Weekly An entertaining cozy Kirkus Reviews **The Living Clock** John D. Palmer, 2002-03-14 From one celled paramecium to giant blue whales we all have internal clocks that regulate the rhythms we live by In The Living Clock John Palmer one of the world s leading authorities on these rhythms takes us on a tour of this broad and multifaceted subject examining everything from glowing fruit flies to the best cures for jet lag Palmer has a wonderful sense of humor and an eye for the startling fact We learn that fiddler crabs in a lab where there are no time nor tide cues remain active when low tide would occur and motionless during high tide the same pattern they follow in their natural habitat In fact you can remove a crab s leg and the leg will keep a tidal rhythm as long as it s kept alive Moreover humans are subject to more than one hundred

biological rhythms Mental acuity peaks in the afternoon for instance and our blood pressure peaks at seven in the morning when most heart attacks occur The time of day you take medication can affect how well it works And Palmer shows that when our clocks are thrown off kilter trouble follows especially for rotating shift workers the Bhopal spill the Chernobyl reactor explosion and the Three Mile Island accident all happened when new crews began early hour shifts No one has discovered exactly how our internal clocks work Palmer says a Nobel Prize awaits that lucky scientist but they are no less fascinating for their inexplicable nature Frequently amusing and always eye opening The Living Clock is a treat for everyone curious about the nature of life as well as anyone planning a long jet flight *GOD DESTINY CONNECTIONS* Thomas Livingston Danzey, 2024-09-19 If you have ever questioned the purpose of your life or if God is really there this book hopefully will help you with these questions This is a true story of actual events and unbelievable interventions by God for me a misfit not an angel These are real happenings that occurred during my many darkest hours I am truly a doubting Thomas As a person who believes in true science I believe there has to be a God After the last twenty four years I can now say I am no longer a believer I now know there is a God God intervenes in different ways You will be surprised by the number of times and the ways this happens This is a long short story It is to the point and free of attempts to convince you to think in a different way You make up your own mind Hopefully you will cry laugh and be amazed *Maryland's Vanishing Lives* John Sherwood, 1995-10 For more than two years John Sherwood roamed Maryland's small towns and city neighborhoods traveled Appalachian back roads and sailed the Chesapeake looking for people whose work or way of life recalled the state's rich and varied tradition Maryland's Vanishing Lives is his vivid account of the people he met on those journeys Working in a country store or an old time movie house on a small tobacco farm or a weathered skipjack Sherwood's subjects interest us as people as stubborn survivors who have watched sometimes defiantly sometimes wistfully as the world moved on These Marylanders stories poignantly show what happens to family businesses and ordinary folk in the face of new technology suburban sprawl franchise outlets and changing tastes But Maryland's Vanishing Lives is also an engaging celebration of pride and craft and the ability to survive In this collection of sixty six short profiles illustrated with memorable photographs by Edwin Remsberg Sherwood preserves for posterity the lives of Marylanders who hang on to values and skills that are quickly disappearing
