Gordion Ahsap Eserler:

The Archaeology of Phrygian Gordion, Royal City of Midas C. Brian Rose, 2013-03-16 Some of the most dramatic new discoveries in Asia Minor have been made at Gordion the Phrygian capital that controlled much of central Asia Minor for close to two centuries The most famous ruler of the kingdom was Midas who regularly negotiated with Greeks in the west and Assyrians in the east during his reign Excavations have been conducted at Gordion over the course of the last 60 years all under the auspices of the University of Pennsylvania Museum of Archaeology and Anthropology In spite of the economic and political importance of Gordion and the Phrygians the site is consistently omitted from courses in Old World archaeology primarily because Gordion lies too far to the west for many Near Eastern archaeologists and too far to the east for classical archaeologists Moreover there is no book that offers a comprehensive and up to date assessment of the material culture of Gordion during the Phrygian period a gap that will be filled by this volume The chapters cover all aspects of Gordion s Phrygian settlement topography from the arrival of the Phrygians in the tenth century B C through the arrival of Alexander the Great in 333 B C focusing on the site s changing topography and the consistently fluctuating interaction between the inhabitants and the landscape A reexamination of the material culture of Phrygian Gordion is particularly timely given the dramatic recent changes in the site s chronology wherein the dates of many discoveries have changed by as much as a century The authors are among the leading experts in Near Eastern archaeology historic preservation paleobotany and ancient furniture and their articles highlight the interdisciplinary nature of the Gordion project A significant component of the book is a new color phase plan of the site that succinctly presents the topography in diachronic perspective University Museum Monograph 136 **The Gordion Wooden Objects, Volume 1 The Furniture from Tumulus MM (2-vol. set)**

Elizabeth Simpson, 2010-12-15 *The Furniture from Tumulus MM* The Gordion Wooden Objects volume 1 is a study of the furniture from the largest tomb at Gordion Turkey excavated in 1957 by the University of Pennsylvania Museum The tomb dates to the eighth century BC and is thought to be the burial of the great Phrygian king Midas or his father The objects initially misunderstood are now identified as nine tables two serving stands two stools a chair and an open log coffin Three pieces are ornately carved and inlaid with religious symbols and complex geometric motifs The wooden objects from Gordion are now recognized as the most important collection of well preserved wooden artifacts excavated from the Near East Included in this volume are new photographs reconstruction drawings and eight scientific technical appendices Contributors include Harry Alden Burhan Aytu Mary W Ballard Robert A Blanchette Roland Cunningham Laure Dussubieux Patrick E McGovern Benjamin Held Walter Hopwood Joseph Koles Lynn E Roller Krycia Spirydowicz this work goes well beyond a typical site specific object catalogue and makes important contributions to a wide range of scholarly fields both technical and conceptual from textile and wood analysis to anthropological and religious studies Elizabeth P Baughan University of Richmond The book succeeds in its main aims of making available every scrap of information about the finds and it
