Gastronomic Judaism as Culinary Midrash Jonathan D. Brumberg-Kraus, 2018-10-29 This book is about what makes food Jewish or better who and how one makes food Jewish Making food Jewish is to negotiate between the local regional and now global foods available to eat and the portable Jewish taste preferences Jews have inherited from their sacred texts and calendars What makes Jewish food Jewish and what makes Jewish eating practices continually viable and meaningful are not fixed dietary rules and norms but rather culinary interpretations and adaptations of them to new times and places culinary midrash Jewish cuisine is a fusion of interactions a reflection of displacement and intentional positioning and re positioning vis a vis sacred texts old and new lands Jewish and non Jewish neighbors old and new family combinations re imaginings of our personal ethnic gender and other identities Jonathan Brumberg Kraus questions Jewish identity in particular and identity generally as something fixed stable and singular and unintentional Jewish food choices are situational often temporary expressions of Jewish identity It addresses the tension between what Jewish authoritative textual sources and their proponents say is Jewish food and Jewish eating and what Jews actually eat So while discussing connections between ancient religious texts and modern Jewish food preferences this book does not stop there Using examples from his experience Brumberg Kraus describes the improvisational characteristics of gastronomic Judaism as the interplay of texts tastes artifacts and everyday practices not only in the classic sacred texts but also in Jewish cookbooks and internet blogs on Jewish home cooking seasonal intensification of Jewish food choices e g latkes at Chanukah or keeping kosher for Passover safe treif the fusion cultural appropriation of diasporic Biblical and Palestinian foods in new Israeli cuisine and the impact of the environmentalist New Jewish Food movement on contemporary Jewish food choices and identity The Oxford Handbook of Food History Jeffrey M. Pilcher, 2012-11-08 The final chapter in this section explores the uses of food in the classroom A *Portable God* Risa Levitt Kohn, Rebecca Moore, 2007 Many Christians and Jews believe that their faiths developed independently from each other and that their religions are distinct even antagonistic towards each other A *Portable God* dramatically departs from the idea that the birth of Judaism and Christianity are two separate unrelated events Judaism and Christianity's origins are not seen as following a linear chronological process that places the Israelites in the beginning followed by the Jews and finally the Christians On the contrary A *Portable God* shows that both Judaism and Christianity emerge from the same religious tradition_ that of ancient Israel_ at the same time By telling the common story of Jewish and Christian origins A *Portable God* shows Jews and Christians as siblings rather than as parent and child showing that the similarities between Judaism and Christianity far outweigh their differences ultimately fostering appreciation for the shared heritage of Judaism and Christianity Food and Identity in Early Rabbinic Judaism Jordan Rosenblum, 2010-05-17 Food often defines societies and even civilizations Through particular commensality restrictions groups form distinct identities This identity is enacted daily turning the biological need to eat into a culturally significant activity In this book Jordan D

Rosenblum explores how food regulations and practices helped to construct the identity of early rabbinic Judaism Bringing together the scholarship of rabbinics with that of food studies this volume first examines the historical reality of food production and consumption in Roman era Palestine It then explores how early rabbinic food regulations created a distinct Jewish male and rabbinic identity Aspects of Performance in Faith Settings Andrey Rosowsky,2019-01-03 What is the role of performance in faith practices How is performance understood in and across a range of faith settings How are performance and faith conceptualised through different academic disciplines This collection of essays addresses these questions and others as it explores the complex relationship present in the nexus between faith and performance A naturally inter disciplinary work this book contains contributions from a diverse group of scholars representing a wide range of methodologies and theoretical perspectives As sociolinguists explore how language performance shapes and is shaped by faith social anthropologists and psychologists examine how identity performance is crucial in negotiating faith identities and scholars from theatre and performance studies engage with ways material settings are performatively transfigured to create sacred spaces to mention but a few approaches covered in this book the reader is taken on a journey of the world s faiths and their diverse practices **Jews and Their Foodways** Anat Helman,2015-12-01 Bringing together contributions from a diverse group of scholars Volume XXVIII of Studies in Contemporary Jewry presents a multifaceted view of the subtle and intricate relations between Jews and their foodways The symposium covers Europe the Middle East Africa and North America from the 20th century to the 21st **Holiness and Law** Benjamin Brown,2024-06-04 Hasidic groups have myriad customs While ordinary Jewish law halakhah denotes the bar of holiness mandated for the ordinary Jew these customs represent the higher threshold expected of Hasidim intended to justify their title as hasidim pious How did the hasidic masters perceive the enactment of these new norms at a time in which the halakhah had already been solidified How did they explain the normative power of these customs over communities and individuals and how did they justify customs that diverged from the positive halakhah This book analyzes the answers given by nineteenth century hasidic authors It then examines a test case kedushah holiness or sexual abstinence among married men a particularly restrictive norm enacted by several twentieth century hasidic groups Through the use of theoretical tools and historical contextualization the book elucidates the normative circles of hasidic life their religious and social sources and their interrelations *The Medieval Archive of Antisemitism in Nineteenth-Century Sweden* Cordelia Heß,2021-12-20 The significance of religion for the development of modern racist antisemitism is a much debated topic in the study of Jewish Christian relations This book the first study on antisemitism in nineteenth century Sweden provides new insights into the debate from the specific case of a country in which religious homogeneity was the considered ideal long into the modern era Between 1800 and 1900 approximately 150 books and pamphlets were printed in Sweden on the subject of Judaism and Jews About one third comprised of translations mostly from German but to a lesser extent also from French and English Two thirds were Swedish originals covering all genres and topics

but with a majority on religious topics conversion supersessionism and accusations of deicide and bloodlust The latter stem from the vastly popular medieval legends of Ahasverus Pilate and Judas which were printed in only slightly adapted forms and accompanied by medieval texts connecting these apocryphal figures to contemporary Jews ascribing them a physical essential and biological coherence and continuity a specific Jewish temporality shaped in medieval passion piety which remained functional and intelligible in the modern period Relying on medieval models and their combination of religious and racist imagery nineteenth century debates were informed by a comprehensive and mostly negative knowledge about Jews

The Jewish Dietary Laws in the Ancient World Jordan D. Rosenblum, 2016-12-15 In *The Jewish Dietary Laws in the Ancient World* Jordan D Rosenblum explores how cultures critique and defend their religious food practices In particular he focuses on how ancient Jews defended the kosher laws or kashrut and how ancient Greeks Romans and early Christians critiqued these practices As the kosher laws are first encountered in the Hebrew Bible this study is rooted in ancient biblical interpretation It explores how commentators in antiquity understood applied altered innovated upon and contemporized biblical dietary regulations He shows that these differing interpretations do not exist within a vacuum rather they are informed by a variety of motives including theological moral political social and financial considerations In analyzing these ancient conversations about culture and cuisine he dissects three rhetorical strategies deployed when justifying various interpretations of ancient Jewish dietary regulations reason revelation and allegory Finally Rosenblum reflects upon wider contemporary debates about food ethics

Nature in

the Middle Ages and the Early Modern Times Albrecht Classen, 2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches
