Malevolent Muse Oliver Hilmes, 2015-04-22 Of all the colorful figures on the twentieth century European cultural scene hardly anyone has provoked more polarity than Alma Schindler Mahler Gropius Werfel 1879 1964 mistress to a long succession of brilliant men and wife of three of the best known composer Gustav Mahler architect Walter Gropius and writer Franz Werfel To her admirers Alma was a self sacrificing socialite who inspired many great artists Her detractors found her a self aggrandizing social climber and an alcoholic bigoted vengeful harlot as one contemporary put it a cross between a grande dame and a cesspool So who was she really When historian Oliver Hilmes discovered a treasure trove of unpublished material much of it in Alma s own words he used it as the basis for his first biography setting the record straight while evoking the atmosphere of intellectual life in Europe and then in migr communities on both coasts of the United States after the Nazi takeover of their home territories First published in German in 2004 the book was hailed as a rare combination of meticulously researched scholarship and entertaining writing making it a runaway bestseller and advancing Oliver Hilmes to his position as a household name in contemporary literature Alma Mahler was one of the twentieth century s rare originals worthy of her immortalization in song Oliver Hilmes has provided us with an even handed yet tantalizingly detailed account of her life bringing Alma s singular story to a whole new audience Heinz Tesar, Sammlung Essl, Klosterneuburg Heinz Tesar, Gottfried Knapp, 2000 Text in English and German Heinz Tesar s buildings occupy a very particular place on the Austrian architectural scene which is anyway populated by a lot of individualists There is a great deal of creative imagination

at work here which always operates outside the scope of modern routine The town of Klosterneuburg north of Vienna has become something like an artistic home for Tesar The Schomerhaus an office building whose huge oval central hall leaves convention far behind and the Protestant church which has a rounded floor plan like a tear drop were now followed by the impressive museum he has built here to house 4000 objects from the private Essl collection which includes the most important collection of Austrian art after 1945 The floor plan is based on a triangle Above a storage floor that runs the whole length of the building three individually shaped architectural entities are grouped around a green courtyard The elaborately orchestrated section of the building on the short leg of the triangle accommodates the entrance foyer staircase library offices and a flat The long side of the triangle contains the hall for temporary exhibitions extending over two storeys on the lower floor it is glazed on the courtyard side and in the upper storey it is lit partly from the side and partly from the skylights in the slightly undulating roof The hypotenuse is made up of a sequence of parallel galleries they are topped by lanterns which admit a great deal of daylight Finally Tesar gives the cubic building an organic touch with a curved flourish at the tip of the triangle Following Gehry and Zumthor who have recently made important contributions to the theme of art museums Tesar is now offering a variant that responds very physically to its surroundings creating individual spaces with a variety of light
