Craig Barnes,2006-03-01 Deep down it s easy to believe that the better job the nicer house or the more dynamic church will finally make us feel at home In Searching for Home M Craig Barnes challenges this belief He reminds us that paradise is lost and we can t go home again Our great comfort and hope however is that we are never lost to God Seasoned by more than twenty years as a pastor Barnes discusses the importance of confession worship and grace in our search for home He offers advice about how we can move from being transient nomads too frightened to be grateful to pilgrims who are at home with God guided by our pleasure in him This book was written for both Christians and seekers who are still looking for a sense of belonging or home It will be a useful tool for pastors adult Sunday school groups and counselors of all kinds who are advising pilgrims along the way

The Little Theatre on the Square Beth Conway Shervey,2000 Beth Conway Shervey examines the cultural consequences of an Equity theatre in a small midwestern farm town Although many in the Midwest and beyond know the story of The Little Theatre On The Square in Sullivan Illinois Shervey is the first to consider what the existence of such a theatre means to perceptions of life in the town To tell the story of Sullivan and of its star theatre in a cornfield from the perspective of the residents involved Shervey uses oral history and and dozens of photographs by David W Mobley the theatre s longtime photographer Sullivan resembles most small towns in the Midwest and The Little Theatre differs little from most professional summer stock theatres Yet taken together the small town and its theatre are clearly unusual and the existence of the theatre obviously alters perceptions of life in the small town Before the theatre opened in 1957 Sullivan decidedly was a product of its time the town sported a strong local chapter of the WCTU moral people avoided taverns liberals and Catholics were the minorities and the population was predominantly white While the theatre didn t effect instant change it did introduce people to Sullivan who were obviously different Stars such as Betty Grable Cesar Romero Margaret Hamilton and Pat O Brien came into town Aspiring actors and those behind the scenes also mingled with the residents of Sullivan As a result Shervey finds Sullivan faced such issues as racism homophobia urban liberalism and alcohol consumption at a much faster rate than similar towns For some the theatre disrupted a sense of the normal for others the theatre made life in Sullivan different and interesting breaking the restrictive bonds typically associated with small towns **Imaging the City** Lawrence J. Vale,Sam Bass Warner Jr.,2021-12-16 Planners face a controversial task because their professional role requires them to be spokespersons for the public interest In a welter of conflicting pictures and voices how might the public interest be

discovered Once identified how might it be expressed so that competing publics attend to it There are no easy answers but the experience of planners today suggests ways of working and innovations of promise The focus on planning practice prompted the editors to analyze images that are now at work in our cities For Vale and Warner all city design and constructions offer material that people should include in images of their environment The built and building city are part of the experience of all city dwellers it is theirs to incorporate interpret or ignore Essays included in this text trace the interplay between physical objects of planners and architects and the social experience and outlooks of image makers and their audiences Imaging the City explores urban image making from civic boosterism of medieval cities to iconic imagery of Times Square Vale and Warner bring together urban historians geographers city planners architects and cultural commentators to analyze the creation of urban imagery from the signature skyscrapers of Kuala Lumpur to the re creation of the South Bronx and the use of city images in film literature television and on the Internet Urban dwellers urban planners architects municipal officials sociologists urban historians all will perceive their worlds with a heightened sense of awareness after reading this book

Sidewalks in the Kingdom (The Christian Practice of Everyday Life) Eric O. Jacobsen, 2003-05-01 Christians often talk about claiming our cities for Christ and the need to address urban concerns But according to Eric Jacobsen this discussion has remained far too abstract Sidewalks in the Kingdom challenges Christians to gain an informed vision for the physical layout and structure of the city Jacobsen emphasizes the need to preserve the nourishing characteristics of traditional city life including shared public spaces thriving neighborhoods and a well supported local economy He explains how urban settings create unexpected and natural opportunities to initiate friendship and share faith in Christ Helpful features include a glossary a bibliography and a description of New Urbanism Pastors city dwellers and those interested in urban ministry and development will be encouraged by Sidewalks in the Kingdom

How Cities Work Alex Marshall, 2000-12-31 Marshall writes with wit reason and style An excellent resource on the history and future of American cities Library Journal Do cities work anymore How did they get to be such sprawling conglomerations of lookalike subdivisions mega freeways and big box superstores surrounded by acres of parking lots And why most of all don t they feel like real communities These are the questions that Alex Marshall tackles in this hard hitting highly readable look at what makes cities work Marshall argues that urban life has broken down because of our basic ignorance of the real forces that shape cities transportation systems industry and business and political decision making He explores how these forces have built four very different urban environments the decentralized sprawl of California s Silicon Valley the crowded streets of New York City s Jackson Heights neighborhood the controlled growth of Portland Oregon and the stage set facades of Disney s planned community Celebration Florida To build better cities Marshall asserts we must understand and intelligently direct the forces that shape them Without prescribing any one solution he defines the key issues facing all concerned citizens who are trying to control urban sprawl and build real communities His timely book is important reading for a wide public and

Visible Differences Dominic Pulera, 2002-06-05 Race The mere mention of the R word is a surefire conversation stopper In this book about America's most divisive social issue Dominic J Pulera offers a compelling roadmap to our future This accessible and penetrating analysis is the first to include detailed coverage of America's five racial groups whites blacks Hispanics Asian Americans and Native Americans The author contends that race will matter to Americans during the twenty first century because of visible differences and that differences in physical appearance separating the races are the single most important factor shaping intergroup relations in conjunction with the social cultural economic and political ramifications that accompany them Pulera shows how why when and where race matters in the United States and who is affected by it He explains the ongoing demographic transition of America from a predominantly white country to one where nonwhites are increasingly numerous and consequently more visible The advent of a multiracial consciousness has tremendous implications for America's future because the racial significance of almost every part of the American experience is increasing as a result The author concludes on a note of cautious optimism as he explores whether the visible differences dividing Americans are reconcilable
