*Rules of Engagement?* Stjepan Mestrovic, 2008 Blackwater Abu Ghraib and other scandals in Iraq were presaged by the murderous Operation Iron Triangle in May 2006 when US soldiers were ordered to kill all Iraqis of military age The soldiers were imprisoned the officer was merely reprimanded Mestrovic details the American leadership's fake commitment to the Geneva Conventions and the rule of law fake due process for defendants fake goals of promoting democracy and compulsion to repeat our errors in Vietnam The Blackwater scandal involved killing unarmed Iraqis in accordance with rules of engagement that were apparently similar to the case analyzed in these pages *Obedying Orders* Mark J. Osiel, 2017-07-05 A soldier obeys illegal orders thinking them lawful When should we excuse his misconduct as based in reasonable error How can courts convincingly convict the soldier's superior officer when after Nuremberg criminal orders are expressed through winks and nods hints and insinuations Can our notions of the soldier's due obedience designed for the Roman legionnaire be brought into closer harmony with current understandings of military conflict in the contemporary world Mark J Osiel answers these questions in light of new learning about atrocity and combat cohesion as well as changes in warfare and the nature of military conflict Sources of atrocity are far more varied than current law assumes and such variations display consistent patterns The law now generally requires that soldiers resolve all doubts about the legality of a superior's order in favor of obedience It excuses compliance with an illegal order unless the illegality as with flagrant atrocities would be immediately obvious to anyone But these criteria are often in conflict and at odds with the law's underlying principles and policies Combat and peace operations now depend more on tactical imagination self discipline and loyalty to immediate comrades than on immediate unreflective adherence to the letter of superiors orders backed by threat of formal punishment The objective of military law is to encourage deliberative judgment This can be done Osiel suggests in ways that enhance the accountability of our military forces in both peace operations and more traditional conflicts while maintaining their effectiveness Osiel seeks to civilianize military law while building on soldiers own internal ideals of professional virtuousness He returns to the ancient ideal of martial honor reinterpreting it in light of new conditions arguing that it should be implemented through realistic training in which legal counsel plays an enlarged role rather than by threat of legal prosecution Performing Difference Jonathan C.
