Varying Time Criteria in Recidivism Follow-up Studies Daniel P. LeClair,1983 **A Time to Lead and a Time to Follow** Scott Espinda,2021-09-21 A Time to Lead and A Time to Follow By Scott Espinda I arrived in Virginia Beach Virginia from Oahu Hawaii My dad just passed away and I wish I could say the haunted memories of finding him that morning and carrying him on the stretcher to watch the van drive away was what set me on my mission In reality I spent my life with him building our family company and when he disappeared so did the company so did my life I believe no one ever starts over we just get knocked down I got knocked down big time My resume was shot I had no personal references because the leadership path is a long and lonely road And on paper it looked one of two ways One I was a greedy crook or two a deadbeat This bothered me I set sail like a modern pioneer to rekindle a spark in our generation to be the person I most wish I had a leader I lived in my camping tent for a good year or so and I walked into a job where I knew I would do a lot of good A gas station At this gas station I was able to see my life s training come into play and took the opportunity to share experiences methods stories and conversations to inspire people to use A Time to Lead and a Time to Follow as a tool a tool to help you and your team become a valuable asset at your job and in your community **House of Commons - Transport Committee: Flight Time Limitations: Follow Up - HC 641** Great Britain: Parliament: House of Commons: Transport Committee,2013-09-11 Flight time limitations regulate the number of hours that pilots and crew work in order to prevent fatigue Fatigue contributes 15 20% of fatal aviation incidents caused by human error In July 2013 Member States of the European Union voted strongly in support of a draft proposal on flight time limitations by the European Commission Overall the Commission s draft regulation represents an improvement but concerns remain Particularly about the apparent reluctance of the Commission when developing these regulations to set a lower limit for the flight duty period at night in accordance with the scientific evidence on this matter It is disappointing that the UK Government has not pressed for a lower limit It is also disappointing that a consensus has not been reached on the draft regulations with crew and pilot representatives It is recommended that the European Scrutiny Committee requests the UK Government to press the Commission to ensure an effective monitoring regime is put in place to examine whether the 11 hour limit is at least as safe as the current regime and that they request the European Commission provide an assessment of the regulation two years after its implementation The Committee also concluded that the potential under reporting of pilot fatigue must be properly recognised if it is to be effectively tackled information should be regularly published on the use of Commander s discretion to extend their crew s flight duty period if unforeseen circumstances arise and scientists must have a more central role in the development and assessment of flight time limitation proposals Time-Out in Child Behavior Management Corey C.
