Food and Healing Annemarie Colbin, 2013-01-30 Yes you are what you eat For everyone who wonders why in this era of advanced medicine we still suffer so much serious illness Food and Healing is essential reading An eminently practical authoritative and supportive guide to making everyday decisions about eating that can transform our lives Food and Healing is a remarkable achievement Richard Grossman Director The Health in Medicine Project Montefiore Medical Center Annemarie Colbin founder of New York's renowned Natural Gourmet Cookery School and author of The Book of Whole Meals argues passionately that we must

take responsibility for our own health and rely less on modern medicine which still seems to focus on trying to cure rather than prevent illness Eating well she shows is the first step toward better health Drawing on an impressive range of thinking from Eastern philosophy to current medical journals Colbin shatters many myths not only about the Standard American Diet but also about some of the quirky and unhealthy food fads of recent years What emerges is one of the first complete works on How food affects our moods The healing qualities of specific foods The role of diet in preventing illness How to tailor a diet approach that is right for you I recommend it to my patients It s an excellent book to help people understand the relationship between what they eat and how they feel Stephen Rechtstaffen M D Director Omega Institute for Holistic Studies Have a look at this important well thought out book Bon Appetit

Food cravings Adrian Meule, Boris C. Rodríguez-Martín,2015-05-26 Food craving refers to an intense desire or urge to consume a specific food In Western or Westernized societies these craved foods usually have high palatability and are energy dense that is they have high sugar and or fat content Accordingly the most often craved food is chocolate Food craving is a multidimensional experience as it includes cognitive e g thinking about food emotional e g desire to eat or changes in mood behavioral e g seeking and consuming food and physiological e g salivation aspects Experiences of food craving are common that is they do not reflect abnormal eating behavior per se However very intense and frequent food craving experiences are associated with obesity and eating disorders such as bulimia nervosa and binge eating disorder The aim of this research topic was to gather new contributions to a variety of aspects of food craving which include its assessment cognitive and emotional triggers moderators and correlates of food craving and the relevance of food cravings in clinical issues among others
