**Jonathan's Loves, David's Laments** Dirk von der Horst, 2017-03-24 Jonathan's Loves David's Laments uses early modern musical interpretations of David's Lament over Saul and Jonathan to deepen the historicist foundations of contemporary feminist and gay relational theologies After laying out how gay theologian Gary David Comstock connects the story of David and Jonathan to the theology of lesbian theologian Carter Heyward the argument interrogates both theological and exegetical problems in making those connections which include contradictory theological stances with regard to modernity and history as well as the indeterminacy of the biblical text Early modern musical interpretations of the text allow for a double move of engaging the texts through a sensual medium thus reinforcing queer possibilities for meaning making

from the biblical text and staying attuned to the fact that the history of interpretation reinforces the indeterminacy of the text thus keeping queer interpretations aware of the relativizing function of historical difference

**Altering Nature** B. A. Lustig, B.A. Brody, Gerald P. McKenny, 2008-11-01 B Andrew Lustig Baruch A Brody and Gerald P McKenny In this second volume of the Altering Nature project we situate specific religious and policy discussions of four broad areas of biotechnology within the context of our interdisciplinary research on concepts of nature and the natural in the first volume *Altering Nature Concepts of Nature and the Natural in Biotechnology Debates* In the first volume we invited five groups of scholars to explore the diverse conceptions of nature and the natural that shape moral judgments about human alterations of nature as especially exemplified by recent developments in biotechnology A careful reading of such developments reveals that assessments of them whether positive or negative are often informed by different conceptual interpretations of nature and the natural with differing implications for judgments about the appropriateness of particular alterations of nature These varying interpretations of nature and the natural often result from the distinctive perspectives that characterize various scholarly disciplines Therefore in an effort to explore the variety of meanings that attend discussions of the concepts of nature and the natural the contributors to the first volume of *Altering Nature* addressed those concepts from five different disciplinary vantages A first group of scholars analyzed a range of religious and spiritual perspectives on concepts of nature and the natural Their research highlighted the thematic historical and methodological touchstones in those traditions that shape their perspectives on nature

*Embracing Disruptive Coherence* Kathleen T. Talvacchia, 2019-04-18 Does anyone need to come out anymore Queer theory has challenged the idea of coming out as problematic for its false binary and essentialized version of identity If gender is a socially constructed performativity then what does coming out mean At the same time we live in a society that still struggles with structures of power that define what is considered normal and sanctions those who transgress The intersectionality of gender with race class ethnicity nationality abilities religion age and other positional markers challenge a simplified belief that coming out is not necessary Therefore in the lived experience of many persons coming out still matters This book initiates a different theological conversation about coming out It argues that rather than the declaration of an identity

category coming out can be understood as the erotic ethical practice of truth telling The formation of conscience and moral integrity embody the two pillars of this erotic practice Coming out understood as disruptive coherence is the erotic ethical practice of truth telling grounded in our deepest desires to be known authentically in community

**Sexuality and Social Justice in Africa** Marc Epprecht,2013-07-11 The persecution of people in Africa on the basis of their assumed or perceived homosexual orientation has received considerable coverage in the popular media in recent years Gay bashing by political and religious figures in Zimbabwe and Gambia draconian new laws against lesbians and gays and their supporters in Malawi Nigeria and Uganda and the imprisonment and extortion of gay men in Senegal and Cameroon have all rightly sparked international condemnation However much of the analysis has been highly critical of African leadership and culture without considering local nuances historical factors and external influences that are contributing to the problem Such commentary also overlooks grounds for optimism in the struggle for sexual rights and justice in Africa not just for sexual minorities but for the majority population as well Based on pioneering research on the history of homosexualities and engagement with current lgbti and HIV AIDS activism Marc Epprecht provides a sympathetic overview of the issues at play and a hopeful outlook on the potential of sexual rights for all
