- 1 Affectionate and Social Nature Gerbils are renowned for having an outgoing and gregarious personality They get along well with their owners and like spending time with them Gerbils can be easily handled with the right care and are often less likely to bite than some other small pets
- 2 Low Maintenance Compared to larger animals gerbils require less care as pets Their living requirements include frequent availability to food and water a clean habitat and some daily interaction As such they are well suited for busy adults or families searching for a companion that fits in
- 3 tidiness Gerbils are inherently tidy creatures Regular self grooming lowers smells and lessens the need for frequent bathing Furthermore regular cleaning can improve the general hygiene of their habitat by keeping their living area neat
- 4 Long Lifespan Gerbils have an average lifespan of 24 years when given the right care Because of their long lifespan

owners are able to form enduring relationships with their pets and spend a considerable amount of time with them 5
Educational Value For kids in particular gerbils can be educationally stimulating pets They offer exciting hands on chances to learn about the natural environment animal behavior and responsibility through pet care 6 Adaptability Gerbils can adapt to a wide range of living situations which makes them appropriate for a variety of habitats and houses They do best in large enclosures with lots of enrichment possibilities but with the right care they may even adapt rather well to apartment living 7 Amusement It may be a lot of fun to watch gerbils interact play and explore their environment Families and individuals alike can enjoy endless hours of entertainment from their lively antics and inquisitive disposition **A Giraffe for a Pet** Elizabeth Strickland,2010-04 *Gerbil Pets and Other Small Rodents* Ray Broekel,1983 A brief introduction to the care and feeding of pet gerbils hamsters guinea pigs and mice
