Follow the Bus with the Greek License Plates Donald L. Weismann,1981-10-01 **Harry Hunt Ransom** Alan Gribben,2010-01-01 Both a life story and a portrait of public higher education during the twentieth century Harry Hunt Ransom captures the spirit of a dynamic individual who dedicated his talents to nurturing intellectual life in Texas and beyond Tracing the details of Ransom s youth in Galveston and Tennessee and his education at Yale where he earned a doctorate Alan Gribben provides new insight into the factors that shaped Ransom s future as a renowned administrator and defender of the humanities Ransom s career at the University of Texas began in 1935 when he was hired as an instructor of English He rose through the ranks to become chancellor stepping down in 1971 during a volatile period when debates about the University s central mission raged particularly over the question of commercializing higher education The development of Ransom s lasting legacy the Humanities Research Center bearing his name is explored in depth as well Bringing to life a legendary figure Harry Hunt Ransom is a colorful testament to a singular man of letters who had the audacity to propose that there be established somewhere in Texas let s say in the capital city a center of our cultural compass a research center to be the Biblioth que Nationale of the only state that started out as an independent nation *The Cumulative Book Index* ,1982 A world list of books in the English language *The Publishers' Trade List Annual* ,1984 *The Writers Directory* ,1990 *The Stuff of Stories* Donald L. United States history As the American economy spirals out of control extremists and enemy states abroad have taken notice and join forces to bring down its sworn enemy while it is vulnerable As the economy worsens American leaders begin to panic and start looking for extreme measures to remedy the situation at home With financial problems of their own and dissidence two of Americas greatest enemies collude to land a decisive blow that will eliminate the American problem once and for all With the discovery of the planned major terrorist attack two high ranking officials from Central Intelligence and National Intelligence try to persuade an unpopular President to play along with the plot and thus exploit a potential situation which might help sway popular opinion in favor of the President and put America back to work When their idea enrages the President they go after the next best alternative military icons Both play along but not before the controlled attack goes very wrong and all are left scrambling looking for answers except one of them who has plans of his and in effect secure his own personal interests The attack persuades the American President to go after the perpetrators for an inevitable showdown with a powerful Middle Eastern country which will undoubtedly have apocalyptic consequences *Kalavrita Cornel*

Lumiere,1986 Destinies become tragically intertwined as Stavros seeks to avenge the atrocity in his past **To Right the Unrightable Wrong** Robert L. Pirtle,2007-11-16 A century ago Americans were still moving west settling in new states establishing themselves in new environments That pattern was followed by the grandparents then by the parents of Robert L Pirtle the author of this autobiography The eventual home of the authors parents and his family was Roswell New Mexico a sleepy little town in southeastern New Mexico To begin with however the book traces the authors lineage even including fascinating familial connections to the compilation of the King James Version of the Bible to the Cherokee Indian Tribe and to the Commander of the Alamo Readers will certainly enjoy the picture the author draws of small town America in the 1930s and 1940s of the vicissitudes of growing up of junior and senior high school days and high jinks The author displayed an interest in fairness and justice from his earliest days indeed he proposes that every child has an inherent instinct for justice As the author moved through childhood and school years he encountered numerous incidents in which the concept of fairness played a decisive part Though such incidents of childhood are of minimal significance yet they play a part in shaping a childs character and perception of the world and can lead to incidents of real significance in adulthood The author describes incidents which did just that in his own life In one instance the author shamefacedly admits being the cause of a hurtful injustice to others yet that incident too played its part in his maturation It is said after all that good judgment comes from experience and experience comes from bad judgment By the time the author graduated from high school his interest in science in mathematics rose to the forefront of his mind and he entered Purdue University with a four year scholarship from the University Before the year was out however he knew he did not want to pursue science as a career and he switched to the University of Arizona where he majored in mathematics his easiest subject while he sampled the liberal arts and pondered what his life work would be He first considered entering the ministry and becoming a Methodist Preacher but little

by little he decided that he could prove of greater help to people and especially to the cause of justice as a lawyer Accordingly his last year in the undergraduate program was his first year in the law school of the University of Arizona After graduating he took his commission as a 2nd lieutenant in the United States Air Force working as a mathematician at the Special Weapons Center of Kirtland Air Force Base in Albuquerque New Mexico The authors function was as target analyst designing an atomic weapon delivery system for fighter aircraft Fascinating is the authors description of his witnessing the explosion of an atomic bomb named Zucchini in Nevada in 1955 The author entered the University of Colorado upon completing his Air Force term and was hired by the largest law firm in Seattle Holman Mickelwait Marion Black Perkins upon his graduation from law school During his brief Air Force career The author had studied Shakespeare at the University of New Mexico later entered into negotiations with the popular TV show The 64 000 Question and was being scheduled to appear on the show after his graduation from law school But the TV show collapsed after Charlie Van Doren son of the internationally known Shakespeare scholar Mark Van Doren lied to a grand jury in New York concerning whether he had been fed answers when he appeared on the show And a year or so of performing legal work for corporate clients discouraged the author to the point that he left the Firm and hung out his shingle as a sole practitioner but simultaneously entered the graduate school of philosophy of the University of Washington contemplating becoming a philosophy professor In the end the author d
