Friends But No Allies Economic Liberalism And The Laws Of Nations:

Friends But No Allies Stephen C. Neff,1990 A study of the historical and intellectual context of the struggle for a liberal economic world order and an elucidation of the post war world economic system and its principle institutions the General Agreement on Tariffs and Trade GATT the World Bank and the IMF The final chapter includes commentary on the Arab oil crisis of the 1970s certainly this comprehensive history and analysis sheds light on forces at work in the current Middle East crisis Annotation copyrighted by Book News Inc Portland OR

International Relations In A Changing Global System Seyom Brown,2018-02-19 This book expands and deepens the analysis of a new approach to the study of international relations in a changing global system elaborating the essential characteristics of the anarchic structure of the world polity

Cosmopolitan Citizenship Roland Dannreuther,Kimberly Hutchings,2016-07-27 An original discussion and analysis of the meaning and scope of citizenship The book examines the concept of citizenship in the light of normative ethical and political arguments as to the possible costs and benefits to political order community rights and participation of opting either for a cosmopolitan or a bounded citizenship ideal As well as putting the concept of cosmopolitan citizenship into question this book raises fundamental issues as to the adequacy of the current conceptual resources of political and international theory

The Liberal Moment Robert Latham,1997 How did the U S establish its dominant role in international relations in the second half of the twentieth century What central ideas policies and methods shaped the Cold War international order Latham focuses on World War II and its aftermath when the U S in consort with other nations attempted to impose an order on the world based on principles of self determination and liberal democracy

Introduction to International Relations Joseph Grieco,G. John Ikenberry,Michael Mastanduno,2018-10-13 The second edition of this bestselling introductory textbook provides a truly comprehensive and accessible guide to international affairs Bringing together the combined decades of experience in researching and teaching global politics of three acclaimed scholars this text introduces students to what is happening in our complex and rapidly changing world and enables them to analyse those events Pedagogically driven the book is structured around enduring questions that reflect the key concepts in world politics It makes use of the levels of analysis framework and boxed features to highlight connections between theory and practice aspirations and reality and history and contemporary events This fully updated second edition includes a brand new chapter on International Organizations a new feature to give students an insight into the latest academic research and has been extensively rewritten throughout This is an ideal textbook for introductory modules for political science and international relations undergraduate students This new edition offers A brand new chapter on International Law and Organizations A new Academic Insights feature in every chapter encouraging closer connections with the latest academic research New author video debates on thought provoking questions Extensively rewritten chapters to include the latest advances in thinking and contemporary case examples A historically driven empirical narrative to answer broad enduring questions A rigorous analytic approach covering

pluralistic theoretical approaches A comprehensive companion website including videos author debates simulation activities quizzes and teaching tools **The Concept of Treaty in International Law** Jan Klabbbers,2023-09-25 Whether or not a certain norm is legally binding upon international actors may often depend on whether or not the instrument which contains the norm is to be regarded as a treaty In this study the author argues that instruments which contain commitments are ex hypothesi treaties In doing so he challenges popular notions proclaiming the existence of morally and politically binding agreements and so called soft law Such notions Klabbbers argues are internally inconsistent and founded upon untenable presumptions Moreover they find little support in the pertinent decisions of municipal and international courts and tribunals The book addresses issues of importance not only for academics working in international law constitutional law and political science but also for practitioners involved in the making implementation and enforcement of international agreements

The Rights of Strangers Georg Cavallar,2017-07-05 This study investigates the thinking of European authors from Vitoria to Kant about political justice the global community and the rights of strangers as one special form of interaction among individuals of divergent societies political communities and cultures Taking an interdisciplinary approach it covers historical material from a predominantly philosophical perspective interpreting authors who have tackled problems related to the rights of strangers under the heading of international hospitality Their analyses of the civitas maxima or the societas humani generis covered the nature of the global commonwealth Their doctrines of natural law ius naturae were supposed to provide what we nowadays call theories of political justice The focus of the work is on international hospitality as part of the law of nations on its scope and justification It follows the political ideas of Francisco de Vitoria and the Second Scholastic in the 16th century of Alberico Gentili Hugo Grotius Samuel Pufendorf Christian Wolff Emer de Vattel Johann Jacob Moser and Immanuel Kant It draws attention to the international dimension of political thought in Thomas Hobbes John Locke Jean Jacques Rousseau David Hume Adam Smith and others This is predominantly a study in intellectual history which contextualizes ideas but also emphasizes their systematic relevance **The rights and duties of neutrals** Stephen

Neff,2022-12-20 Now available as an ebook for the first time this 2000 title in the Melland Schill Studies in International Law series is a survey of the history of law of neutrality from its mediaeval roots to the end of the twentieth century The theme is the eternal clash between the rights of neutrals and belligerents between the right of belligerents to defeat their enemies and the right of neutrals to trade freely with all parties Over the centuries belligerent powers have devised various legal means of restricting neutrals from trading with their enemies such as the law of blockade and contraband carriage At the same time neutral traders have done their best to evade and circumvent these restrictions This book traces the evolution of state practice together with the debates over the relevant doctrinal issues and the various attempts to reform and codify the law of neutrality **America, China, and the Struggle for World Order** G. John Ikenberry,Zhu Feng,Wang Jisi,2015-07-22 This book brings together twelve scholars six Americans and six Chinese to explore the ways America and China think about

international order The book shows how each country's traditions, historical experiences and ideologies influence current global dialogues

Legal Control of the Private Military Corporation B. Sheehy, J. Maogoto, Virginia Newell, 2008-12-11 Private military organizations are a new and important feature of the international landscape They offer control of potential massive violence to the highest bidder with very limited accountability This book offers critical insights into both the phenomenon and the challenges of and potential for regulation

The Palgrave Handbook of Contemporary Geopolitics Zak Cope, 2024-11-01 The Palgrave Handbook of Contemporary Geopolitics features expert geopolitical analysis from internationally renowned experts in the field Reflecting the need for global analysis of national and regional politics The Handbook highlights the wider strategic economic cultural and security geography of contemporary international relations The contributions underscore the complex interplay between sociopolitical processes at the national level and their articulation at the regional and global levels

The Political Economy of Empire in the Early Modern World S. Reinert, P. Røge, 2013-09-24 This collection of essays draws on fresh readings of classic texts as well as rigorous research in the archives of Europe's greatest imperial power Its contributors paint a powerful picture of the nature and implementation of political economy in the long eighteenth century from the East to the West Indies

The First Age of Industrial Globalization Maartje Abbenhuis, Gordon Morrell, 2019-10-17 This book offers an accessible and lively survey of the global history of the age of industrialization and globalization that arose in the wake of the Napoleonic Wars and collapsed in the maelstrom of the First World War Through a combination of industrialization technological innovation and imperial expansion the industrializing powers of the world helped to create inter connected global space that left few regions untouched In ten concise chapters this book relays the major shifts in global power economics and society outlining the interconnections of global industrial imperial and economic change for local and regional experiences identities and politics It finishes with an expos on the catastrophic impact of the First World War on this global system The First Age of Industrial Globalization weaves together the histories of industrialization world economy imperialism international law diplomacy and war which historians usually treat as separate developments and integrates them to offer a new analysis of an era of fundamental historical change It shows that the revolutionary changes in politics society and international affairs experienced in the 19th century were inter connected developments It is essential reading for any student of modern global history

What Lincoln Believed Michael Lind, 2007-12-18 Countless books have been written about Abraham Lincoln yet few historians and biographers have taken Lincoln seriously as a thinker or attempted to place him in the context of major intellectual traditions In this refreshing brilliantly argued portrait Michael Lind examines the ideas and beliefs that guided Lincoln as a statesman and shaped the United States in its time of great crisis In a century in which revolutions against monarchy and dictatorship in Europe and Latin America had failed Lincoln believed that liberal democracy must be defended for the good of the world During an age in which many argued that only whites were capable of republican government

Lincoln insisted on the universality of human rights and the potential for democracy everywhere Yet he also held many of the prejudices of his time his opposition to slavery was rooted in his allegiance to the ideals of the American Revolution not support for racial equality Challenging popular myths and capturing Lincoln s strengths and flaws Lind offers fascinating and revelatory insights that deepen our understanding of this great and complicated man *Translating Empire* Sophus A. Reinert,2011-10-17 Historians have traditionally turned to free trade and laissez faire to explain the development of political economy during the Enlightenment Reinert argues that economic emulation was the prism through which philosophers ministers reformers and merchants thought about imperialism economics industry and reform in the early modern period

Controversies in International Relations Theory Charles W. Kegley Jr,1995-03-27 This new reader in international theory brings together nine new essays and four classics two of them heavily revised for republication here to provide a clear introduction to the two dominant traditions in contemporary international relations realism and neoliberalism As well as setting out the current state of each approach and mapping out the possibilities of creative synthesis the book focuses on emerging neorealist and neoliberal perspectives on such key issues as international trade and organisation arms control and morality in foreign policy **Restraining Power through Institutions** Alexandru V. Grigorescu,2023-10-09 This book challenges the traditional view that meaningful analogies cannot be drawn between domestic and international politics Alexandru V Grigorescu shows that there are important parallels to be drawn across these two realms if political interactions among states over the past two centuries are compared to those within states going back about a thousand years He focuses specifically on the evolution of institutions that restrain concentrated power such as courts assemblies and bureaucracies Restraining Power through Institutions begins by developing a set of theoretical arguments about the emergence change and consolidation of institutional restraints on power These are primarily derived from literature focusing on domestic politics going back to events such as those surrounding the signing of the Magna Carta and the emergence and evolution of the Curia Regis in England or of the Estates General and Parlements in France It then assesses the relevance of such arguments for the evolution of numerous international institutions international courts such as the Permanent Court of Arbitration International Court of Justice and International Criminal Court international assemblies and parliaments such as the Assembly of the League of Nations UN General Assembly and European Parliament and international secretariats such as those of the Central Commission for the Navigation of the Rhine League of Nations UN and World Bank The similarities between developments in the domestic and international realms lead to a number of important conclusions about future expectations for international institutions and for world politics more broadly In particular the book argues that complementing the traditional focus on efforts to acquire power with the Lockean focus on restraining power offers a more complete depiction of international politics This novel perspective consequently shifts the focus from the interests and actions of a handful of powerful states to those of virtually all states and groups of states regardless of how powerful they are

The Politics of Strategic Adjustment Peter Trubowitz, Emily O. Goldman, Edward Rhodes, 1999 The contributors examine a century of American experience to illustrate how the United States determines its security policies While scholars have typically focused on outside factors such as international pressures constraints and opportunities this collection of essays shows that decisions about strategy are critically shaped by domestic politics political ideologies state structure and societal interest

An Age of Neutrals Maartje Abbenhuis, 2014-06-12 An Age of Neutrals provides a pioneering history of neutrality in Europe and the wider world between the Congress of Vienna and the outbreak of the First World War The long nineteenth century 1815 1914 was an era of unprecedented industrialization imperialism and globalization one which witnessed Europe's economic and political hegemony across the world Dr Maartje Abbenhuis explores the ways in which neutrality reinforced these interconnected developments She argues that a passive conception of neutrality has thus far prevented historians from understanding the high regard with which neutrality as a tool of diplomacy and statecraft and as a popular ideal with numerous applications was held This compelling new history exposes neutrality as a vibrant and essential part of the nineteenth century international system a powerful instrument used by great and small powers to solve disputes stabilize international relations and promote a variety of interests within and outside the continent

Revolution and World Politics Fred Halliday, 1999-08-23 The relation of revolutions to international relations is central to modern history Revolutions have as much as war or nationalism shaped the development of world politics Equally revolutions have been in cause ideology and consequence international events By putting the international politics of revolution centre stage Fred Halliday's book makes a major contribution to the understanding of both revolution and world politics

When people should go to the ebook stores, search commencement by shop, shelf by shelf, it is in reality problematic. This is why we offer the book compilations in this website.
