It can be a shock in our culture for a Christian to encounter evolutionary biology and conversely for a Darwinian to encounter biblical Christianity Can a devout Christian with a high view of scripture accept scientific views of evolution Some proponents of biblical Christianity or Darwinian evolution are quick to claim their incompatibility However as strong believers in both Christ and the sciences we find more harmony than friction between them If you or someone you care about sees a tension between evolution and Christian faith we want to help you understand their interaction This book written by a biologist a pastor biblical scholar and a theologian addresses questions from the gifts of each of their disciplines We acknowledge the insights and authority of the Bible explain the science of evolution explore their mutual relevance and argue that holding the two together deepens our understanding of the world and its creator      Biology through the eyes of faith Richard T.
