For the fifth anniversary of American Compass the conservative think tank hailed by the Wall Street Journal as the forefront of rethinking traditional conservative economic ideas comes a collection of its best most influential writing American Compass is the nerve center of the New American Right the political strategists and policy experts navigating a new Republican path through the economic issues shaping today's political landscape trade and immigration technology and finance industrial policy education welfare labor family and more The New Conservatives is the organization's current text a collection of its most influential writing on why and how true conservative government fosters markets that serve society not the other way around As The Economist put it American Compass is a slaughterhouse for Republican sacred cows With essays and manifestos by American Compass founder Oren Cass New America co founder Michael Lind U S Secretary of State Marco Rubio National Affairs founding editor Yuval Levin American Affairs founding editor Julius Krein author and former American Conservative senior editor Helen Andrews and Comment senior editor Brian Dijkema The New Conservatives breaks down America's economic and political failures before drawing upon a reassessed American conservative tradition to prove how an innovative conservative movement breaking from the GOPs free market dogmatism is defined by three pillars productive markets supportive communities and responsive politics The book explores American Compass groundbreaking projects like the Cost of Thriving Index which explains how the typical American worker could once provide a family with middle class security on 40 weeks of work but now requires more than 60 a problem there being 52 weeks in a year It refines the American conservative tradition which most people today wrongly assume emphasized free markets and limited government reminding readers that the early American republic pursued a robust national economic policy with high protective tariffs and intensive public investment It offers new conservative critiques of modern markets that have failed to deliver on capitalism's promise that globalization cheap labor and financial markets will deliver widespread prosperity And it sets capitalism's sights on community recalibrating a right of center attitude toward families worker power and solidarity and higher education The New Conservatives published in celebration of American Compass fifth anniversary is a conservative manifest a ship's log and an updated nautical chart to an economy in which free markets are not an end unto themselves but are rather a means to an end national liberty and prosperity steered by public policy      *Conservative thinkers* Mark Garnett, Kevin Hickson, 2013-07-19

This book outlines and evaluates the political thought of the Conservative Party through a detailed examination of its principal thinkers from Harold Macmillan to the present Traditionally the Conservative Party has been regarded as a vote gathering machine rather than a vehicle for ideas This book redresses the balance through a series of biographical essays examining the thought of those who have contributed most to the development of ideas within the party The chapters benefit

from archival research and interviews with leading Conservatives The recent revival of Conservative fortunes makes the book particularly timely The book begins with an introductory chapter explaining the role of ideology in the Conservative Party It then traces the political thought of the Conservative Party through its principal theorists since the 1930s These are Harold Macmillan R A Butler Quintin Hogg Enoch Powell Angus Maude Keith Joseph the traditionalists Maurice Cowling T E Peter Utey Peregrine Worsthorne Shirley Letwin and Roger Scruton Ian Gilmour John Redwood and David Willetts The book concludes with an overall assessment of the political thought of the Conservative Party and the relevance of past debates for contemporary Conservatism The book will be of considerable interest to academics and non academics alike for those who have a special interest in the Conservative Party but also for any student of contemporary British Politics
