For Gordon H Fairbanks:

Numbami Grammar in Ethnohistorical Context Joel Bradshaw, 2025-05-31 The Numbami language is a small isolate tied to only one coastal village within the Huon Gulf family of Austronesian languages in Papua New Guinea. It is currently classified as threatened with roughly two hundred active speakers according to its latest Ethnologue listing. *Numbami Grammar in Ethnohistorical Context* is the first comprehensive description of the language and its ethnolinguistic relations to neighboring languages. Both Austronesian and Papuan Language contact has had significant effects on all the Oceanic languages of New Guinea. This description therefore offers more ethnohistorical coverage than most reference grammars do, documenting such factors as oral history sources, evidence of multilingual villages in past and present, and frequent movement and prolonged contact among the coastal languages. It also notes the recent strong influence of Jab in the German Lutheran mission lingua franca Tok Pisin, the national lingua franca, and English. Linguistic coverage focuses especially on verbs, subject mood marking, verb serialization, deverbal resultatives, prepositions, and complementizers, and the highly productive compositional semantics of two small sets of ubiquitous core verbs. The members of one set function as polysemous light verbs, while the members of the other set play complementary roles in multiverb path constructions. Numbami serial verb constructions (SVCs) include switch subject as well as same subject relationships between verbs. The subjects of some adverbial serial verbs appear to be the events described by the earlier verbs in the SVC. Although Numbami appears to be phonologically conservative, it has shed most of its inherited Oceanic morphology. Possessive suffixes exist only on a few kinship terms; there is only one set of genitive pronouns, and there are no morphological means of deriving verbs from nouns or nouns from verbs. Light verbs and resultatives work to expand the inventory of verbal expressions, and postposed attributive genitives help expand the inventory of nominal expressions. Relative clauses are postposed and marked at both ends, as in most of the neighboring Oceanic languages. One chapter notes discourse phenomena, including topic marking, tail-head linkage, and a tabular analysis of the roles of overt vs. null subjects in narrative texts. Those texts are reproduced with interlinear glosses and translations in the appendices. *A Grammar of Mavea* Valérie Guérin, 2011-11-30 Spoken on Mavea Island by approximately 32 people. Mavea is an endangered Oceanic language of Vanuatu. This work provides grammatical descriptions of this hitherto undescribed language. Fourteen chapters containing more than 1,400 examples cover topics in the phonology and morphosyntax of Mavea, with an emphasis on the latter. Of particular interest are examples of individual speaker variation presented throughout the grammar, the presence of three linguo-labials still used today by a single speaker that were unexpectedly found before the rounded vowel *o*, and a chapter on numerals and the counting system which have long been replaced by Bislama *s* but are remembered by a handful of speakers. Most of the grammatical descriptions derive from a corpus of texts of various genres: conversations, traditional stories, personal histories, etc., gathered during the author's fieldwork conducted for eleven months between 2005 and 2007. *The Languages and*

Linguistics of South Asia Hans Henrich Hock, Elena Bashir, 2016-05-24 With nearly a quarter of the world's population members of at least five major language families plus several putative language isolates South Asia is a fascinating arena for linguistic investigations whether comparative historical linguistics studies of language contact and multilingualism or general linguistic theory This volume provides a state of the art survey of linguistic research on the languages of South Asia with contributions by well known experts Focus is both on what has been accomplished so far and on what remains unresolved or controversial and hence offers challenges for future research In addition to covering the languages their histories and their genetic classification as well as phonetics phonology morphology syntax and sociolinguistics the volume provides special coverage of contact and convergence indigenous South Asian grammatical traditions applications of modern technology to South Asian languages and South Asian writing systems An appendix offers a classified listing of major sources and resources both digital online and printed **Salish Languages and Linguistics** Ewa Czaykowska-Higgins, M. Dale

Kinkade, 2011-06-24 *TRENDS IN LINGUISTICS* is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science *TRENDS IN LINGUISTICS* considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language *TRENDS IN LINGUISTICS* publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing Functional Literacy Ludo Th

Verhoeven, 1994-01-01 The purpose of the volume is to open up new perspectives in the study of literacy by bringing together current research findings from linguistics psychology sociology and anthropology The book divides into five parts The first part deals with theoretical questions related to the definition and the modeling of the construct of functional literacy The second part goes into the notion of literacy development Both societal and individual aspects of literacy development are taken into account In the next two parts the actual achievement of literacy in various regions of the world is dealt with In part 3 the focus is on attaining literacy in developing societies and in part 4 on attaining literacy in industrialized societies In the final part the question is raised how functional literacy can be promoted through education Starting from a cross cultural perspective the central issue is how standards of functional literacy can be established throughout the world *History and Historiography of Linguistics* Hans-Josef Niederehe, E.F.K. Koerner, 1990-12-31 These two volume present papers from the Fourth International Conference on the History of the Language Sciences ICHoLS IV held at the University of Trier Germany in August 1987 Volume 1 contains the following sections I Generalia II Antiquity III Arabic Linguistics IV Middle Ages V

Koerner, 1989-01-01 This collection contains 24 articles on the history of linguistics written between 1978 and 1988 divided into three parts 1 Methods and Models in Linguistic Historiography 2 Tradition and Transmission of Linguistic Notions 3 Schools and Scholars in the History of Linguistics Three articles are written in German two in French and one in Italian The remaining eighteen articles are in English **The Lexicon of Proto-Oceanic** Malcolm Ross, Andrew Pawley, Meredith Osmond, 2007-03-01 This is the second in a series of five volumes on the lexicon of Proto Oceanic the ancestor of the Oceanic branch of the Austronesian language family Each volume deals with a particular domain of culture and or environment and consists of a collection of essays each of which presents and comments on lexical reconstructions of a particular semantic field within that domain Volume 2 examines how Proto Oceanic speakers described their geophysical environment An introductory chapter discusses linguistic and archaeological evidence that locates the Proto Oceanic language community in the Bismarck Archipelago in the late 2nd millennium BC The next three chapters investigate terms used to denote inland coastal reef and open sea environments and meteorological phenomena A further chapter examines the lexicon for features of the heavens and navigational techniques associated with the stars How Proto Oceanic speakers talked about their environment is also described in three further chapters which treat property terms for describing inanimate objects locational and directional terms and terms related to the expression of time **Typological Studies** Guglielmo Cinque, 2014-02-04 In this book Cinque takes a generative perspective on typological questions relating to word order and to the syntax of relative clauses In particular Cinque looks at

the position of the Head vis vis the relative clause in relation to the position of the verb vis vis his object a general cross linguistic analysis of correlatives the need to distinguish a sentence grammar from a discourse grammar type of non restrictives with languages differing as to whether they possess both one the other or neither a selective type of extraction from relative clauses and a tentative sketch of a more ample work in progress on a unified analysis of externally headed internally headed and headless relative clauses Ideology and Status of Sanskrit ,2023-07-31 The present volume is the outcome of a seminar on the Ideology and Status of Sanskrit held in Leiden under the auspices of the International Institute for Asian Studies The book contains studies of crucial periods and important areas in the history of the Sanskrit language from the earliest Vedic and pre Vedic periods through the period in which the restricted use of Sanskrit spread over practically all of South including part of Central and Southeast Asia sometimes referred to as the period of Greater India up to the recent history of Sanskrit in India The contributions of this volume are divided into three sections 1 Origins and Creation of the Eternal Language 2 Transculturation Vernacularization Sanskritization 3 The Sanskrit Tradition Continuity from the past or Construction from the present **History of Linguistics 2005** Douglas A. Kibbee,2007-11-28 As each period in the history of the language sciences has chosen to focus on different key questions the study of that history promises to open our eyes to the variety of interesting questions that can be asked and answered taking off the blinders of contemporary preoccupations September 1 5 2005 linguists from twenty five countries gathered at the University of Illinois at Urbana Champaign to share their passion for the history of their discipline This volume is a distillation of many fine contributions from that conference shedding light on the many different approaches to the study of language **Linguistic Change and Reconstruction Methodology** Philip Baldi,2011-06-01 No detailed description available for Linguistic Change and Reconstruction Methodology Morphosyntactic Persistence in Spoken English Benedikt Szmrecsanyi,2008-08-22 Language users are creatures of habit with a tendency to re use morphosyntactic material that they have produced or heard before In other words linguistic patterns and tokens once used persist in discourse The present book is the first large scale corpus analysis to explore the determinants of this persistence drawing on regression analyses of a variety of functional discourse functional cognitive psycholinguistic and external factors The case studies investigated include the alternation between synthetic and analytic comparatives between the s genitive and the of genitive between gerundial and infinitival complementation particle placement and future marker choice in a number of corpora sampling different spoken registers and geographical varieties of English Providing a probabilistic framework for examining the ways in which persistence among several other internal and external factors influences speakers linguistic choices the book departs from most writings in the field in that it seeks to bridge several research traditions While it is concerned in a classically variationist spirit with internal and external determinants of grammatical variation in English it also draws heavily on ideas and evidence developed by psycholinguists and discourse analysts In seeking to construct a comprehensive model of how speakers make linguistic

choices the study ultimately contributes to a theory of how spoken language works The book is of interest to graduate students and researchers in variationist sociolinguistics probabilistic linguistics psycholinguistics and computational linguistics **Encyclopaedia of the Linguistic Sciences** Vennelakaṇṭi Prakāśaṃ,2008 *Studies in the Historical Phonology of Asian Languages* William G. Boltz,Michael C. Shapiro,1991-01-01 This volume owes its genesis to a series of lectures on various aspects of the historical phonology of Asian languages sponsored by the Asian Linguistics Colloquium of the Department of Asian Languages and Literature of the University of Washington in Seattle The volume includes papers on both theoretical and applied aspects of Asian linguistics and topics examined include vowel harmony dialect variation and inherent variability historical reconstruction based on written records historical reconstruction based on the comparative method accentology and language standardization While some of the papers are comparative in nature others deal with effects of language contact on phonological systems Languages and language families dealt with are Indo Aryan Dravidian Altaic Chinese Uralic Korean and Tai **Expressions of Austronesian Thought and Emotions** James J. Fox,2018-04-18 This collection of papers is the seventh volume in the Comparative Austronesian series The papers in this volume focus on societies from Sumatra to Melanesia and examine the expression and patterning of Austronesian thought and emotions

Explanation in Historical Linguistics Garry W. Davis,Gregory K. Iverson,1992-10-15 This is the first of two volumes deriving from papers presented at the Nineteenth Annual UVM Linguistics Symposium held in Milwaukee in April 1990 The contributions in this volume investigate the general question of what constitutes an explanation of diachronic change and illustrate their proposals in the context of various specific problems in historical linguistics The present volume also includes a solicited paper by Eric P Hamp On remote reconstruction that addresses the validity of distant reconstructions like those of Nostratic and Proto World
