For A Sane Green Future:

For a Sane, Green Future S. M. Mohamed Idris,1990 **America's True Green Future** Joe Miller,2011-11-15 This book explores the history of cannabis and the cannabis prohibition It critically examines the reasons why cannabis remains illegal It discusses the effects that our prohibitionist policy is having on our nation The purpose is to inform the readers about some of the huge advantages we can gain by for our environment our economy and our public safety by ending prohibition Though it covers many areas of thought it is easy to read and understand People somewhat familiar with cannabis will find it informative humorous and uplifting People unfamiliar with the topic will be shocked by the amount of information they have never been told The Human Right to a Green Future Richard P. Hiskes,2009 This book presents an argument for establishing environmental human rights as the legitimate possession of both present and future generations It uses these rights to clean air water and soil to make an argument for justice across generations that is for recognizing the obligation that present generations have to preserve the environment and natural resources for future generations **For a Sane, Green Future** S. M. Idris,1990 **A Dictionary of Green Ideas** John Button,2019-06-21 First published in 1988 A Dictionary of Green Ideas collects together the concepts which go to make up a green view of the world Ecology and the environment conservation and appropriate technology politics and philosophy peace and health spirituality and world development all these areas and more are reflected in nearly 1500 entries The entries range from the very short to full length essays reflecting the diversity of the subject matter All give a clear definition of the meaning of the term and an indication of its etymology and earliest use But the Dictionary of Green Ideas is much more than simply a list of definitions The concepts discussed are elaborated upon interpreted set in context exemplified by quotations from a wide range of sources and related to other entries by means of an extensive network of cross references The result is a fascinating and immensely readable book which successfully fulfils a double role as an accessible introduction to green thought and as a source of reference offering new insights to green thinkers of long standing *San Francisco Bay Region Ship Homeporting, Treasure Island Naval Station* ,1984 The Design Culture Reader Ben Highmore,2023-05-09 Design is part of ordinary everyday life to be found in every room in every building in the world While we may tend to think of design in terms of highly desirable objects this book encourages us to think about design as ubiquitous from plumbing to television and as an agent of social change from telephones to weapon systems The Design Culture Reader brings together an international array of writers whose work is of central importance for thinking about design culture in the past present and future Essays from philosophers media and cultural theorists historians of design anthropologists cultural historians artists and literary critics all demonstrate the enormous potential of design studies for understanding the modern world Organised in thematic sections The Design Culture Reader explores the social role of design by looking at the impact it has in a number of areas especially globalisation ecology and the changing experiences of modern life Particular essays focus on topics such as design and the senses design and war

and design and technology while the editor's introduction to the collection provides a compelling argument for situating design studies at the very forefront of contemporary thought Architecture, Technology and Process Chris Abel, 2007-03-30 This new selection of essays follows Chris Abel's previous best selling collection *Architecture and Identity* Drawing upon a wide range of knowledge and disciplines the author argues that underlying technological changes in the process of architectural production are fundamental changes in the way we think about machines and the world we live in Key topics include new patterns of urbanism in the fast growing cities of Asia Pacific metaphorical extensions of mind and body in cyberspace the divergent European and North American values shaping Sir Norman Foster's and Frank Gehry's work and the collaborative work methods and technologies creating the adaptable design practices of today **The Expert Consumer** Alain Chatriot, Marie-Emmanuelle Chessel, 2017-09-29 Recent work has focused on the politics of consumption and its manifestation in a number of situations This volume extends these debates providing a tighter focus and contributing to a noticeable gap in the field that numerous scholars are beginning to turn towards that is organizations of consumers themselves who have chosen to speak for all consumers and similar such bodies of experts which act on behalf of consumers The volume is fortunate in drawing upon a number of scholars who are about to publish major works on the subject but who are happy to provide summary versions of their work for the volume The book pays particular attention to specific moments in consumer mobilization and expertise capturing the range of types of expert consumers across the twentieth century from ethical consumer groups at the beginning to intellectuals housewives economists and public officials It addresses questions on the nature of consumer organizing which bodies can speak for consumers whether one consumer voice can ever be identified and the relationship between consumption and citizenship Overview pieces demonstrate the larger narratives involved in the study of the expert consumer whilst more comparative essays set out the nature of transatlantic exchanges Other contributions point to the similarities across seemingly different consumption regimes while case studies of specific organisations and key historical moments draw out the particularities of consumer expertise **Public Places in Asia Pacific Cities** Pu Miao, 2013-03-14 PUMIAO 1 The Subject Matter Urban Public Places 2 The Location Asia Pacific Region 3 The Purpose of the Book For the Makers of Public Places 4 The Three Perspectives of the Book Description Criticism and Intervention 5 Perspective One Characteristics of Asia Pacific Cities and Their Public Places 1 High Population Density 2 Large Cities 3 Mixed Uses 4 Government Centered and Pro Development Culture 5 The East versus West Bipolarity 6 Small Amount of Public Space 7 Absence of Large Nodes and Overall Structure in Public Space 8 Intensive Use of Public Space 9 Ambiguous Boundary between the Public and the Private Summaries of Chapters 1 5 6 Perspective Two Current Issues and Debates 1 Identity Formal Identity Functional Identity 2 Sustainability High Tech versus Low Tech High Density versus Low Density 3 Equality Equal Participation Equal Accessibility Summaries of Chapters 6 9 7 Perspective Three Major Trends in Design and Theory 1 The Grey Relationship between the Public and the Private 2 The Transformation of Traditional Typology

3 Indigenous Decoration Color and Material in New Applications 4 The Tropical Public Place Summaries of Chapters 10 17 8 Conclusion Pu Miao ed Public Places in Asia Pacific Cities 1 45 2001 Kluwer Academic Publishers 2 P MIAO 1 The Subject Matter Urban Public Places A visitor to Kuala Lumpur will hardly forget the experience of strolling among the fragrant fruits sold under the overhang of the five foot walkway during a tropical downfall *Routledge Library Editions: Sustainability* Various Authors, 2021-03-04 The 4 volumes in this set originally published between 1988 and 1997 draw together research by leading academics in the area of sustainability and provides a rigorous examination of related key issues The volumes examine environmental policy and plans for a sustainable future This set will be of particular interest to students of Environmental Studies **Julien Green** Kathryn Eberle Wildgen, 1993 The themes that are interwoven like leitmotive in Julien Green's Journal love death art dreams water etc are also abundantly present in his novels Wildgen traces these tapestry like patterns throughout Green's works with sensitivity and comprehension Wildgen looks for the deeper ways in which thematic threads connect and she reveals patterns not previously explored by Green scholars we are indeed in Kathryn Wildgen's debt for this important new achievement in Green studies South Atlantic Review **Prosperity for All** Matthew Hilton, 2011-05-02 The history of consumerism is about much more than just shopping Ever since the eighteenth century citizen consumers have protested against the abuses of the market by boycotting products and promoting fair instead of free trade In recent decades consumer activism has responded to the challenges of affluence by helping to guide consumers through an increasingly complex and alien marketplace In doing so it has challenged the very meaning of consumer society and tackled some of the key economic social and political issues associated with the era of globalization In Prosperity for All the first international history of consumer activism Matthew Hilton shows that modern consumer advocacy reached the peak of its influence in the decades after World War II Growing out of the product testing activities of Consumer Reports and its international counterparts including Which in the United Kingdom Que Choisir in France and Test in Germany consumerism evolved into a truly global social movement Consumer unions NGOs and individual activists like Ralph Nader emerged in countries around the world including developing countries in Southeast Asia and Latin America concerned with creating a more equitable marketplace and articulating a politics of consumption that addressed the needs of both individuals and society as a whole Consumer activists achieved many victories from making cars safer to highlighting the dangers of using baby formula instead of breast milk in countries with no access to clean water The 1980s saw a reversal in the consumer movement's fortunes thanks in large part to the rise of an antiregulatory agenda both in the United States and internationally In the process the definition of consumerism changed focusing more on choice than on access As Hilton shows this change reflects more broadly on the dilemmas we all face as consumers Do we want more stuff and more prosperity for ourselves or do we want others less fortunate to be able to enjoy the same opportunities and standard of living that we do Prosperity for All makes clear that by abandoning a more idealistic vision for consumer society we reduce consumers to little more than

shoppers and we deny the vast majority of the world's population the fruits of affluence **Metapolitical: Practicing Our Human Future** Nowick Gray, 2022-08-01 Wise and humorous sensemaking in a mad world grounded in wild nature sustainable culture and free spirit What is stopping us from practicing our human future now Beyond the old paradigm of false narratives and party politics we walk in natural law of nature culture spirit An empowering deep dive for free thinkers righteous rebels and awaking activists Nowick Gray's essays from The New Agora 2020-21 paint visions of our creative sovereignty *For Earth's Sake* Commission on Developing Countries and Global Change, International Development Research Centre (Canada), 1992 For Earth's Sake A report from the Commission on Developing Countries and Global Change **Draft EIS**, 1987 The Influence of the Educational Elites on Educational Development in Malaysia Ibrahim Ahmad Bajunid, 1991 **Future Forms and Design For Sustainable Cities** Mike Jenks, Nicola Dempsey, 2006-08-11 Concentrating on the planning and design of cities the three sections take a logical route through the discussion from the broad considerations at regional and city scale to the larger city at high and lower densities through to design considerations on the smaller block scale Key design issues such as access to facilities access for sunlight life cycle analyses and the impact of communications on urban design are tackled and in conclusion the research is compared to large scale design examples that have been proposed and or implemented over the past decade to give a vision for the future that might be achievable

In Defence of Land and Livelihood Faris Ahmed, 1997 After Earth Day Max Oelschlaeger, 1992 Inaugurating a new series from the U of North Texas Press is this collection of essays originally delivered at a conference held at the U of North Texas in April 1991 The essays are gathered into five sections conservation politics environmental science today and tomorrow conservation economics and the corporate effort environmental philosophy and religion and conservation Distributed by Texas AandM U Press Annotation copyrighted by Book News Inc Portland OR
