Purcell,2007-12-28 In this lively historical examination of American federalism a leading scholar in the field refutes the widely accepted notion that the founding fathers carefully crafted a constitutional balance of power between the states and the federal government Edward A Purcell Jr bases his argument on close analysis of the Constitution s original structure and the ways that structure both induced and accommodated changes over the centuries There was no clear agreement among the founding fathers regarding the true nature of American federalism Purcell contends nor was there a consensus on correct lines dividing state and national authority Furthermore even had there been some true original understanding the elastic and dynamic nature of the constitutional structure would have made it impossible for subsequent generations to maintain any original or permanent balance The author traces the evolution of federalism through the centuries focusing particularly on shifting interpretations founded on political interests He concludes with insights into current issues of federal power and a discussion of the grounds on which legitimate decisions about federal and state power should rest **American Sanctions**

**in the Asia-Pacific** Brendan Taylor,2009-12-04 Sanctions are a persistent many would argue increasingly central component of American efforts to shape foreign policy outcomes in the Asia Pacific The use of sanctions in the context of two of the most pressing regional security issues currently on Washington s radar the ongoing North Korean nuclear crisis and the management of China s emergence clearly reaffirms this pattern This book provides the first comprehensive treatment of US sanctions policy in the Asia Pacific Using the Bill Clinton and George W Bush presidencies as a basis for comparison it examines nine prominent episodes involving the US use of sanctions toward countries in this economically and strategically vital part of the world In each case it addresses the reasons why sanctions were employed in the first place the precise nature of sanctions and how they operated in practice before evaluating their effectiveness Finally it identifies common trends that emerge from this analysis and draws out practical implications for US sanctions policy in particular when and how the US can and cannot optimally use sanctions in an Asia Pacific context White House Studies Compendium Robert
