Victorian Narratives of the Recent Past Helen Kingstone,2017-03-30 This book explains why narrating the recent past is always challenging and shows how it was particularly fraught in the nineteenth century The legacy of Romantic historicism the professionalization of the historical discipline and even the growth of social history all heightened the stakes This book brings together Victorian histories and novels to show how these parallel genres responded to the challenges of contemporary history writing in divergent ways Many historians shrank from engaging with controversial recent events This study showcases the work of those rare historians who defied convention including the polymath Harriet Martineau English nationalist J R Green and liberal enthusiast Spencer Walpole A striking number of popular Victorian novels are retrospective This book argues that Charlotte Bront Elizabeth Gaskell and George Eliot s novels of the recent past are long overdue recognition as genuinely historical novels By focusing on provincial communities these novelists reveal undercurrents invisible to national narratives and intervene in debates about women s contribution to history

The Dynamics Of Race And Gender Haleh Afshar, Mary Maynard, 2012-10-12

During the past decade feminism and women s studies have been forced to acknowledge the diversities of women s experiences as well as the patriarchal oppression that they share The emphasis on difference has shattered the illusion of homogeneity and sisterhood which previously characterized white middle class Westernized feminist politics and analysis There is relatively little work which concentrates on the inter relationships of race and gender in general and the consequences of racism for women of different backgrounds in particular The Dynamics of Race and Gender aims to contribute to the debate and understanding in this area Emphasis has been given to age class disability race and sexuality The contributors to this volume are from different religious cultural and ethnic backgrounds giving a balanced and broad ranging perspective on this important social question Organized around three main themes which are issues of theory and method questions of identity racism and sexism at work the chapters of this book indicate how the processes of race and gender interrelate in highly complex and contradictory ways Demonstrating the benefits to be gained from analysing the interplay of various axes of differentiation in specific empirical and historical locations and in doing so under scoring the point that diversity among women cannot be seen as a static phenomenon
