mediated expressions of frustration and dissent that boldly crystallized public sentiments under highly repressive conditions. These recordings transformed Shajarian into a national icon in Iran and through the diaspora. The book traces the subsequent expansion of Shajarian's music and presence in ever widening circles to his current global profile powerfully underlined by his receipt of prestigious awards from UNESCO and other global institutions. Shajarian's artistic accomplishments including his recent activity in designing and crafting a range of new stringed instruments and socio-political significance are placed in the broader context of Iranian musical culture in the decades following the Revolution. In surveying Shajarian's legacy this study concludes with questions arising from the Election Crisis of 2009 where he was popularly proclaimed as Master of the Green Movement. *Ostad e Sabz* for his outspoken opposition to the violent crackdown, the subsequent political stalemate and how these dynamics resonate with issues of the present state and relevance of Persian classical music in the twenty first century. This book forms the conclusion of the most detailed study to date of the music life and environment of the most influential musician in Iranian classical music of the past three decades.

Immigrant Children and Youth Alberto M. Bursztyn Ph.D., Carol Korn-Bursztyn, 2015-07-14 Immigrants now comprise one fourth of the 75 million children in the United States. The ability of today's immigrant children to become productively engaged adults hinges on their internal resources and mental health. This book ascertains their psychological challenges and their often misunderstood needs. This book is intended to inform both the general public and professionals working with immigrant children and adolescents about the importance and complexity of addressing their psychological issues and experiential challenges. The work covers the topic of immigrant children's mental health from multiple perspectives while maintaining a focus on developmental needs and identifying the specific problems posed by linguistic and cultural transition. The chapters present case studies and vignettes that serve to illustrate the topics providing vivid depictions of mental health issues and highlighting the importance of specific interventions. As new immigrant groups continue to settle in the United States the social and emotional well being of their children has far reaching implications for the future of our society making this volume of critical significance to therapists, educators, policymakers, child advocates and other audiences.
