A Fool's Errand Albion W. Tourgée, 2005-11-01 There had been rumors in the air for some months of a strangely mysterious organization said to be spreading over the Southern States which added to the usual intangibility of the secret society an element of the grotesque superstition unmatched in the history of any other Here and there throughout the South by a sort of sporadic instinct bands of ghostly horsemen in quaint and horrible guise appeared and admonished the lazy and trifling of the African race from Chapter XXVII A New Institution Subtitled A Novel of the South During Reconstruction this 1879 bestseller by a participant in that great social experiment is the barely fictionalized account of the career of a Northern lawyer in North Carolina after the Civil War A champion of the poor and landless of any race and a keen observer of the dilemmas facing uneducated Negroes in the postwar period Tourgée offers us an important eyewitness account of one of the most tumultuous eras of American history one that continues to influence the course of the American experiences of race and class to this day American abolitionist and lawyer ALBION W. TOURGÉE 1838-1905 also wrote *Figs and Thistles* 1879 *A Fool's Errand* Albion Winegar Tourgée, 1988 *A Fool's Errand* Albion W. Tourgée, 2019-01-09 The value of *A Fool's Errand* lies in its fearless criticism not merely of the South for its post-Civil War attitudes and policies but of the national governmental problems raised by the war and its aftermath Tourgée insisted on discussing the problems because he was convinced that they had not been solved satisfactorily or indeed at all In his understanding and interpretation of Reconstruction Tourgée emphasized the fact that in the years immediately following the Civil War the former Confederates had control of their own state governments It was during this period he argued that they clearly demonstrated their unwillingness or inability to face up to the implications of the surrender at Appomattox As an intelligent observer and participant in Southern Reconstruction Tourgée was in an excellent position to provide his contemporaries and posterity with an important commentary and criticism of what he witnessed and experienced He was the pioneer post-war social critic

**A Fool's Errand** Albion Winegar Tourgée, 1879 **A Fool's Errand** Lonnie G. Bunch III, 2019-09-24 Founding Director Lonnie Bunch's deeply personal tale of the triumphs and challenges of bringing the Smithsonian National Museum of African American History and Culture to life His story is by turns inspiring funny frustrating quixotic bittersweet and above all a compelling read In its first four months of operation the Smithsonian National Museum of African American History and Culture surpassed one million visits and quickly became a cherished vital monument to the African American experience And yet this accomplishment was never assured In *A Fool's Errand* founding director Lonnie Bunch tells his story of bringing his clear vision and leadership to realize this shared dream of many generations of Americans Outlining the challenges of site choice architect selection building design and the compilation of an unparalleled collection of African American artifacts Bunch also delves into his personal struggles especially the stress of a high profile undertaking and the triumph of establishing such an institution without mentors or guidebooks to light the way His memoir underscores his determination to

create a museum that treats the black experience as an essential component of every American's identity. This inside account of how Bunch planned, managed, and executed the museum's mission informs and inspires not only readers working in museums, cultural institutions, and activist groups but also those in the nonprofit and business worlds who wish to understand how to succeed and do it spectacularly in the face of major political, structural, and financial challenges.

Albion W. Tourgee, 1966      Reading Confederate Monuments Maria Seger, 2022-08-24 Winner of a 2023 Edited Collection Award from the South Atlantic Modern Language Association

Contributions by Danielle Christmas, Joanna Davis, McElligatt, Garrett Bridger, Gilmore, Spencer R. Herrera, Cassandra Jackson, Stacie McCormick, Maria Seger, Randi Lynn Tanglen, Brook Thomas, Michael C. Weisenburg, and Lisa Woolfork. Reading Confederate Monuments addresses the urgent and vital need for scholars, educators, and the general public to be able to read and interpret the literal and cultural Confederate monuments pervading life in the contemporary United States. The literary and cultural studies scholars featured in this collection engage many different archives and methods, demonstrating how to read literal Confederate monuments as texts and in the context of the assortment of literatures that produced and celebrated them. They further explore how to read the literary texts, advancing and contesting Confederate ideology in the US cultural imaginary then and now, as monuments in and of themselves. On top of that, the essays published here lay bare the cultural and pedagogical work of Confederate monuments and counter-monuments, divulging how and what they teach their readers as communal and yet contested narratives, thereby showing why the persistence of Confederate monuments matters greatly to local and national notions of racial justice and belonging. In doing so, this collection illustrates what critics of US literature and culture can offer to ongoing scholarly and public discussions about Confederate monuments and memory. Even as we remove, relocate, and recontextualize the physical symbols of the Confederacy dotting the US landscape, the complicated histories, cultural products, and pedagogies of Confederate ideology remain embedded in the national consciousness. To disrupt and potentially dismantle these enduring narratives alongside the statues themselves, we must be able to recognize, analyze, and resist them in US life. The pieces in this collection position us to think deeply about how and why we should continue that work.

The Making of a Confederate  
William L. Barney, 2008. Despite the advances of the civil rights movement, many white southerners cling to the faded glory of a romanticized Confederate past. In The Making of a Confederate, William L. Barney focuses on the life of one man, Walter Lenoir of North Carolina, to examine the origins of southern white identity alongside its myriad ambiguities and complexities. Born into a wealthy slaveholding family, Lenoir abhorred the institution, opposed secession, and planned to leave his family to move to Minnesota in the free North. But when the war erupted in 1860, Lenoir found another escape route: he joined the Confederate army, an experience that would radically transform his ideals. After the war, Lenoir like many others embraced the cult of the Lost Cause, refashioning his memory and beliefs in an attempt to make sense of the war, its causes, and its consequences. While some Southerners sank into depression, aligned with the victors, or fiercely opposed the new order,

Lenoir withdrew to his acreage in the North Carolina mountains There he pursued his own vision of the South s future one that called for greater self sufficiency and a more efficient use of the land For Lenoir and many fellow Confederates the war never really ended As he tells this compelling story Barney offers new insights into the ways that selective memory informs history through Lenoir s life readers learn how individual choices can transform abstract historical processes into concrete actions

**Reconstructing the Household** Peter W. Bardaglio,2000-11-09 In Reconstructing the Household Peter Bardaglio examines the connections between race gender sexuality and the law in the nineteenth century South He focuses on miscegenation rape incest child custody and adoption laws to show how southerners struggled with the conflicts and stresses that surfaced within their own households and in the larger society during the Civil War era Based on literary as well as legal sources Bardaglio s analysis reveals how legal

contests involving African Americans women children and the poor led to a rethinking of families sexuality and the social order Before the Civil War a distinctive variation of republicanism based primarily on hierarchy and dependence characterized southern domestic relations This organic ideal of the household and its power structure differed significantly from domestic law in the North which tended to emphasize individual rights and contractual obligations The defeat of the Confederacy emancipation and economic change transformed family law and the governance of sexuality in the South and allowed an unprecedented intrusion of the state into private life But Bardaglio argues that despite these profound social changes a preoccupation with traditional notions of gender and race continued to shape southern legal attitudes

**The Art Amateur**, 1902 *Creating Citizenship in the Nineteenth-Century South* William A. Link, David Brown, Brian E. Ward, Martyn Bone, 2018-02-19 This is a remarkable collection of essays Citizenship clearly forms the backbone for these investigations but the range of the contributors backgrounds in terms of disciplinary training and the approaches they take to the question makes this collection both broad and deep As it turns out there is no other way to tackle a concept as central but also as slippery as citizenship A shorter or more focused collection would miss the nuances and insights that this one offers Aaron Sheehan Dean author of Why Confederates Fought Family and Nation in Civil War Virginia President Obama s citizenship continues to be questioned by the birthers the Cherokee Nation has revoked tribal rights from descendants of Cherokee slaves and Parliament in the U K is debating citizenship education It is in both this broader context and in the narrower academic one that *Creating Citizenship in the Nineteenth Century South* stands as a smart exciting and most welcome contribution to southern history and southern studies Michele Gillespie author of Katharine and R J Reynolds
