For a Hundred Lifetimes James E. Gilmer, 2001-06 Nothing could keep them apart forever not time not distance not hate not even death After a century of heartache the passionate soulmates in this story find each other again They risk life limb and even their souls to stay together this time
James Edward Gilmer, 2011-01 100 Year Cover up Revealed We Lived With Dinosaurs makes our past coexistence with dinosaurs effortlessly apparent with a wide variety of proof ranging from artistic to documentary to scientific Although it automatically invalidates evolution by proving coexistence this book takes the extra step of examining and destroying with logic and science every major assumption and claim made by evolutionists including the absurd notion that dinosaurs and humans missed each other by 65 million years The sub topic that runs throughout the entire book is that for the past century evolutionists have been brainwashing us with bogus claims while actively and passively covering up evidence showing that humans coexisted with dinosaurs and that evolution is basically a hoax 100 Year Cover up Revealed We Lived With Dinosaurs not only proves the reality of coexistence and the fallacy of evolution but also shows how the suppression of these facts has polluted our laboratories classrooms and media Finally this book highlights the scientific and educational implications of its conclusions and offers an intelligent alternative to evolution
