in Britain and the Netherlands emerged from the Second World War expecting to play a significant role in post war society due to their domestic anti fascist activities and to the part played by the Soviet Union in defeating fascism The Cold War shattered these hopes and isolated communist parties and their members By analysing the accounts of communist children Weesjes highlights their struggle to establish communities and define their identities within the specific cultural social and political frameworks of their countries

The Communist Party of Great Britain Since 1920 J. Eaden, D. Renton, 2002-05-10 A new single volume history of the Communist Party of Great Britain examining the party from its foundations in 1920 to its demise in the early 1990s Drawing on original research and a reading of specialist texts the authors analyze the rise and fall of the party and evaluate its role on the left of British politics Whilst sympathetic to the ideals and commitment of many British communist activists the book is sharply critical of much of the actual practice of the party

Labour and the Free Churches, 1918-1939 Peter Catterall, 2016-10-06 Did the Labour Party in Morgan Phillips famous phrase owe more to Methodism than Marx Were the founding fathers of the party nurtured in the chapels of Nonconformity and shaped by their emphases on liberty conscience and the value of every human being in the eyes of God How did the Free Churches traditionally allied to the Liberal Party react to the growing importance of the Labour Party between the wars This book addresses these questions at a range of levels including organisation rhetoric policies and ideals and electoral politics It is shown that the distinctive religious setting in which Labour emerged indeed helps to explain the differences between it and more Marxist counterparts on the Continent and that this setting continued to influence Labour approaches towards welfare nationalisation and industrial relations between the wars In the process Labour also adopted some of the righteousness of tone of the Free Churches This setting was however changing Dropping their traditional suspicion of the State Nonconformists instead increasingly invested it with religious values helping to turn it through its growing welfare functions into the provider of practical Christianity This nationalisation of religion continues to shape British attitudes to the welfare state as well as imposing narrowly utilitarian and material tests of relevance upon the churches and other social institutions The elevation of the State was not however intended as an end in itself What mattered were the social and individual outcomes Socialism for those Free Churchmen and women who helped to shape Labour in the early twentieth century was about improving society as much as systems

The Great Alliance Jim Phillips,1996 Reappraising the character of Britain s most successful Labour government the author provides a study of the Great Alliance between the Labour Party and the trade unions during the post war period It reveals that the failure of Attlee s government to support the demands of the workers for increased wages and work security in favour of the demands of the financial markets undermined the popularity of the Labour Party that had swept them to power in 1945

Communist Women in Scotland Neil C. Rafeek, 2008-05-30 Scotland and especially the industrial conurbation surrounding Glasgow played a pivotal role in radical politics in the twentieth century The protesters challenged the capitalist social order and on occasion the state itself thus earning the tag Red Clydeside However the role of women in this movement has been marginalised In this original and meticulously researched study Neil Rafeek addresses this gap in the literature critically examining the experience of women in the Communist Party in Scotland from the formation of the Party in 1920 to the end of a century of tumultuous upheaval and social and political change Rafeek engages critically with many of the key issues of debate traversing gender relations within the Party the importance of the Socialist Sunday School and other formative influences on political consciousness as well as the involvement of communist women in the world wars the developing struggle for women's rights the 1960s the revolutions and anti Vietnam war nuclear weapons campaigns This book privileges the memories and voices of participants and relies upon new oral interview evidence accumulated by the author from those women who lived through and were directly involved in these events Rafeek describes women's experiences of meeting leading international personalities of the era Khrushchev Gagarin Tereshkova Castro and Ceausescu Using rich and evocative personal testimony blended with sensitive analysis Rafeek shows the idealistic socialist motivation behind the establishment of Red Clydeside and the subsequent growing strains and discord in Communism and the labour movement generally internationally and in Scotland

William Wallace Graeme Morton, 2014-10-08 A deconstruction of

The Labour Party and the world, volume 1 Rhiannon Vickers, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This is the first comprehensive study of the political ideology and history of the Labour Party's world view and foreign policy It argues that the development of Labour's foreign policy perspective should be seen not as the development of a socialist foreign policy but as an application of the ideas of liberal internationalism The first volume outlines and assesses the early development and evolution of Labour's world view It then follows the course of the Labour party's foreign policy during a tumultuous period on the international stage including the First World War the Russian Revolution the Spanish Civil War the build up to and violent reality of the Second World War and the start of the Cold War This highly readable book provides an excellent analysis of Labour's foreign policy during the period in which Labour experienced power for the first time

Manipulating Hegemony R. Vickers, 2000-02-17 Drawing on neo Gramscian theories of International Political Economy this book explores the impact of the Marshall Plan on labour and government in Britain Rather than the US imposing a politics of productivity on an unwilling government the centre right of the Labour Party used the Marshall Plan to achieve its own political ends *Manipulating Hegemony* shows how the government was able to marginalise the left to create a pattern of state labour politics that was to endure until the end of the 1970s

British Propaganda and News Media in the Cold War John Jenks, 2006-04-19 This is a study of the British state's generation suppression and manipulation of news to further foreign policy goals during the early Cold War Bribing editors blackballing unreliable journalists creating instant media experts through provision of carefully edited inside information and exploiting the global media system to plant propaganda disguised as news around the world these were all methods used by the British to try to convince the international public of Soviet deceit and criminality and thus gain support for anti Soviet policies at home and abroad Britain's shaky international position heightened the importance of propaganda The Soviets and Americans were investing heavily in propaganda to win the hearts and minds of the world and substitute for increasingly unthinkable nuclear war The British exploited and enhanced their media power and propaganda expertise to keep up with the superpowers and preserve their own global influence at a time when British economic political and military power was sharply declining This activity directly influenced domestic media relations as officials used British media to launder foreign bound propaganda and to create the desired images of British public opinion for foreign audiences By the early 1950s censorship waned but covert propaganda had become addictive The endless tension of the Cold War normalized what had previously been abnormal state involvement in the media and led it to use similar tools against Egyptian nationalists Irish republicans and British leftists Much more recently official manipulation of news about Iraq indicates that a behind the scenes examination of state propaganda's earlier days is highly relevant John Jenks draws

heavily on recently declassified archival material for this book especially files of the Foreign Office's anti Communist Information Research Department IRD propaganda agency and the papers of key media organisations journalists politicians and officials Readers will therefore gain a greater understanding of the depth of the state's power with the media at a time when concerns about propaganda and media manipulation are once again at the fore

Against the Cold War Darren G Lilleker, 2004-11-26 Who were the British MPs sympathetic to the Soviets the crypto communists left wing gadflies the neo Stalinist left so derided by fellow politicians journalists historians and the public These Labour MPs fingered as Soviet spies who developed links with post war Russia were seen as potentially anti Western actors in the Cold War *Against the Cold War* examines the careers and motives of MPs like Tom Driberg and Ian Mikardo who developed ideological links with the Soviet Union and whose ideas influenced Labour's left wing Although radical and sympathetic to Communist ideals they remained principled socialists and were ready to exercise Trotsky's right to alight to oppose and even abandon Soviet links for democratic socialism

Cold War Britain M. Hopkins, M. Kandiah, G. Staerck, 2002-12-13 Britain and the Cold War 1945 1964 offers new perspectives on ways in which Britain fought the Cold War and illuminates key areas of the policy formulation process It argues that in many ways Britain and the United States perceived and handled the threat posed by the Communist bloc in similar terms nevertheless Britain's continuing global commitments post war economic problems and domestic considerations obliged her on occasion to tackle the threat rather differently

Peace and Power in Cold War Britain Christopher R. Hill, 2018-08-09 Peace and Power in Cold War Britain explores the ban the bomb and anti Vietnam War movements from the perspective of media history focusing in particular on the relationship between radicalism and the rise of television In doing so it addresses two questions both of which seem to recur with each major breakthrough in communications technology what do advances in communications media mean for democratic participation in politics and how do distinctive types of media condition the very nature of that participation itself

In answering these the book views the ban the bomb and anti Vietnam War movements in relation to communication power and media discourse It highlights how these movements intersected with parts of public life that were being transformed by television themselves shaping struggles for social change among activists and public intellectuals on the streets in the Labour Party and in the law courts The significance of this relationship between media and movements was complex and wide ranging Christopher R Hill demonstrates that it contributed to the enrichment of democracy in Cold War Britain with radicals serving to innovate and pioneer creative forms of political expression from both in and outside of media organisations However the movements increasingly succumbed to news coverage and values that revolved around human interest and violence feeding into the revolutionary spectacle of 1968 and the turn towards identity politics
